Part One: We Think and We Dream

Quebec City Massacre (2017-001)

At a mosque in Quebec City
January 29th
People bowed and knelt in prayer
Amid a turbulent time.
Then from somewhere came the gunshots
Out of the Sunday blue.
Six good men fell to the floor.
There was nothing we could do.

These men loved and were loved
By a community
Building a life in Canada
Where they might live their dreams.
But now their hearts are silent
Their lives come to an end.
So we mourn this act of terror.
May it never be again.
May it never be again.

There's blood upon the carpet
And bullet holes in the walls
Shoes left by those who perished
And shadows growing tall.
And vigils across the country
In solidarity
Have the courage to proclaim a Canada
Of friendship love and peace.

For these men loved and were loved
By a community
Building a life in Canada
Where all may live their dreams.
But now their hearts are silent
Their lives come to an end.
We pledge ourselves to love and peace.
May it never be again.
May it never be again.

What shall we do my people
Brothers and sisters all
But build a million bridges
And tear down every wall.
Reach out across the nation
To those you've never known.
Welcome you the stranger
Of flesh and blood and bone.

For these men loved and were loved
By a community

Building a life in Canada
Where all may live their dreams.
And now their hearts are silent
Their lives come to an end.
We pledge ourselves to love and hope.
May it never be again.
May it never be again.

Our hearts will not be silent.
The fight's not at an end.
Let's build those million bridges
'Til we count a million friends.
May it never be again.
May it never be again.

Rainbow Maker (2017-002)

My creator is a rainbow-maker
Painting rainbows on the sky.
My creator wants us all to hold
The rainbow hold it high.

We are the rainbow carriers.
We are the rainbow warriors.
We are a rainbow people.
Our dreams will never die.

My creator is a rainbow-maker
Painting rainbows on the sky.
My creator lives in everyone
In our hearts and minds and in our eyes.

We are a universal nation.
We stand as one for liberation.
We know deep down within our hearts
The world we're dreaming of is nigh.

My creator is a rainbow-maker
Painting rainbows on the sky.
My creator calls us all to hold
The rainbow hold it high.
My creator is a rainbow-maker
Painting rainbows on the sky.

That a New Day May Begin (2017-003)

We will power our hearts
With the power of the sun.
We will power our minds
With the gentle winds that come.
We will power our souls
With the love of everyone
That a new day may begin.

Write me a song
About solar energy.
Write me a song
About windmills turning free.
Write me a song
About a future that can be
That a new day may begin.

We will power our hearts
With the power of the sun.
We will power our minds
With the gentle winds that come.
We will power our souls
With the love of everyone
That a new day may begin.

Tell me a story
About a gentle dream.
Tell me a story
Of a future that shall gleam.
Fight against oppression.
Don't be afraid to scream.
That a new day may begin.

We will power our hearts
With the power of the sun.
We will power our minds
With the gentle winds that come.
We will power our souls
With the love of everyone
That a new day may begin.

Internalize the truth
Deep in your heart and soul.
Feel the turning Earth.
Let her power make you whole.
We must phase out oil
And natural gas and coal
That a new day may begin.

We will power our hearts

With the power of the sun.
We will power our minds
With the gentle winds that come.
We will power our souls
With the love of everyone
That a new day may begin.

Our song is a song
Of solidarity.
Our song is a song
Of peace and equity.
Our song is a song
Of sustainability
That a new day may begin.

We will power our hearts
With the power of the sun.
We will power our minds
With the gentle winds that come.
We will power our souls
With the love of everyone
That a new day may begin.
We will power our souls
With the love of everyone
That a new day may begin.

John Dear (2017-004)

John Dear John Dear John Dear

To follow in the footsteps of the Berrigans
Speaking peace through an act of disobedience.
To say we must stand before the powers
And say this is the liberation hour.

John Dear John Dear John Dear

The kingdom is the match that strikes the flame
To confront and disband the power games.
The kingdom is an everlasting dream
A utopia in a rushing stream.

John Dear John Dear John Dear

John Dear a revolutionary priest
As bright as the lightening in the east
With a message to every human soul
That the earth may live
And we may be made whole.

John Dear John Dear John Dear

John Dear spreads his arms before existence
And sees Jesus in nonviolent resistance.
With the voice of a million speaking strong
Turn the world around that we may carry on.

John Dear John Dear John Dear

The action generation will live on
As we speak our truth before the breaking dawn.
Christ is a fighter for the dream
Peace and justice in a mustard seed.

John Dear John Dear John Dear

The action generation will live on
As we speak our truth before the breaking dawn.
Christ is a fighter for the dream
Peace and justice in a mustard seed.

John Dear John Dear John Dear
John Dear John Dear John Dear.

The Light in the People's Eyes (2017-005)

A long time ago
An old woman told me of a light
A light in the people's eyes.
A flash of lightening
And a flame of freedom
Calling all the people to rise.

Memories of uprisings
From down through the centuries
Beating on pounding in our minds.
The dream of how things could be
And the desire to be free
Bringing life and love to humankind.

Túpac Amaru,
Wat Tylor and Crazy Horse,
Hans Bohm, Sandino and Boudica,
Albert Ginger Goodwin,
Louis Riel and Zapata,
Ida Wells, Lucy Parsons, Che Guevarra.

A long time ago
An old woman told me of a light
A light in the people's eyes.
A flash of lightening
And a flame of freedom
Calling all the people to rise.

Memories of uprisings
From down through the centuries
Beating on pounding in our minds.
The dream of how things could be
And the desire to be free
Bringing life and love to humankind.

Gerard Winstanley,
Elizabeth Caty Stanton,
Mother Jones, Annie Buller, Roza Robota,
Dorothy Stowe, Dorothy Stang, Dorothy Cassel,
Thomas Muntzer, Anna Mae, Petra Kelly.

We Struggle (2017-006)

We struggle. We struggle.
We struggle for social justice.
We struggle. We struggle.
We struggle for social justice.

We struggle to the east.
We struggle to the west.
We struggle to the north.
We struggle to the south.
We struggle for social justice everywhere.

We struggle in the morning.
We struggle in the evening.
We struggle at noon-time.
We struggle in the nighttime.
We struggle for social justice all day long.

We struggle in the springtime.
We struggle in the autumn.
We struggle in the summertime.
We struggle in the winter.
We struggle for social justice all year 'round.

We struggle as children.
We struggle as seniors.
We struggle as young adults.
We struggle in our middle years.
We struggle for social justice all our lives.
We struggle for social justice all our lives.

We struggle. We struggle.
We struggle for social justice.
We struggle. We struggle.
We struggle for social justice.

We struggle for social justice all our lives.
We struggle for social justice all our lives.
We struggle for social justice all our lives.

The Wind of the Spirit (2017-007)

There's a wind that blows across the field.
It is the wind of the spirit.
If you listen if you feel
Surely you will hear it.

There's a wind blowing through the wheat
Rustling in the evening.
We are the people. We've come to meet
In love and peace and freedom.
In love and peace and freedom.

The kingdom's like a mustard seed
Small but with such power.
If our souls would dare to dream
The new world it would flower.

We were put upon this earth
To weave a new creation
Where all creatures know their worth
In a song of liberation.
In a song of liberation.

There's a wind that blows across the field.
It is the wind of the spirit.
If you listen if you feel
Surely you will hear it.

There's a wind blowing through the wheat
Rustling in the evening.
We are the people. We've come to meet
In love and peace and freedom.
In love and peace and freedom.

The kingdom's like a mustard seed
Small but with such power.
If our souls would dare to dream
The new world it would flower.

We were put upon this earth
To weave a new creation
Where all creatures know their worth
In a song of liberation.
In a song of liberation.

There's a wind that blows across the field.
It is the wind of the spirit.
If you listen if you feel
Surely you will hear it.

Surely you will hear it.
Surely you will hear it.
Surely you will hear it.

Dance for Freedom Dance for Peace (2017-008)

New Year's Day 1983
Women's peace camp Greenham Common.
The women scale the fence
And dance on a missile silo.

New Year's Day 1983
Women's peace camp Greenham Common.
The women scale the fence
And dance on a missile silo.

What better way to say
No to nuclear war.
What better way to say
Dancing and joy
Shall be forever more.

So dance dance dance dance
For freedom.
So dance dance dance dance
For peace.

New Year's Day 1983

This River of Courage (2017-009)

This river of courage shall flow and flow.
This wind of hope shall blow and blow.
This garden of freedom shall grow and grow.
This river of courage shall flow and flow.

The generations flow on through time.
Resisters stand and draw the line.
With the strength of our hearts
And the power of our minds
The generations flow on through time.

This river of courage shall flow and flow.
This wind of hope shall blow and blow.
This garden of freedom shall grow and grow.
This river of courage shall flow and flow.

The rivers in the valley shall wind and wind.
The climbers on the mountains
Shall climb and climb.
We will feel the rhythm and the rhyme.
The rivers in the valley shall wind and wind.

This river of courage shall flow and flow.
This wind of hope shall blow and blow.
This garden of freedom shall grow and grow.
This river of courage shall flow and flow.
This river of courage shall flow and flow.

Banks of Marble (2017 lyrics) (2017-010)

I have traveled 'round this planet
On near and distant shore
And I've heard the people struggle
Under exploitation's roar.

While the banks are made of marble
With a guard at every door
And the vaults are stuffed with silver
That our Mother Earth has bore.

Up in northern Alberta
Where the tar sands poisons flow
I've heard the Chipewyan people
Saying where else can we go.

While the banks are made of marble
With a guard at every door
And the vaults are stuffed with silver
That our Mother Earth has bore.

In the B.C. interior
I've seen the Sun Peaks ski resort
Where the local Indigenous peoples
Can pick their plants and herbs no more.

While the banks are made of marble
With a guard at every door
And the vaults are stuffed with silver
That our Mother Earth has bore.

I've seen the people of Gaza
Besieged both day and night
And their children crying and dying
'Neath the Zionist might makes right.

While the banks are made of marble
With a guard at every door
And the vaults are stuffed with silver
That our Mother Earth has bore.

So I said to all the people
We must turn this world around.
A way of peace and justice
And sweet earthcare must be found.

Let us take those banks of marble
With their guards at every door.
Let us build ourselves a new world
Where exploitation is no more.

Let us build ourselves a new world
Where exploitation is no more.

Brad Wall Shall Fall (2017-011)

Brad Wall Brad Wall

We are tired of your manifestations.

This time you've gone too far

By cutting back Saskatchewan transportation.

Brad Wall you shall fall

This whole province is ready for transformation.

Brad Wall Brad Wall

They laugh at you and scorn you

Right across the nation.

Brad Wall you shall fall

We are organizing for liberation.

Brad Wall Brad Wall

We are tired of your illusionary fabrications.

Brad Wall you shall fall

We are preparing for emancipation.

Transformation liberation emancipation.

Brad Wall Brad Wall

We are tired of your manifestations.

This time you've gone too far

By cutting back Saskatchewan transportation.

Brad Wall you shall fall

This whole province is ready for transformation.

Transformation liberation emancipation.

Brad Wall shall fall.

Brad Wall shall fall.

Brad Wall shall fall.

Brad Wall.

What Shall We Do with the Nuclear Waste (2017-012)

What shall we do with the nuclear waste now
What shall we do with the nuclear waste now
What shall we do with the nuclear waste
For a hundred thousand years.

Hay hay gonna be cracklin'.
Hay hay radioactive
Hay hay gonna be hot
For a hundred thousand years.

Lower it down in the depths of the ocean.
Lower it down in the depths of the ocean.
Bring it back up when we have the notion
In a hundred thousand years.

Hay hay gonna be cracklin'.
Hay hay radioactive
Hay hay gonna be hot
For a hundred thousand years.

Keep it in a great big swimming pool.
I said keep it in a great big swimming pool.
And hope the blue light's gonna keep it cool
For a hundred thousand years.

Hay hay gonna be cracklin'.
Hay hay radioactive
Hay hay gonna be hot
For a hundred thousand years.

Bury it in the Precambrian Shield.
I said bury it in the Precambrian Shield.
Don't ask anybody how they feel
For a hundred thousand years.

Hay hay gonna be cracklin'.
Hay hay radioactive
Hay hay gonna be hot
For a hundred thousand years.

Send it into space on a big space shuttle.
Send it into space on a big space shuttle.
Hope we don't have another Challenger kerfuffle
For a hundred thousand years.

Hay hay gonna be cracklin'.
Hay hay radioactive
Hay hay gonna be hot
For a hundred thousand years.

Lower it down into Yucca Mountain.
I said lower it down into Yucca Mountain.
Hope the gagger don't start a countin'
For a hundred thousand years.

Hay hay gonna be cracklin'.
Hay hay radioactive
Hay hay gonna be hot
For a hundred thousand years.

Serve it to Andrew Sheer for dinner yeah.
Serve it to Andrew Sheer for dinner yeah.
He'll glow in the dark with a fascist glimmer
For a hundred thousand years.

Hay hay gonna be cracklin'.
Hay hay radioactive
Hay hay gonna be hot
For a hundred thousand years.

Dump it on Trump in the oval office.
Dump it on Trump in the oval office.
He won't be able to tweet any comments
For a hundred thousand years.

Hay hay gonna be cracklin'.
Hay hay radioactive
Hay hay gonna be hot
For a hundred thousand years.

Hay hay gonna be cracklin'.
Hay hay radioactive
Hay hay gonna be hot
For a hundred thousand years.

Song for Blockadia (2017-013)

Blockadia
Your boundaries are nowhere.
Blockadia
Your centres are everywhere.

Blockadia
You are millions of people strong.
Blockadia
Joining in your freedom song.

Blockadia
You have no illusions.
Blockadia
You want a fossil fuel-free future.

You know that we can never be
Saved by oil executives.
You're fighting so humanity
And all of Planet Earth may live.

Blockadia
You have moved beyond your fear.
Blockadia
You stand at one with the biosphere.
At one with the biosphere
You're fighting for the biosphere.

From eastern Montana
To the farmland of Romania
From British Columbia
To the hills of Pennsylvania.

From the southern shores of France
To the smog of urban China
Wherever people take a stand
On behalf of Mother Gaia.
Wherever people take a stand
And fight for Mother Gaia.

Blockadia
Your boundaries are nowhere.
Blockadia
Your centres are everywhere.

Blockadia
Long live Blockadia.
Blockadia
Viva Blockadia.
Viva Blockadia.

Long live Blockadia.

Merry Christmas to the Earth (2017-014)

Merry Christmas to the earth
All the hills and all the trees.
Merry Christmas to the earth
All the rivers and the seas.

We think of Christmas when it comes
As something for humanity
But all the earth is truly one
One cosmic Christmas mystery.

Merry Christmas to the earth
All the forests lakes and streams.
Merry Christmas to the earth
All the earth that truly dreams.

With all the earth we're truly one
One with this sparkling biosphere.
It is the earth that we come from
Turning with us year by year.

Merry Christmas to the earth
This living earth we dance upon.
Merry Christmas to the earth.
May we all turn to greet the dawn.

Merry Christmas to the earth
Every wave and every flower.
May we stand and defend its worth
Fight for the earth with people power.

Merry Christmas to the earth
Every wave and every flower.
May we stand and defend its worth.
Fight for the earth with people power.

Merry Christmas to the earth.
Merry Christmas to the earth.
Merry Christmas to the earth.
Merry Christmas to the earth.

What Does Bakunin (2017-015)

What does Bakunin have to say

To us today.

Revolutions are not born.

They must be made.

They will arise

From the dreams we have inside.

They will arise

When the true and the false collide.

What does Bakunin have to say

To everyone.

The revolution is a fire

As hot as the sun.

It burns in our eyes

In our hearts and in our minds.

Open the shutters.

Let the revolution shine.

What does Bakunin have to say

To you and me.

Revolution is turning

The dream to reality.

Be a living revolution

Everywhere you go.

Be a living revolution.

Let the sunlight melt the snow.

What does Bakunin have to say

To me and you.

It takes a revolution

To make this world anew.

Away with state

And capitalist empire.

Let us unite.

Be the revolutionary fire.

Away with state

And capitalist empire.

Let us unite.

Be the revolutionary fire.

What does Bakunin have to say

To us today.

The revolution

Will never go away.

The revolution

Will never go away.

What does Bakunin have to say

To us today.

Sisyphus the Roller (2017-016)

I am Sisyphus the Roller
And I will forever roll
Roll that big rock up the hill
While time will take its toll.
I am Sisyphus the Roller
And I will forever roll
Trying to change the world before
The world destroys my soul.

I am Sisyphus the Roller.
You may remember me.
I was punished for rebelling
'Gainst the Olympian deities.
I roll this rock forever
Taking breathers when I can
And when I get to the top of the hill
It rolls back down again.

I am Sisyphus the Roller
And I will forever roll
Roll this big rock up the hill
While time will take its toll.
I am Sisyphus the Roller
And I will forever roll
Trying to change the world before
The world destroys my soul.

I am Sisyphus the Roller
And I gave an interview
To the wayward philosopher
They call Albert Camus.
He wrote a book about me
And named it after me
To entertain philosophy
Undergrads from sea to sea.

I am Sisyphus the Roller
And I will forever roll
Roll this big rock up the hill
While time will take its toll.
I am Sisyphus the Roller
And I will forever roll
Trying to change the world before
The world destroys my soul.
Trying to change the world before
The world destroys my soul.

I am Sisyphus the Roller
And I will forever roll.

Tiny Houses (2017-017)

Tiny houses solar powered
Standing in the way of Kinder Morgan.
Tiny houses solar powered
Standing in the way of this insane system.

Saying it's time for transformation
Saying it's time for liberation
Saying it's time to reclaim the future
Saying it's time to reframe the discussion
With tiny houses.

Tiny houses solar powered
Standing in the way of Kinder Morgan
Tiny houses solar powered
Standing in the way of this insane system.

Houses built by the Tiny House Warriors
Standing up for something more precious
Than oil or money.
Houses built by the Tiny House Warriors
Built for living and reclaiming their culture.

Tiny houses solar powered
Standing in the way of Kinder Morgan
Tiny houses solar powered
Standing in the way of this insane system.

Saying it's time for transformation
Saying it's time for liberation
Saying it's time to reclaim the future
Saying it's time to reframe the discussion
With tiny houses.

Houses built by the Tiny House Warriors
Standing up for something more precious
Than oil or money.
Houses built by the Tiny House Warriors
Built for living and reclaiming their culture.
Tiny houses.

Saying it's time for transformation
Saying it's time for liberation
Saying its time to reclaim the future
Saying it's time to reframe the discussion
With tiny houses.

Gonna change the world with tiny houses.
Gonna build a dream with tiny houses.
Gonna change the world with tiny houses.

Gonna build a dream with tiny houses.

Away with your oil. Away with your pipelines.

We say no to climate chaos.

Gonna build a future with tiny houses.

Tiny houses tiny houses.

Song for Blind Lemon Jefferson (2017-018)

19th of December

Year of 1929

19th of December

Year of 1929

The man they called Blind Lemon Jefferson
Done left this world behind.

Some say he died of a heart attack
After getting lost in an old snowstorm.
Some say he died of a heart attack
After getting lost in an old snowstorm.
Some say he got attacked by dogs
On that cold Chicago morn.

Blind Lemon Jefferson
Left behind a legacy.
Blind Lemon Jefferson
Left behind a legacy
For the millions of people who love the blues
And desire to be free.

Blind Lemon left this world behind
With the thirties coming on.
Blind Lemon left this world behind
With the thirties coming on.
His spirit took its flight to God
On that cold December dawn.

He'd made his way from Texas
Up to old Chicago town.
He'd made his way from Texas
Up to old Chicago town.
He introduced the world to the Texas blues
As he laid those blues tracks down.

Now Blind Lemon's left this world
But his music it lives on.
Yeah Blind Lemon's left this world
But his music it lives on.
And his name will be remembered
In the singing of a song.
And his name will be remembered
In the singing of a song.

We Think and We Dream (2017-019)

We speak our names 'neath the light of the sun.
We dream like the universe has just begun.
We speak our names 'neath the light of the moon
Hoping that the new day will get here soon.

We are the people. We think and we dream.
We toss our pebbles on the rushing stream.
We are the people. May our visions roll
Dancing like the sunlight inside of our souls
Dancing like the sunlight inside of our souls.

We envision a world enveloped by love.
We feel the freedom on the wings of a dove.
We envision a world that can live in peace
With equity and sustainability.

We are the people. We think and we dream.
We toss our pebbles on the rushing stream.
We are the people. May our visions roll
Dancing like the sunlight inside of our souls
Dancing like the sunlight inside of our souls.

And the rushing stream rushes on and on
Showing us the gateway to the coming dawn.
The pebbles we dropped
Have made their ripples in time
Daring to birth a new paradigm.

We are the people. We think and we dream.
We toss our pebbles on the rushing stream.
We are the people. May our visions roll
Dancing like the sunlight inside of our souls
Dancing like the sunlight inside of our souls.

And the light of the sun will keep us warm
And the spirit will guide us through the storm.
And the light of the moon will take us to a shore
Where our hearts and our minds
Have never been before.

We are the people. We think and we dream.
We toss our pebbles on the rushing stream.
We are the people. May our visions roll
Dancing like the sunlight inside of our souls.
Dancing like the sunlight inside of our souls.

Everyone of us has our own song
But it's when we come together that we are strong.
So keep your soul but stand as one

And the earth will turn toward the rising sun.

We are the people. We think and we dream.
We toss our pebbles on the rushing stream.
We are the people. May our visions roll
Dancing like the sunlight inside of our souls
Dancing like the sunlight inside of our souls
Dancing like the sunlight inside of our souls.

Inward Light (2017-020)

Some say Moses saw a burning bush
Late one day in the desert gloom.
The bush appeared to shine and burn
But the wood of the bush was not consumed.

Perhaps he saw the inward light
Shining in every bush and tree
The inward light that shines in all
That shines in you and shines in me.

There is an inward light that shines
A light that shines in everything.
It is the light of divinity.
It is the soul's awakening.

What we feel is the inward light
Shining in every bush and tree
The inward light that shines in all
That shines in you and shines in me.

What Moses saw all those years ago
And the voice he heard on that distant day
I Am Who Am is with us now
Guiding us along the way.

What we feel is the inward light
Shining in every bush and tree
The inward light that shines in all
That shines in you and shines in me
The inward light that shines in all
That shines in you and shines in me
That shines in you and shines in me.

Song for Dave Gilbert (2017-021)

In the fall of 1981
When my radical life had just begun
I heard about a robbery
That didn't make much sense to me.

The Weather and the BLA
Tried to rob a Brink's truck one day.
Two cops and one Brink's guard were killed
And the prophecy it was fulfilled.

If we try to work for change
We'll all end up in balls and chains.
If we try to work for change
We'll all end up in balls and chains.

Dave Gilbert drove the get away car
But they wouldn't let him get too far.
He was convicted of the crime.
Now he sits in jail a serving time.

So the power of the state
Comes down on those who emancipate.
The iron heel and iron fist
Come down on those who dare resist.

Dave Gilbert was a bright young man
Who learned the truth about his own land.
Not a land of freedom for everyone
But an empire built on bombs and guns.

His thinking moved decisively left
As he organized with the SDS.
For points leftward he was bound
As he joined the Weather Underground.

He spent a decade on the run
'Neath the shadow of the corporate gun
Working to build the revolution
Til that day in 1981.

When the robbery went wrong
They knew that time would sing its song.
He was convicted of the crime.
Now he sits in jail a serving time.

So the power of the state
Comes down on those who emancipate.
The iron heel and iron fist
Come down on those who dare resist.

If we try to work for change
We'll all end up in balls and chains.
If we try to work for change
We'll all end up in balls and chains.
Peace and Equity (2017-022)

We have seen the earth from the moon
A peaceful blue white floating free.
We've felt the heartbeat of the earth turning 'round.
May we live in peace and equity.

And the sun's shining down on the earth
On every bear every butterfly and tree
And we know the song the cosmos sings.
May we live in peace and equity.

Peace and equity take a long time.
But they grow like a flower from a dream.
May they grow like a movement through the world.
May they grow in you and in me.

O the continents and oceans turn 'round.
The sun is shining and the wind's blowing free.
And the night will be followed by dawn.
May we live in peace and equity.

There's a music that flows in all things
And it plays in a sweet harmony.
You can feel it in your blood and your bones.
May we live in peace and equity.

There are a million songs written on the dawn
As it breaks over mountains and sea.
And the waves of the ocean rush on.
May we live in peace and equity.

A gentle bird spreads its wings takes to flight
And it flies o so high ever free.
And the day gently turns into night.
May we live in peace and equity.

And by the light of the stars and the moon
Gentle night will hold us in her dreams.
We'll awaken upon the morrow morn.
May we live in peace and equity.

Peace and equity take a long time
But they grow like a flower from a dream.
May they grow like a movement through the world.
May they grow in you and in me.

We'll awaken upon the morrow morn.
May we live in peace and equity.
We'll awaken upon the morrow morn.
May we live in peace and equity.

I Make Revolution Wherever I Go (2017-023)

I might be a tiger.
I might be a dog
Or the shadow of a Cynic
Whose come to sing his song.
I might be a dreamer
Whose had too many dreams
But I have come to rid the world
Of all the corporate schemes.

The people don't like me
'Cause they don't want to know.
They don't want to hear
Which way the wind does blow.
The people don't like me
'Cause they don't want to grow.
I make revolution
Wherever I go.
I make revolution
Wherever I go.

They tell me why can't you
Keep your feet upon the ground.
Why do revolutions happen
When you are around.
Why can't you just be
And let us carry on.
We don't want to hear
About no breaking dawn.

The people don't like me
'Cause they don't want to know.
They don't want to hear
Which way the wind does blow.
The people don't like me
'Cause they don't want to grow.
I make revolution
Wherever I go.
I make revolution
Wherever I go.

I might be a dancer
Who dances every dance.
I might be a piper
Who puts you in a trance.
But when the fight is over
And all is said and done
You're telling me we're gonna be
Back where we started from.

The people don't like me
'Cause they don't want to know.
They don't want to hear
Which way the wind does blow.
The people don't like me
'Cause they don't want to grow.
I make revolution
Wherever I go.
I make revolution
Wherever I go.

The people don't like me
'Cause they don't want to know.
They don't want to hear
Which way the wind does blow.
The people don't like me
'Cause they don't want to grow.
I make revolution
Wherever I go.
I make revolution
Wherever I go.
I make revolution
Wherever I go.

Sat Down in the Middle of the Road (2017-024)

We went to the roadway early one morn
The nuclear weapons lab at Livermore.
It was Mother's Day 1981.
We had come to say something must be done.

We sat down in the middle of the road.
Sat down in the middle of the road.
Sat down in the middle of the road
To say no to nuclear weapons.

We were three hundred women blocking the road
Peace warriors both young and old.
We were taking our stand for a world of peace
That the world we love might continue to be.

We sat down in the middle of the road.
Sat down in the middle of the road.
Sat down in the middle of the road
To say yes to peace and disarmament.

Livermore Security
Could only arrest us on their property.
We were a couple arm's lengths outside the gate
So Livermore Security had to wait.

We sat down in the middle of the road.
Sat down in the middle of the road.
Sat down in the middle of the road
To say yes to peace and disarmament.

You've got your atom bomb and your hydrogen bomb.
On a quiet day you've got your neutron bomb.
They would blow us all up in a mushroom cloud
But we are women. We are strong and proud.

We sat down in the middle of the road.
Sat down in the middle of the road.
Sat down in the middle of the road
To say no to nuclear weapons.

The Livermore lab employees
Were honking as we blocked the street.
But we wouldn't let them go to work.
We want a peaceful and a livable earth.

So we sat down in the middle of the road.
Sat down in the middle of the road.
Sat down in the middle of the road
To say yes to peace and disarmament.

We were putting our bodies on the line
To try to have an impact on our time.
The Livermore laboratory
Can think what they like but we are free.

We sat down in the middle of the road.
Sat down in the middle of the road.
Sat down in the middle of the road
To say no to nuclear weapons.

Eventually the police came.
They arrested us and hauled us away.
But they knew this was not the end.
We are assertive women. We'll be back again.

We sat down in the middle of the road.
Sat down in the middle of the road.
Sat down in the middle of the road
To say yes to peace and disarmament.

We sat down in the middle.
Sat down in the middle.
We sat down in the middle of the road
To say yes to peace and disarmament.

Long March Through the Institutions (2017-025)

It's a long march through the institutions.
It's a long march out of the illusions
Passing legislation changing constitutions.
It's a long march through the institutions.

There will be no sudden moment
With a million people
In a revolution square.
There will be no flash of lightning
Where the people suddenly
Take their share.
There are a million little battles
And the battlefield is everywhere.
And many times you'll find yourself saying
Are we ever gonna get there.

It's a long march through the institutions.
It's a long march out of the illusions
Passing legislation changing constitutions.
It's a long march through the institutions.

We are the sit-in.
We are the occupation.
We are the blockade.
We are the confrontation.
We are the sing-in
Singing songs of liberation.
We are the dream-in
Dreaming revolutionary transformation.

It's a long march through the institutions.
It's a long march out of the illusions
Passing legislation changing constitutions.
It's a long march through the institutions.

Everywhere we are
The dream is rolling on.
When the dream is in ten million minds
We know that we are strong.
Try revolution.
Five hundred million dreamers can't be wrong.
A freedom music's in the air
As seven billion people join the song.

It's a long march through the institutions.
It's a long march to the revolution
Giant momentary leaps or step by step evolution.
It's a long march through the institutions.
It's a long march through the institutions.

Eagle in my Heart (2018-001)

Sometimes I feel there's an eagle in my heart.
The eagle spreads its wings in gentle dark.
Sometimes I feel there's an eagle in my heart.

Sometimes I feel there's a butterfly in my heart.
The butterfly floats free in gentle dark.
Sometimes I feel there's a butterfly in my heart.

Sometimes I feel there's a songbird in my heart.
The songbird sings its song in gentle dark.
Sometimes I feel there's a songbird in my heart.

Sometimes I feel there's a dancer in my heart.
The dancer dances free in gentle dark.
Sometimes I feel there's a dancer in my heart.

Sometimes I feel there's a dreamer in my heart.
The dreamer dreams a world in gentle dark.
Sometimes I feel there's a dreamer in my heart.

I am the dreamer. I am the dancer too.
The dream and the dance live on in me and you.
I am the eagle the songbird the butterfly
Gentle and strong between the earth and sky.

Sometimes I feel there's an eagle in my heart.
Sometimes I feel there's an eagle in my heart.
Sometimes I feel there's an eagle in my heart.

Our Mother Who Art on Earth (2018-002)

Our Mother who art on Earth
Dances in the dark of night.
Our Mother who art on Earth
Fills the world with gentle light.

She's been here on Earth forever.
She's been here for a billion years.
In her heart she brings us all together.
Wherever is within us here.

Our Mother who art on Earth
Dances in the dark of night.
Our Mother who art on Earth
Fills the world with gentle light.

She did not come on a flying saucer.
She did not come in an opium dream.
She lives in every flowing river
Every forest field and stream.

Our Mother who art on Earth
Dances in the dark of night.
Our Mother who art on Earth
Fills the world with gentle light.

Hers is the time of darkness.
Hers is the time of light.
Hers is the shimmering morning.
Hers is the glistening night.

Hers is the earth
The body and the health.
Hers is the song
With a million tales to tell.

Our Mother who art on Earth
Dances in the dark of night.
Our Mother who art on Earth
Fills the world with gentle light.

Urban Guerrilla (2018-003)

Carlos Mariella
Middle-aged and tired
After forty years of trying to change the world
Wrote a mini manual
Of the urban guerrilla
To see what kind of new day would unfurl.

Urban guerrilla.

Che Guevara had written
About guerrilla warfare
Organizing people in the hills
But Mariella saw
The alienated young of the city
As a force that could do the people's will.

Urban guerrilla.

He published his manual
In June of 69
While surviving 'neath the junta in Brazil.
It went all around the world
In numerous translations.
Then five months later Mariella he was killed.

Urban Guerrilla.

His manual inspired
Urban guerrilla action
From Argentina to Ireland to the USA.
Italy to Nicaragua
West Germany to Chile
Young guerrillas knew his manual and his name.

Urban guerrilla.

Now almost half a century
Has come and gone
Vanished with the dreams of revolution
But his vision of an urban
Guerrilla war lives on
As we search for radical solutions.

Urban guerrilla.

His vision of an urban
Guerrilla war lives on
As we search for radical solutions.

Urban guerrilla
Urban guerrilla.

In the Spirit of the Diggers (2018-004)

In the spirit of the Diggers let us come.
In the spirit of the Diggers let us rise.
May all the earth be shared by everyone.
May we speak our truth beneath these living skies.

In the spirit of the Diggers let us be.
In the spirit of the Diggers let us strive.
Let us live in universal equity
As we and all the earth are alive.

In the spirit of the Diggers we are one.
In the spirit of the Diggers we are free.
Let us dance beneath the bright red shining sun
As we feel the new tomorrow that shall be.

In the spirit of the Diggers let us dance.
In the spirit of the Diggers let us dream.
May we move beyond the many don'ts and can'ts
And see our dreams reflected in the stream.

In the spirit of the Diggers let us come.
In the spirit of the Diggers let us rise.
May all the earth be shared by everyone.
May we speak our truth beneath these living skies.
May we speak our truth beneath these living skies.
May we speak our truth beneath these living skies.

I Went to Sleep in the Evening (2018-005)

I went to sleep in the evening
And woke up on the moon
Twenty-seven thousand years ago.
I went to sleep in the evening
And woke up on the moon
Twenty-seven thousand years ago.
The cave people were howling
And pointing at the sky
As I looked down on the rivers as they flowed.

The men and women of Europe
Were learning their first magic
And dreaming of what the world would be.
The men and women of Europe
Were learning their first magic
And dreaming of what the world would be.
Then Margaret Murray came walking
In an earlier incarnation
And gave them all a flower to set them free.

She said one day I will come again
In the midst of civilization.
I'll come to haunt the twentieth century.
She said one day I will come again
In the midst of civilization.
I'll come to haunt the twentieth century.
I'll talk about the witches
Of circles and of magic
And the history profs will all get mad at me.
I'll talk about the witches
Of circles and of magic
And the history profs will all get mad at me.

I went to sleep in the evening
And woke up on the moon
Twenty-seven thousand years ago.
I went to sleep in the evening
And woke up on the moon
Twenty-seven thousand years ago.
The cave people were howling
And pointing at the sky
As I looked down on the rivers as they flowed.
As I looked down on the rivers as they flowed.
As I looked down on the rivers as they flowed.

Red Sun Rising (2018-006)

We are the people of the land.
There's a red sun rising.
Amid the shadows we take our stand.
There's a red sun rising.

We acknowledge our fears our hurt and our pain.
There's a red sun rising.
We let them be washed away by the rain.
There's a red sun rising.

The light that shines in our hearts and our minds
There's a red sun rising.
Is the light that shines in the soul of humankind.
There's a red sun rising.

We are the people of the land.
There's a red sun rising.
In dreams of tomorrow we take our stand.
There's a red sun rising.

The sun that is rising is shining free.
There's a red sun rising.
Its love is reflected in you and me.
There's a red sun rising.
There's a red sun rising.
There's a red sun rising.

We Have Fought the Iron Fist and Survived (2018-007)

We're the people of the earth.
It's the planet of our birth.
We are happy to be alive.
We have fought the tyranny
For the sake of dignity.
We have fought the iron fist and survived.

As you travel through this world
As the decades they unfurl
Life is good to you and you thrive.
But on the day you pass away
Will you smile and truly say
You have fought the iron fist and survived.

Now the iron fist is tall.
It can make us all feel small
Under the thundering sky.
But on the day before we die
We will raise a battle cry
We have fought the iron fist and survived.

We take the path we choose.
Sometimes we win. Sometimes we lose.
And we learn step by step through our lives.
But with our comrades and our friends
We will shout out in the end
We have fought the iron fist and survived.

So come gather everyone
For we are the rising sun.
We know a new day is on the rise.
Though they've tried to put us down
We've come back for one more round.
We have fought the iron fist and survived.

For justice and for peace
And sustainability
We have struggled 'tween the earth and sky.
But when we lay these bodies down
Folks will gather all around
And say we fought the iron fist and survived.

We're the people of the earth.
It's the planet of our birth.
We are happy to be alive.
We have fought the tyranny
For the sake of dignity.
We have fought the iron fist and survived.
We have fought the iron fist and survived.

Twelfth of June (2018-008)

On the twelfth of June
In 1982
One million people came together
Gathering for peace
Through the New York City streets
That the world may continue on forever.

I was fourteen years old
And living in Saskatoon
And when I heard it all on the radio
I said I wish that I was there
But I was there in spirit
As humanity joined hearts around the globe.

On the twelfth of June
In 1982
One million people came together
Gathering for peace
Through the New York City streets
That the world may continue on forever.

We love our world
All people and all regions.
We don't want to see it die in a nuclear war.
So we have gathered
In this springtime season
Stronger than we've ever been before.

On the twelfth of June
In 1982
One million people came together
Gathering for peace
Through the New York City streets
That the world may continue on forever.

We were a generation
That dared to believe
That a million people could transform the world.
We came together
For disarmament and peace
That a just and peaceful morning may unfurl.

On the twelfth of June
In 1982
One million people came together
Gathering for peace
Through the New York City streets
That the world may continue on forever.

Let there be love that we may live.
Let there be peace that we may grow.
Let there be hope that we may carry on
As humanity joins hearts around the globe.

Let there be love that we may live.
Let there be peace that we may grow.
Let there be hope that we may carry on
As humanity joins hearts around the globe.
As humanity joins hearts around the globe.

On the twelfth of June
In 1982
One million people came together
Gathering for peace
Through the New York City streets
That the world may continue on forever.
That the world may continue on forever.
Let the world continue on forever.
One million people came together.
Let the world continue on forever.
Let the world continue on forever.

Song for John Lovejoy (2018-009)

Who was John Lovejoy?
Does anyone remember his name?
Who was John Lovejoy?
Does anyone know his claim to fame?

John Lovejoy was an organic farmer
Who decided he couldn't take any more.
He initiated his own direct action
In February 74.

He took a crowbar
To a weather monitoring tower
At the Montague nuclear power plant.
He brought 350 feet of that tower
Crashing down
Saying Long live the earth; long live the land.

He turned himself in
At a local police station
Saying I take full responsibility.
He became a hero
To a generation
Saying no to nuclear energy.

John Lovejoy speaks to us now
Out of the mists of time.
Say no to carbon and no to nuclear
If you want the world to survive.

Who was John Lovejoy?
Does anyone remember his name?
Who was John Lovejoy?
Does anyone know his claim to fame?

Long live John Lovejoy.
John Lovejoy speaks to us now.
Long live John Lovejoy.
He brought that tower down.

Long live John Lovejoy.
John Lovejoy speaks to us now.
Long live John Lovejoy.
He brought that tower down.

John Lovejoy speaks to us now.
He brought that tower down.
John Lovejoy speaks to us now.
He brought that tower down.

Gotta change the way things are.
Keep your eyes on the northernmost star.
Gotta change the way things are.
Keep your eyes on the northernmost star.

He brought that tower down down down.
He brought that tower down.
He brought that tower down down down.
He brought that tower down.

We Are the Sun (2018-010)

We are the sun. We are the wind.
We are the new day now to begin.
We are the wind. We are the sun.
We are the new day. We have begun.

We are the sun. We are the wind.
We are the new day now to begin.
We are the wind. We are the sun.
We are the new day. We have begun.

Mother Gaia (2018-011)

Mother Gaia We are your children.
Let us remember who we are.
Mother Gaia let us be gentle
Between this Earth and each shining star.

Let us have love for sweet Mother Gaia
And let us know her diversity.
Her towering mountains her raging rivers
Her blooming forests her surging seas.

Mother Gaia we are your children.
Let us remember who we are.
Mother Gaia let us be gentle
To stir a flower is to stir a star.

Each one of us is a child of Gaia
Born to live 'tween the earth and sky.
Let's be caretakers of each bioregion.
It is the meaning of our lives.

Mother Gaia we are your children.
Let us remember who we are.
Mother Gaia let us be gentle
Between this earth and each shining star.

We are at one with each cell and creature
That does comprise the great biosphere.
And all the earth is one living being.
We travel on here year after year.

Mother Gaia we are your children.
Let us remember who we are.
Mother Gaia let us be gentle
To stir a flower is to stir a star.

Mother Gaia let us be gentle
Between this earth and each shining star.
Between this earth and each shining star.

Between Woodstock and the Moon (2018-012)

I remember the day
In 1979
When all the world saw sky lab
Fall out of the sky.
Ten years since Apollo
Had landed on the moon.
We'd been out somewhere running.
We could not get home too soon.

We will speak our truth
Between the mountains and the sea.
We will turn the leaves
Between the forest and the trees.
We will find our song
Between the rhythm and the tune.
We will find our minds
Between Woodstock and the moon.
Between Woodstock and the moon.

I remember who I was
In that summer of 79
Not yet a questioner
Just a dreamer with the times.
Wonders of Skylab
And moonshots in the night
Believing we had freedom
And rightness on our side.

We will speak our truth
Between the mountains and the sea.
We will turn the leaves
Between the forest and the trees.
We will find our song
Between the rhythm and the tune.
We will find our minds
Between Woodstock and the moon.
Between Woodstock and the moon.

Then I grew to be
The one that I became.
I grew to see the shadows
The parades and power games.
I knew I must step out
From the system I'd been sold
To deconstruct the lies
And the myths that I'd been told.

We will speak our truth
Between the mountains and the sea.

We will turn the leaves
Between the forest and the trees.
We will find our song
Between the rhythm and the tune.
We will find our minds
Between Woodstock and the moon.
Between Woodstock and the moon.

Feel the Heartbeat of Earth (2018-013)

All the earth is a sacred place
All we see hear touch and taste.
Feel the heartbeat of Earth hold on.
Hold on. Hold on.
Feel the Heartbeat of Earth hold on.

Sacred is each stream that flows
And the rain that falls and the wind that blows.
Feel the heartbeat of Earth hold on.
Hold on. Hold on.
Feel the heartbeat of Earth hold on.

Love the earth this blue white ball
Mother and dreamer of us all.
Feel the Heartbeat of Earth hold on.
Hold on. Hold on.
Feel the heartbeat of Earth hold on.

The spirit dances in all things.
Each forest lake and river sings.
Feel the heartbeat of Earth hold on.
Hold on. Hold on.
Feel the heartbeat of Earth hold on.

Let's join our hearts around this Earth.
All nature has inherent worth.
Feel the heartbeat of Earth hold on.
Hold on. Hold on.
Feel the heartbeat of Earth hold on.

Oceans, icecaps, islands, sky,
All unite to turn the tide.
Feel the heartbeat of Earth hold on.
Hold on. Hold on.
Feel the heartbeat of Earth hold on.

All the earth is sacred ground.
Love and peace keep it turning 'round.
Feel the heartbeat of Earth hold on.
Hold on. Hold on.
Feel the heartbeat of Earth hold on.

Don't Blame It All on Me (2018-014)

I'm the one who mined the ore
They used to make the train to Auschwitz.
You come and ask me what was my
Responsibility.
I mined the ore some twenty years
Before we knew what it was used for.
Don't blame it all on me.

I'm the one who built the train
That carried folks to Auschwitz.
You come and ask me what was my
Responsibility.
I built the train some seven years
Before we knew what it would be used for.
Don't blame it all on me.

I'm the one who drove the train
That carried folks to Auschwitz.
You come and ask me now of my
Responsibility.
I was just a cog
Within the wheels of execution.
Don't blame it all on me.

And then there were the guards
And the ones who built the chambers.
You go and ask them what was their Responsibility.
They tell you they were cogs
In wheels that kept a turning.
They say don't blame it all on me.

Where does the buck stop
Among a hundred thousand Eikmanns.
Who of them will stand and claim
Responsibility.
The wheels of the genocide
Were turning ever turning.
And evil wore a smile and spoke
In sweet banality.
They say don't blame it all on me.

No one wants to hear the words
That Hanna Errant told them.
The banality of evil
Is smiling everywhere.
The one who builds the train
Or the one who flies the airplane
Preparing global omnicide
With the warming of the air.

An evil in which we all do share.

No one wants to hear the words
That Hanna Errant told them.

The banality of evil

Is smiling everywhere.

The one who builds the train

Or the one who flies the airplane

Preparing global omnicide

With the warming of the air

An evil in which we all do share.

Stop Line Three (2018-015)

Stop Line Three. Stop Line Three.
In the name of the earth and humanity.
Stop Line Three. Stop Line Three.
Let us build sustainability.

Stop Line Three. Stop Line Three.
Let us build a future where we all can be.
Stop Line Three. Stop Line Three.
A future of eco-equity.

Stop Line Three. Stop Line Three.
Let us live with the earth in harmony.
Stop Line Three. Stop Line Three.
Every living creature has its dignity.

Stop Line Three. Stop Line Three.
Away with corporate oil tyranny.
Stop Line Three. Stop Line Three.
The future is renewable energy.

Stop Line Three. Stop Line Three.
We're the life pulsating in the rivers and trees.
Stop Line Three. Stop Line Three.
We rise with the sun and move with the breeze.

Stop Line Three. Stop Line Three.
In the name of the earth and humanity.
Stop Line Three. Stop Line Three.
Let us build sustainability.

Keep Your Eyes on the Prize (Palestine Lyrics) (2018-016)

Many years we have remained
That the world might hear our name.

Keep your eyes on the prize. Hold on.
Hold on. Hold on.
Keep your eyes on the prize. Hold on.

Let our name ring out through time.
We are the people of Palestine.

Keep your eyes on the prize. Hold on.
Hold on. Hold on.
Keep your eyes on the prize. Hold on.

The occupier rules by might.
Still we stand up for our rights.

Keep your eyes on the prize. Hold on.
Hold on. Hold on.
Keep your eyes on the prize. Hold on.

They tear out our olive trees.
Still we struggle to be free.

Keep your eyes on the prize. Hold on.
Hold on. Hold on.
Keep your eyes on the prize. Hold on.

The occupier comes by night
But we proclaim the morning light.

Keep your eyes on the prize. Hold on.
Hold on. Hold on.
Keep your eyes on the prize. Hold on.

They build their checkpoints through our land.
Still we proudly take our stand.

Keep your eyes on the prize. Hold on.
Hold on. Hold on.
Keep your eyes on the prize. Hold on.

We will turn this world around.
Time will tear those checkpoints down.

Keep your eyes on the prize. Hold on.
Hold on. Hold on.
Keep your eyes on the prize. Hold on.

They bulldoze our houses one by one
But we shall rise with the rising sun.

Keep your eyes on the prize. Hold on.
Hold on. Hold on.
Keep your eyes on the prize. Hold on.

They build their annexation wall.
But we know one day it shall fall.

Keep your eyes on the prize. Hold on.
Hold on. Hold on.
Keep your eyes on the prize. Hold on.

The occupiers they shall bend.
The occupation it shall end.

Keep your eyes on the prize. Hold on.
Hold on. Hold on.
Keep your eyes on the prize. Hold on.

We'll build our nation in sovereignty.
All of Palestine shall be free.

Keep your eyes on the prize. Hold on.
Hold on. Hold on.
Keep your eyes on the prize. Hold on.

Let our name ring out through time.
We are the people of Palestine.

Keep your eyes on the prize. Hold on.
Hold on. Hold on.
Keep your eyes on the prize. Hold on.
Keep your eyes on the prize. Hold on.
Keep your eyes on the prize. Hold on.

What if All the People Said No (2018-017)

You try to tell us all to be parts
Of the machine called capitol.
But what if all the people said no no.
What if all the people said no.

You want us to go along with oppression.
You want us to go with the flow.
But what if all the people said no no.
What if all the people said no.

Everybody is as unique
As every unique flake of snow.
But what if all the people in their uniqueness
What if all the people said no.

You try to tell us capitalism
Is the only way to go.
But what if all the people said no no.
What if all the people said no.

Once there was a man named Marcuse.
He wanted us all to say no.
What if all the people said no no.
What if all the people said no.

What if all the people dared to dream
Another world is possible.
What if all the people said no no.
What if all the people said no.

Let us come together
And dream Marcuse's no.
What if all the people said no no.
What if all the people said no.

Once there was a man named Marcuse.
He wanted us all to say no.
What if all the people said no no.
What if all the people said no.

What if all the people dare to dream
Another world is possible.
What if all the people said no no.
What if all the people said no.

Let us come together
And dream Marcuse's no.
What if all the people said no no.
What if all the people said no.

What if all the people said no.

What if all the people said no.

What if all the people said no.

Northern Corridor (2018-018)

Ten kilometres wide
Seven thousand kilometres long
With branches stretching northward
To sing extraction's song.
From the west coast
Through the mountains and Shield
To the shores of Labrador
The corporate state is dreaming
Of a Northern Corridor.

Northern corridor.

And the corridors of power
Will smile like they're out of their minds.
A corridor for highways railways
Pipelines and powerlines.
The north will see extraction
Like it never has before.
We're including those excluded
With the Northern Corridor.

Northern corridor.

And if the permafrost is melting
Because of climate change
We'll just get some artificial refrigeration.
It shouldn't seem so strange.
And we'll power that refrigeration
With small modular reactors.
Yes anything is possible
In the Northern Corridor.

Northern corridor.

But what about the people
And what about the earth.
What about the trees and the lakes and the fishes.
All things have their worth.
The people and the trees will rise
And the bears will give one great roar.
All life it shall rebel against
The Northern Corridor.

We'll challenge all the nation
To ask what it's living for.
All life it shall rebel against
The Northern Corridor.

We'll build a great resistance

From shore to shore to shore.
All life it shall rebel against
The northern corridor.

And all the biosphere will rise
And shout No more No more.
All life it shall rebel against
The northern corridor.
The Northern Corridor.
The Northern Corridor.

Come and Stand (2018 lyrics) (2018-019)

If you love this planet
And if you love tomorrow
If you love this planet
And if you love tomorrow
If you love this planet
And if you love tomorrow
Come and stand. Come and stand.
Come and stand.

We stand for peace and justice
And a sustainable horizon.
We stand for peace and justice
And a sustainable horizon.
We stand for peace and justice
And a sustainable horizon.
Come and stand. Come and stand.
Come and stand.

Let us build a vision
Of a liberated future.
Let us build a vision
Of a liberated future.
Let us build a vision
Of a liberated future.
Come and stand. Come and stand.
Come and stand.

We're a planetary people.
We're the living revolution.
We're a planetary people.
We're the living revolution.
We're a planetary people.
We're the living revolution.
Come and stand. Come and stand.
Come and stand.

If you love this planet
And if you love tomorrow
If you love this planet
And if you love tomorrow
If you love this planet
And if you love tomorrow
Come and stand. Come and stand.
Come and stand.
Come and stand. Come and stand.
Come and stand.

They Drove Him Out of Town (2018-020)

When Jesus spoke in the synagogue
In his home town of Nazareth
He dared to share what he knew of God
To make reality out of myth.

He said he sent me to give
The good news to the poor
Tell prisoners that
They are prisoners no more
To set the down-trodden free
And proclaim the Lord's Jubilee.

He said these words inside this scroll
Are now today to be fulfilled.
So they drove him out of town.
They drove him out of town.
They drove him out of town.

He'd come to turn the world around
To turn the world upside-down.
A revolution so profound
But they drove him out of town.
They drove him out of town.
They drove him out of town.

The Kingdom grows and the Kingdom shines.
It is in your hearts. It is in your minds.
Like a mustard seed like a grain of yeast
With lightning flashing in the east
But they drove him out of town.
They drove him out of town.
They drove him out of town.

He said these words inside this scroll
Are now today to be fulfilled.
So they drove him out of town.
They drove him out of town.
They drove him out of town.

God is with us free and whole
The meaning of Immanuel
But they drove him out of town.
They drove him out of town.
They drove him out of town.

I Like to Fly my Drone (2018-021)

I like to fly my drone
Over the airport run-way.
I like to fly my drone
Over the airport run-way
So I can shut down the airport
For an hour or a day.

I like to fly my drone
'Round about Christmas time.
I like to fly my drone
'Round about Christmas time
So those hundred thousand passengers
Who are inconvenienced
Can jump into a new paradigm.

I like to fly my drone
On Christmas Eve.
I like to fly my drone
On Christmas Eve.
And maybe those inconvenienced passengers
Will start to think about sustainability.

With all those airplanes flying
All around the globe
With all those airplanes flying
All around the globe
They are burning fossil fuels
And taking the world somewhere
Where I don't want to go.

We've got to ground all the airplanes
Start using the bus or train.
We've got to ground all the airplanes
Start using the bus or train.
And maybe we can bring this planet
A stable climate again.

I like to fly my drone
Over the airport run-way.
I like to fly my drone
Over the airport run-way
So I can shut down the airport
And bring this world to a brighter day.
So I can shut down the airport
And bring this world to a brighter day.

Deep Green Resistance (2018-022)

Gotta have deep green resistance.
Gotta have deep green resistance
Gotta have deep green resistance
We only have one chance.

May our lives be one great action.
May our lives be one great action.
May our lives be one great action.
We only have one chance.

Gotta have deep green resistance.
Gotta have deep green resistance.
Gotta have deep green resistance.
We only have one chance.

Let us block the roads together.
Let us block the roads together.
Let us block the roads together.
We only have one chance.

Gotta have deep green resistance.
Gotta have deep green resistance.
Gotta have deep green resistance.
We only have one chance.

Let's go underground together.
Let's go underground together.
Let's go underground together.
We only have one chance.

Gotta have deep green resistance.
Gotta have deep green resistance.
Gotta have deep green resistance.
We only have one chance.

Let us use guerrilla warfare.
Let us use guerrilla warfare.
Let us use guerrilla warfare.
We only have one chance.

Gotta have deep green resistance.
Gotta have deep green resistance.
Gotta have deep green resistance.
We only have one chance.

Let's have a million Che Guevarras
A million Che Guevarras
A million Che Guevarras.
We only have one chance.

Gotta have deep green resistance.
Gotta have deep green resistance.
Gotta have deep green resistance.
We only have one chance.

Let's have resistance for resilience.
Resistance for resilience
Resistance for resilience.
We only have one chance.

Gotta have deep green resistance.
Gotta have deep green resistance.
Gotta have deep green resistance.
We only have one chance.

And the earth will live forever.
And the earth will live forever.
And the earth will live forever.
We only have one chance.

Gotta have deep green resistance.
Gotta have deep green resistance.
Gotta have deep green resistance.
We only have one chance.

Where the Oppressed Go Free (2019-001)

Any love
Must be an egalitarian love.
Any peace
Must be a just peace.
Any freedom
Must be a universal freedom.
Any world must be a world
Where the oppressed go free.
Any world must be a world
Where the oppressed go free.

Any love
Must be an egalitarian love.
Any peace
Must be a just peace.
Any freedom
Must be a universal freedom.
Any world must be a world
Where the oppressed go free.
Any world must be a world
Where the oppressed go free.

Let the sunshine
With an egalitarian love.
Let the rain fall
With a just peace.
Let the wind blow
With a universal freedom.
Let our world be a world
Where the oppressed go free.
Let our world be a world
Where the oppressed go free.

May your love
Be an egalitarian love.
May your peace
Be a just peace.
May your freedom
Be a universal freedom.
May your world be a world
Where the oppressed go free.
May our world be a world
Where the oppressed go free.
May our world be a world
Where the oppressed go free.

Song for Judi Bari (2019-002)

Judi Bari was a woman
Who dared to dream.
She dreamed the dream
Of a revolutionary green

Where worker collectives
Let us live in dignity
While we live with the earth
In eco-harmony.

She made it her work
To speak to birds of many feathers
To bring workers and
Environmentalists together.

She knew that it was
The logging companies
With their mechanized logging
Who were the real enemies.

She knew that the earth
Has enough for our needs
But not enough to serve
The corporations and their greed.

She brought loggers and environmentalists
Together so well some say
That it seems the logging companies
Wanted her out of the way.

Someone placed a bomb in her car
One bright springtime day
In the year of 1990
On the 24th of May.

She survived the bombing
Although with injuries.
She said the fight shall go on.
It is in you and in me.

For seven more years
She spoke her mind
Til she died of breast cancer
And left this earth behind.

She left us with a vision
Of what we all can be
A world of revolutionary
Ecology.

The fight goes on
For a future we can share.
The fight goes on
Eco-warriors everywhere.

The fight goes on
For a future we can share.
The fight goes on
Eco-warriors everywhere.

Judi Bari was a woman
Who dared to dream.
She dreamed the dream
Of a revolutionary green.
She dreamed the dream
Of a revolutionary green.

What Are You Doing Out There (2019-003)

Henry David Thoreau
Was a man who lived by his word.
He wanted to say no
To the injustices in his world.

He said no to the USA
In its war against Mexico.
He knew not paying his taxes
Might be the only way to go.

He refused to pay his taxes
And so he went to jail.
Then his friend Ralph Waldo Emerson
Came to pay his bail.

He said Henry
What are you doing in there.
Awe but Ralph
What are you doing out there
Doing out there.

Thoreau he wrote his essay
On Civil Disobedience.
He knew there are injustices
The people must confront.

He said the only place
For a just human being to be
Is in the prisons if we're living
In an unjust society.

So Henry
What are you doing in there.
Awe but Ralph
What are you doing out there
Doing out there.

He wanted Ralph to join him
In the prisons of the land
To build a world of justice
Where oppression could be banned.

Now he wants us all to join him
Speaking down through time.
Civil disobedience
Is a duty not a crime.

So Henry
What are you doing in there.

Awe but Ralph
What are you doing out there
Doing out there.
Why don't you join me in here
Join me in here.

You can be a Ralph or a Henry.
The choice is up to you.
We must build a just and sustainable world.
If it isn't us then who.

So Henry
What are you doing in there.
Awe but Ralph
What are you doing out there
Doing out there.

So Henry
What are you doing in there.
Awe but Ralph
What are you doing out there
Doing out there.
Why don't you join me in here
Join me in here.
What are you doing out there
Doing out there.
Why don't you join me in here
Join me in here.

We Are True (2019-004)

I've traveled in the places
Where the world has never been.
I've danced along the borders
Of a hundred thousand dreams.
I've walked amid the silences
That crashed a thousand scenes.
And still I proclaim we are true.

I've sailed a thousand sailboats
On a thousand turning seas.
I've traveled on a starship
'Cross a thousand galaxies.
Filled the cosmos with the wisdom
From the schools of Druidry.
And still I proclaim we are true.

Let our hearts touch the dawn.
Let us listen to the song.
Let us climb in the trees
Feel the gentle midnight breeze
And proclaim and proclaim we are true.

Then a wizard came and asked me
What do you mean by true.
Is it something that we are
Or something that we do.
Is it something way out there
Or something within me and you.
For still I proclaim we are true.

Then I told the gentle wizard
It is all of the above.
It is that which is still with us
When push has come to shove.
It's what we are and what we do
Enveloped by sweet love.
And still I proclaim we are true.

Let our hearts touch the dawn.
Let us listen to the song.
Let us climb in the trees
Feel the gentle midnight breeze
And proclaim and proclaim we are true.

I believe what Che Guevara said
And I hold it high.
The true revolutionary
Is motivated by
Feelings of great love

Though he knows he must win or die.
And still I proclaim we are true.

So let us link our arms
And confront the power games.
With chains of solidarity
We'll break oppression's chains.
A million hearts will beat as one
Revolution in the rain.
And still I proclaim we are true.

Let our hearts touch the dawn.
Let us listen to the song.
Let us climb in the trees
Feel the gentle midnight breeze
And proclaim and proclaim we are true.
And proclaim and proclaim we are true.

You Can't Separate from Planet Earth (2019-005)

I heard a fellow interviewed
On my radio
From something called
The Prairie Freedom Movement.
He talked of how he wanted to
Separate from Canada
How he thought separation
Would mean an improvement.

He didn't like the food guide.
He didn't like the carbon tax.
He thought separation
Might be the only way.
If Alberta and Saskatchewan
Could declare independence then
Surely we could build a brighter day.

But I thought I would tell him
I thought I would tell him
You can't separate from Planet Earth.
You can't separate from Planet Earth.

If the world still wants our oil
Thirty years from now
It will mean we have made
All the wrong decisions.
It will mean we are headed for
Climate catastrophe.
It will mean we are headed
For Warmageddon.

I thought I would tell you
I thought I would tell you
You can't separate from Planet Earth.
You can't separate from Planet Earth.

So take your Prairie anger
And turn it all around
And be angry at the oil companies.
Let's all get together
To keep the oil in the ground
And let us build a new society
Based on true sustainability.

I thought I would tell you
I thought I would tell you
You can't separate from Planet Earth.
You can't separate from Planet Earth.

Let's have a just transition.
Say no to Warmageddon.
There are green jobs to be created
All the earth to be liberated.
Say no to the oil industry
Yes to renewable energy.
You can't separate from Planet Earth.
You can't separate from Planet Earth.

Let's have a just transition.
Let's make the right decisions.
There are green jobs to be created
All the earth to be liberated.
Say no to the oil industry
Yes to renewable energy.
You can't separate from Planet Earth.
You can't separate from Planet Earth.
You can't separate from Planet Earth.

Explosion (2019-006)

Sixth of March 1970

In Greenwich Village on a quiet street.
The morning is shattered by an explosion bright.
The calm is swallowed by a flash of light.

In a house being used by the Weather Underground
Who dreamed of turning the whole world around
Someone puts a wire where it should not have gone
And all is shattered in the broken dawn.

The dreams of ten tumultuous years gone by
Go up in flames beneath the Greenwich sky.
What were they dreaming with that dynamite
Dreaming they could set the whole world right.

Diana Oughton

Can not find the name. Terry Robins and Ted Gold
We speak the names of three awakened souls.
Awakened to the reality of Vietnam
Awakened to an America that was a sham.

Ten years of struggle found these people here
In a house on a street upon this turning sphere.
They'd tried marching and singing and civil disobedience
And they felt they'd reached the limits of nonviolence.

It was the day the sixties blew up in a holy roar
Rattling each window and each guarded door.
For these would be revolutionaries this day would mark
The point of no return beneath the gathering dark.

What would they find as the seventies began
Dreams of revolution slipping through their hands.
Ten short years later it would all be gone
But a new generation would rise to greet the dawn.

Sixth of March 1970

One last explosion revolution's dream.
One last explosion revolution's dream.

Take the Empire Down (2019-007)

There's a song you're not allowed to sing.
There are words you're not allowed to say.
Like let's take the empire down down down.
It will fall to the ground some day.

Gonna take the empire down down down.
Gonna take the empire down.
The ax is laid to the root of the tree
Saying revolution now.
Revolution now.

There's a di you're not allowed to roll
And a game you're not allowed to play.
A game that would take the empire down.
It will fall to the ground some say.

Gonna take the empire down down down.
Gonna take the empire down.
The ax is laid to the root of the tree
Saying revolution now.
Revolution now.

The winter palace has disappeared.
In a storm it blew away.
The revolution is on a roll.
Today is revolution day.

Gonna take the empire down down down.
Gonna take the empire down.
The ax is laid to the root of the tree
Saying revolution now.
Revolution now.

Che Guevarra and Ho Chi Min
Came to say hello.
They told the people of the world
It's time to overthrow.

Gonna take the empire down down down.
Gonna take the empire down.
The ax is laid to the root of the tree
Saying revolution now.
Revolution now.

The radical handbook is in our hands
Saying no to the empire
With a vision of a bold new world
Our dreams they shall inspire.

Gonna take the empire down down down.
Gonna take the empire down.
The ax is laid to the root of the tree
Saying revolution now.
Revolution now.

Gonna take the empire down down down.
Gonna take the empire down.
The ax is laid to the root of the tree
Saying revolution now.
Revolution now.
Revolution now.
Take the empire down.
Revolution now.
Take the empire down.
Revolution now.

To Live and Dream (2019-009)

Let the windmills turn. Let the sunlight shine.
Let the waters flow like a ripple in time.
And let us build a world to be
Where our children's children can live and dream.

Let the people dance. Let the people roar.
Let's raise our voices from shore to shore.
And let us build a world that's whole
Where our children's children can live and grow.

Live and grow live and dream
Live and dream live and dream live and dream.

Let the windmills turn. Let the sunlight shine.
Let the waters flow like a ripple in time.
And let us build a world to be
Where our children's children can live and dream.

Let the people dance. Let the people roar.
Let's raise our voices from shore to shore.
And let us build a world that's whole
Where our children's children can live and grow.

Live and grow live and dream
Live and dream live and dream live and dream.

Red is the Colour of Courage (2019-010)

Red is the colour of courage
Glowing on the far horizon.
Red is the colour of courage.
There's a new day a-risin'.

Red is the colour of courage
Glowing in the hearts of the people.
Red is the colour of courage.
We are the blessed upheaval.

Red is the colour of courage
Bringing us all together.
Red is the colour of courage.
We're changing our world forever.

Red is the colour of courage
Glowing on the far horizon.
Red is the colour of courage.
There's a new day a-risin'.

Red is the colour of courage
Glowing in the hearts of the people.
Red is the colour of courage.
We are the blessed upheaval.

Red is the colour of courage
Bringing us all together.
Red is the colour of courage.
We're changing our world forever.

Red is the colour of courage.
Red is the colour of courage.
Red is the colour of courage.

Freedom is a Constant Struggle (2019-011)

Freedom is a constant struggle.
Freedom from state tyranny
Freedom from corporate oligarchy
Freedom is a constant struggle.

On the streets of Ferguson
On the streets of East Jerusalem
Freedom is a constant struggle.

Come and join your hearts and hands
For the freedom of body mind and land.
Freedom is a constant struggle.

The freedom to live and do and be
What it is we wish to be
Freedom is a constant struggle.

For freedom and justice we shall toil
For a future body heart and soil
Freedom is a constant struggle.

The tanks and guns and corporate parade
Shall fall before the light of day.
Freedom is a constant struggle.

Some will call us utopian
But we are novamundian.
Freedom is a constant struggle.

We live for the dream of a bold new world
For every man and woman boy and girl.
Freedom is a constant struggle.

We shall see the new day rise
In all the colours of the earth and sky.
Freedom is a constant struggle.
Freedom is a constant struggle.
Freedom is a constant struggle.

Cages (2019-012)

I've heard it said
That the society's we live in
Are really cages
Designed to control us
And keep us in our places.

Built by those who control
The power elites of past and present.
They are the masters and the rulers.
We are but slaves. We are but peasants.

But the cages are made of gold.
They shine so brightly in the sun.
Who would ever want to escape
From such a cage
When it looks like so much fun.
When it looks like so much fun.

We're born and raised
And fed on promises
Told we are special. We're unique.
That we'll grow up
And experience pleasure
And one day we will succeed.

All is comfort. All is brightness.
There is no talk of doom or gloom.
And if we fail it must be our fault.
So goes the rhetoric so plays the tune.

But the cages are made of gold.
They shine so brightly in the sun.
Who would ever want to escape
From such a cage
When it looks like so much fun.
When it looks like so much fun.

But in the end we must think freely.
We must question. We must doubt.
We must realize that we are prisoners
And try to find the best way out.

Bring down those cages with all their sparkle
All their comfort and all their gold.
Let's build a new world
Without walls or bars
Where the story of true humanity
Can be told.

Bring down those cages made of gold
That shine so brightly in the sun.
Only the dream of revolution
Can bring us joy
In the joy of knowing
That a new day has begun.
A new day has begun.

We Are Dreaming Spiders (2019-013)

We are dreaming spiders
In the web of life.
We are dreaming spiders
In the web of life.
What do we dream? What do we imagine?
Where do our thoughts abide?
We are dreaming spiders
In the web of life.

Spooky actions at a distance
Tell us all of space and time.
Spooky actions at a distance
Tell us all of space and time.
All the universe is an organism
Alive and unified.
Spooky actions at a distance
Tell us all of space and time.

Time and mind and spider land
It all keeps dreaming on.
Time and mind and spider land
It all keeps dreaming on.
And all the cosmos shimmers
And leads us to the dawn.
Time and mind and spider land
It all keeps dreaming on.

We are dreaming spiders
In the web of life.
We are dreaming spiders
In the web of life.
What do we dream? What do we imagine?
Where do our thoughts abide?
We are dreaming spiders
In the web of life.

What makes us more than bad rats
Driven crazy in a maize?
What makes us more than mad rats
Driven crazy in a maize
Is our ability to dream
A free and open space.
What makes us more than mad rats
Driven crazy in a maize?

They who abide in love abide
In sweet divinity.
They who abide in love abide
In sweet divinity.

And with our minds we come to know
The vast infinity.
They who abide in love abide
In sweet divinity.

We are dreaming spiders
In the web of life.
We are dreaming spiders
In the web of life.
What do we dream? What do we imagine?
Where do our thoughts abide?
We are dreaming spiders
In the web of life.
We are dreaming spiders
In the web of life.

O Little Town of Sinope (2019-014)

O little town of Sinope
By the shores of the Black Sea.
You gave to all humanity
The gift Diogenes.

A dreamer and a rebel
One daring to ask why
Who lived in deep simplicity
Beneath the Athens sky.

He called all human beings
His spiritual kin
With a vision of one great wide world
That a new day may begin.

We honour you Diogenes
Remembering you now
That all our hearts may turn toward peace
And build anew somehow.

The one they called Kynikos
The Cynic or the dog
Who lived the free dissenting life
In gentle dialogue.

Diogenes the Cynic
You tower over all
That we may live in love and hope
Around this blue white ball.

Long John Silver (2019-015)

My name is Long John Silver.
I don't know what you've heard about me.
Once I was a pirate but now I come
As a revolutionary.

The pirate makes his living
By steeling silver and gold
But the revolutionist realizes
There's a greater tale to be told.

My name is Long John Silver.
I was a pirate from the sea.
But now I've devoted my life to being
A revolutionary.

If there's silver and gold to be had
It must go to the good of all.
Our treasures and boats must come to serve
The revolutionary call.

My name is Long John Silver.
I'm a revolutionary.
Won't you come and join me
And turn every tide on the sea.

The only Treasure Island
Is the one within us all.
May we build society anew
All around this blue white ball.

My name is Long John Silver.
My name is Long John Silver.
My name is Long John Silver.

Innocent Earth (2019-016)

I don't know what all we're gonna go through
But one day we will look for
The innocent Earth.

There'll be flowers growing in a garden
Gentle lambs and meadows
And gentle mirth.

I don't know what all we're gonna go through
But one day we will look for
The Innocent Earth.

There'll be people in small houses
Near a forest
And no one will be asking
What is everything worth.

I don't know what all we're gonna go through
But one day we will look for
The innocent Earth.

We will know that life is worth the living
And in our souls
We will find rebirth.

I don't know what all we're gonna go through
But one day we will look for
The innocent Earth.

Innocent Earth
Innocent Earth
Innocent Earth.

For Earth and Wind and Sun (2019-018)

Some say that oil and gas and coal
Is the only way we can be
That there is no other possible way
To generate energy
But we have dreamed a different dream
For those who dare to be free.

The time it has come
For Earth and wind and sun.
A time for Earth and wind and sun.

Shut down those stinking oil wells.
Shut down the coal mines too.
With a just transition we'll retrain
The workers like me and like you.
Build windmills and solar panels.
It's not so hard to do.

The time it has come
For Earth and wind and sun.
A time for Earth and wind and sun.

Retrofit ten million homes.
Reduce our use of energy.
Go out around the world and plant
Five hundred billion trees.
The human imagination has
No limit when it starts to dream.

The time it has come
For Earth and wind and sun.
A time for Earth and wind and sun.

A world with wind and sunlight
As a source of energy
Community gardens small-scale farms
And food for you and for me.
This is the kind of a world in which
I really would like to be.

The time it has come
For Earth and wind and sun.
A time for Earth and wind and sun.

The time it has come
For Earth and wind and sun.
A time for Earth and wind and sun.
A time for Earth and wind and sun.

We Say No (2019-019)

To oil pipelines we say no.
To oil pipelines we say no.
To oil pipelines we say no.
O Earth we say no.

We say no o Earth we say no.
We say no o Earth we say no.
We say no o Earth we say no.
O Earth we say no.

To toxic tarsands we say no.
To toxic tarsands we say no.
To toxic tarsands we say no.
O Earth we say no.

We say no o Earth we say no.
We say no o Earth we say no.
We say no o Earth we say no.
O Earth we say no.

To deadly coal mines we say no.
To deadly coal mines we say no.
To deadly coal mines we say no.
O Earth we say no.

We say no o Earth we say no.
We say no o Earth we say no.
We say no o Earth we say no.
O Earth we say no.

All life on Earth shall cry we say no.
All life on Earth shall cry we say no.
All life on Earth shall cry we say no.
O Earth we say no.

We say no o Earth we say no.
We say no o Earth we say no.
We say no o Earth we say no.
O Earth we say no.

We'll build a better world. It will grow.
We'll build a better world. It will grow.
We'll build a better world. It will grow.
O Earth it will grow.

It will grow o Earth it will grow.
It will grow o Earth it will grow.
It will grow o Earth it will grow.
O Earth it will grow.

O Earth it will grow.

Marching in the Street (2019-020)

We went marching in the street.
We went marching in the street.
We went marching in the street.
We went marching in the street.

We went dreaming in our minds.
We went dreaming in our minds.
We went dreaming in our minds.
We went dreaming in our minds.

We went walking in the wind.
We went walking in the wind.
We went walking in the wind.
We went walking in the wind.

We went dancing in the rain.
We went dancing in the rain.
We went dancing in the rain.
We went dancing in the rain.

We went sleeping in a song.
We went sleeping in a song.
We went sleeping in a song.
We went sleeping in a song.

We went sailing on the sea.
We went sailing on the sea.
We went sailing on the sea.
We went sailing on the sea.

We went marching in the street.
We went marching in the street.
We went marching in the street.
We went marching in the street.

The B. F. Skinner Mockingbird (2019-021)

We know a man whose only claim to fame
Is that B. F. Skinner is his name.
We will not bow to what we've heard
From the B. F. Skinner mockingbird.
B. F. Skinner mockingbird.

He tells us that we have no soul.
He wants to manipulate and control.
We will not bow to something so absurd
As the B. F. Skinner mockingbird.
B. F. Skinner mockingbird.

He takes the humanity out of humanity
And tells us we never can be free.
But we will not bow to the discouraging word
Of the B. F. Skinner mockingbird.
B. F. Skinner mockingbird.

B. F. Skinner mocks us all
But our spirits they are standing tall.
We will not bow to what we've heard
From the B. F. Skinner mockingbird.
B. F. Skinner mockingbird.

He says we're no more than Pavlov's dog
A lab rat or a boiling frog.
But we will not bow to the discouraging word
Of the B. F. Skinner mockingbird.
B. F. Skinner mockingbird.

He says we have no humanity
No freedom and no dignity.
But we will not bow to something so absurd
As the B. F. Skinner mockingbird.
B. F. Skinner mockingbird.

We are free to think and do and be.
We are building freedom's community.
We will not bow to what we've heard
From the B. F. Skinner mockingbird.
B. F. Skinner mockingbird.

We have the power to dream and the power to think.
We won't be slaves to Behaviourism Inc.
We will not bow to the discouraging word
Of the B. F. Skinner mockingbird.
B. F. Skinner mockingbird.

In the spirit of Rogers Maslow and Jung

We'll go dancing by the light of the moon.
We will not bow to something so absurd
As the B. F. Skinner mockingbird.
B. F. Skinner mockingbird.

B. F. Skinner mocks us all
But our spirits they are standing tall.
We will not bow to what we've heard
From the B. F. Skinner mockingbird.
B. F. Skinner mockingbird.

We know a man whose only claim to fame
Is that B. F. Skinner is his name.
We will not bow to the discouraging word
Of the B. F. Skinner mockingbird.
B. F. Skinner mockingbird.
B. F. Skinner mockingbird.
B. F. Skinner mockingbird.

Where Water Quenches Fire (2019-022)

Gautama can not find. saw a world
Where suffering was everywhere.
He asked how can we overcome
Such sorrow and despair.
Let go of desire
He said and feel compassion.
Live lives of right thought
Right Speech and right action.

Gautama left the palace
To travel in his time
And share his gentle message
With all of humankind.
You can achieve enlightenment
By having no desire.
Be like the gentle river
Where water quenches fire.
Where water quenches fire.

Now two and a half millennia
Have freely come and gone
Since Gautama under the bow tree
Felt enlightenment coming on.
And still we have a world
Of desire greed and pain.
We could use Gautama's message
Like the gently falling rain.
Like the gently falling rain.

You can achieve enlightenment
By having no desire.
Be like the gentle river
Where water quenches fire.
Where water quenches fire.

Pavlov's Dog (2019-023)

You aint nothin' but Pavlov's dog
Salivating all the time.
You aint nothin' but Pavlov's dog
Salivating all the time.
You salivate at the ring of a bell
Even when there aint no meat to find.

You said you were climbing Maslow's hierarchy
But that was just a lie.
You said you were climbing Maslow's hierarchy
But that was just a lie.
You will bark with B. F. Skinner
Unto the end of time.

You aint nothin' but Pavlov's dog
Salivating all the time.
You aint nothin' but Pavlov's dog
Salivating all the time.
You salivate at the ring of a bell
Even when there aint no meat to find.

You said you were climbing Maslow's hierarchy
But that was just a lie.
You said you were climbing Maslow's hierarchy

Night of a Billion Flame-licks (2019-024)

Seventy-two thousand
Forest fires in the Amazon.
Set by mining companies and ranchers
Who say their right-wing government
Has given them a license to plunder on.

And the smoke from the fires
Bellows out around the world
Putting CO2 in the atmosphere
Enabling climate catastrophe to unfurl.

Do we have a name
That's strong enough to name this
Catastrophe apocalypse
Night of a billion flame-licks.
Night of a billion flame-licks.

The house of Planet Earth
Is going up in flames
As corporate man destroys us
With a million power games.
For thirty years we've struggled
To change the way we operate 'round the globe
But after thirty years we stand and watch
Our hopes and dreams for the future
Go up in smoke.

Do we have a name
That's strong enough to name this
Catastrophe apocalypse
Night of a billion flame-licks.
Night of a billion flame-licks.

Seventy-two thousand
Forest fires in the Amazon
Set by mining companies and ranchers
Who say their right-wing government
Has given them a license to plunder on.
And they plunder on.
And they plunder on.

The Age of the Earth (2019-025)

This is the age of the earth
Where living within our ecological means
Is a part of being free.
This is the age of the earth
Where saying no to the mad production machine
Has become a necessity.

We have to think of the earth
Whenever we ask how are we gonna live
As we build a future for all.
We have to think of the earth
When we envision an alternative.
We must listen and hear the earth's call.

This is the age of the earth.
Feel the earth turning
Around and around and around.
She asks us to love her with all of our souls.
This is the age of the earth.
We must see through the chaos
And find ourselves on solid ground
Where we and the ecosphere can be whole.

This is the age of the earth
Where living within our ecological means
Is a part of being free.
This is the age of the earth
Where saying no to the mad production machine
Has become a necessity.

This is the age of the earth.
This is the age of the earth.
This is the age of the earth.

We Traveled All Around the World (2019-026)

We traveled all around the world
Just to count the cats in Zanzibar.
We traveled all around the world
Just to count the cats in Zanzibar.
And to watch a neon sign tell us
You are where you are.

We traveled all around the world
To find the hotel rooms were all the same.
We traveled all around the world
To find the hotel rooms were all the same.
And the monocultured menus in the lounges
Drove us all insane.

We traveled all around the world
To find the same devil
Wanted us to play his game.
We traveled all around the world
To find the same devil
Wanted us to play his game.
We said no to that devil
With a red light pulsing in our brains.

I've heard it said the progressive movement
Has abolished Hell.
I've heard it said the progressive movement
Has abolished Hell.
Now capitalism's trying to bring it back.
Only time will tell.

Laozi spoke of a world
Where the villages were so close
That from one village to another
You could hear a rooster crow.
But people were so contented
To dream and contemplate
That no one ever went to the next village
To investigate.

We traveled all around the world
Just to count the cats in Zanzibar.
We traveled all around the world
Just to count the cats in Zanzibar.
And to watch a neon sign tell us
You are where you are.

You are where you are.
You are where you are.
You are where you are.

Marxian Mole (2019-027)

I'd like to be a Marxian mole
And raise my voice against corporate control.
A Marxian mole who burrows underground
Til I bring capitalism tumbling down.
Til I bring capitalism tumbling down.

I'd sing a revolutionary song
Though the work be hard and the days be long.
A revolutionary song would shake the ground
Til I'd bring capitalism tumbling down.
Til I'd bring capitalism tumbling down.

Karl Marx knew the world of capital.
He said let's all get together
And go burrowing like a mole.
Revolution will make the world go 'round
Til we bring capitalism tumbling down.
Til we bring capitalism tumbling down.

Don't be afraid of the Marxian mole.
It's the song that resonates
At the heart of your soul.
Revolution will turn the world around
Til we bring capitalism tumbling down.
Til we bring capitalism tumbling down.

The Marxian mole keeps burrowing
Through the soil.
The structures crumble
Thanks to his toil.
An earthquake from below will shake the ground
Til he brings capitalism tumbling down.
Til he brings capitalism tumbling down.
Til he brings capitalism tumbling down.

We Were There (2019-028)

Do you remember
When we went out into the street.
We were thousands
And we were dancing to the beat.
We were there
To say what we had to say.
To dream the dream
Of a new and brighter day.
We were there.

And the policemen
They were marching by our side.
They'd no desire
To try to stop the tide.
All the city
Seemed to be with us now.
We were the people
Standing tall and proud.
We were there.
We were there.
We were there.

Do you remember
When we went home that day.
We were certain
That somehow the world had changed.
We were the people.
We were the generation
That could stand
And lead the world to transformation.
We were there.

May that moment
Not be consigned to history.
May that moment
Be more than a memory.
May it be the dream
That becomes reality.
May we build a world
Of love and peace and equity.
We are there.
We are there.
We are there.

With a billion hearts
Bring down the corporatocracy.
With a billion minds
Build the world that has to be.
With a billion souls

Dream sustainability.
Weave a new world
Where everybody can be free.
We are there.
We are there.

More to Life Than the Company Town (2019-029)

Down in the valley where the rivers flow
Where the butterflies sing rock 'n' roll
The snow's been coming down all day
Telling us of another way.

There will always be those who say
Capitalism is here to stay.
But there are those who see beyond the bounds
Saying Wall Street does not make the world go 'round.
Wall Street does not make the world go 'round.
There's more to life than the company town
More to life than the company town.

Down in the valley where the big wind blows
Where the butterflies sing rock 'n' roll
The rain's been coming down all day
Asking us to dream of a better day.

There will always be those who say
Capitalism is here to stay.
But there are those who see beyond the bounds
Saying Wall Street doesn't make the world go 'round
Wall Street doesn't make the world go 'round.
There's more to life than the company town
More to life than the company town.

Lucy Parsons and Mother Jones
Fought for a world without corporate control.
Alison Krouse and Jean Donavon
Died for the vision of a rising sun.
Carlo Giuliani, Thomas Hurndall and
How many more in this and every land
Died fighting for the dream
Of a world of peace and equity
A world of peace and equity.

Now Greta Thunberg comes to say
It's time to dream of a brighter day
Where every creature on this Earth
Is respected for its inherent worth
Respected for its inherent worth.
Turn down the heat; the heat is on.
We must bring this world a cooler dawn
Bring this world a cooler dawn.

Down in the valley where the rivers flow
Where the butterflies sing rock 'n' roll
The snow's been coming down all day
Telling us all of another way.

There will always be those who say
Capitalism is here to stay.
But there are those who see beyond the bounds
Saying Wall Street doesn't make the world go 'round.
Wall Street doesn't make the world go 'round.
There's More to Life than the company town
More to life than the company town.
More to life than the company town.

Take Back the World (2019-030)

The company that used to own
The Havana Airport
Says it will sue any travel companies
Who dare to land on
What used to be its air strip
Saying it was stolen
By the revolutionaries.

This raises the question
Who are the rightful owners
The companies who exploited the people
Or is it the people
Who made the revolution
To free their country
From the sycophants of Batista.

Take back the land.
Take back the water.
Take back the world
You revolutionary sons and daughters.
It is the people
And the eco-systems
Who have a right to live
In ecosocialism.
It is the people
And the eco-systems
Who have a right to live
In ecosocialism socialism.

Who built the world?
Is it the CEOs
Who made their living
On the oppression of others.
Or is it the workers
Who lived and died in labour
The sons and daughters
The fathers and the mothers.

It is the workers
All around the planet
Who built the world
From the pyramids of Egypt
To the modern highways
And office towers
Of today.
It is the people.
They were built by the people.

Take back the land.

Take back the water.
Take back the world
You revolutionary sons and daughters.
It is the people
And the eco-systems
Who have a right to live
In ecosocialism.
It is the people
And the eco-systems
Who have a right to live
In ecosocialism socialism.

It is the workers.
It is the people.
We are the ones
Who created history.
Not the kings or the princes
Or corporate CEO's
We are the ones.
It is no mystery.

It is the workers.
It is the people.
We are the ones
Who created history.
Not the kings or princes
Or corporate CEO's.
We are the ones.
It is no mystery.

We created history.
It is no mystery.
We created history.
It is no mystery.
We created history.
It is no mystery.

Take back the land.
Take back the water.
Take back the world
You revolutionary sons and daughters.
It is the people
And the eco-systems
Who have a right to live
In ecosocialism.
It is the people
And the eco-systems
Who have a right to live
In ecosocialism socialism.

Dwellers in the Land (2019-031)

We are dwellers in the land
Though we dream among the stars.
We hold the topsoil in our hands.
The land is beating in our hearts.

So we gather in this place
As we come from near and far
To learn the bioregion's ways
To learn again just who we are.

Learn the life of every tree
Every valley every hill
Every river every stream
Every forest dark and still.

We are dwellers in the land
Though we dream among the stars.
We hold the topsoil in our hands.
The land is beating in our hearts.

So we gather in this place
As we come from near and far
To learn the bioregion's ways
To learn again just who we are.

We are the wood in every tree
The leaves and grass on every hill
The water in each rushing stream
Each holy woodland living still.

We are dwellers in the land
Though we are the stuff of stars.
We hold the topsoil in our hands
And dream sweet Gaia in our hearts.

So we gather in this place
As we come from near and far
To learn the bioregion's ways
To learn again just who we are.

We are dwellers in the land.
We are dwellers in the land.
We are dwellers in the land.

The Dreaming and the Doing (2019-032)

I was born in the sixties
In the fall of sixty-seven.
I was a child in the seventies
In that land of gentle weather.

I came of age in the eighties
In a world of a million visions
Cascading through the valleys of our minds
Like sunlight through a prism.

I made it through the nineties
With my spirit growing freer.
I dared to be an activist
A digger and a dreamer.

I hit the year 2000
Like the rubber hits the highway.
There were pictures in space and time
Projected on the skyway.

And now we keep on dancing
And now we keep on moving
Hoping that this world we know
Will somehow be improving.

And now we keep on dancing
And now we keep on moving
Hoping there is time now
For the dreaming and the doing.
Hoping there is time now
For the dreaming and the doing.
The dreaming and the doing.
The dreaming and the doing.

Bold New Spring (2019-033)

There was no apple and there was no tree.
There was no original sin you see.
There is no Devil and there is no Hell.
Just a beautiful universe can't you tell.

So let us spread our wings and fly.
We are the makers of Paradise.
Let us spread our wings and soar.
The garden lives forever more.
The garden lives forever more.

Our hearts and minds and souls are free
In a loving universality.
Paradise lives within us all
As we live in peace and freedom's call.
Paradise lives within us all
As we live in peace and freedom's call.

We are freedom people everyone
Shining with the brightness of the sun.
We are gentle people everywhere
Building a world that all may share.

We are freedom people everyone
Shining with the brightness of the sun.
We are gentle people everywhere
Building a world that all may share.

Sometimes the road seems o so long
But this is a liberation song.
A liberation flowering
To bring the world to a bold new spring.
Bring the world to a bold new spring.

Sometimes the road seems o so long
But this is a liberation song.
A liberation flowering
To bring the world to a bold new spring.

Bold new spring bold new spring
Bring the world to a bold new spring.
Bring the world to a bold new spring.
Bold new spring bold new spring
Bold new spring.

Let Us Be as One (2019-034)

Let us stand together.
Let us march together.
As we dance beneath the light of the sun.
Let us dream together.
Let us build together.
And let us be as one.

Let us stand together.
Let us march together.
As we dance beneath the light of the sun.
Let us dream together.
Let us build together.
And let us be as one.

Let us have a vision.
Let us share the vision.
As we dance beneath the light of the sun.
Let us live the vision.
Let us be the vision.
And let us be as one.

Let us have a vision.
Let us share the vision.
As we dance beneath the light of the sun.
Let us live the vision.
Let us be the vision.
And let us be as one.

Let us dance forever.
Let us sing forever.
As we dance beneath the light of the sun.
Let us love forever.
Let us live forever.
And let us be as one.

Let us dance forever.
Let us sing forever.
As we dance beneath the light of the sun.
Let us love forever.
Let us live forever.
And let us be as one.

Let us be as one.
Til the new day has begun.
Let us be as one.
Til the new day has begun.
Let us be as one.

Let us stand together.

Let us march together.
As we dance beneath the light of the sun.
Let us dream together.
Let us build together.
And let us be as one.

Let us stand together.
Let us march together.
As we dance beneath the light of the sun.
Let us dream together.
Let us build together.
And let us be as one.

Let us be as one.
Til the new day has begun.
Let us be as one.
Til the new day has begun.
Let us be as one.

Dead Planet (2020-001)

There's no social justice on a dead planet.
There's no democracy on a dead planet.
There's no diversity on a dead planet.

Just the sound of a very lonely wind
Blowing through the sky
And the warmth of a very lonely sun
Shining down from on high.

There's no Indigenous rights on a dead planet.
There's no LGBT rights on a dead planet.
There's no disability rights on a dead planet.

Just the sound of a very lonely wind
Blowing through the sky
And the warmth of a very lonely sun
Shining down from on high.

There's no arts and music on a dead planet.
There's no poetry on a dead planet.
There's no community on a dead planet.

Just the sound of a very lonely wind
Blowing through the sky
And the warmth of a very lonely sun
Shining down from on high.

And from time to time the wind and the sun
Will say to each other now isn't it a shame
That humanity never made use of us
For energy while they had the chance.
Now everything's been destroyed.

So let's get together now and save the planet.
I said
Let's get together now and save the planet.
I said
Let's get together now and save the planet.

With the wind and the sun for energy
The planet we love can stay alive.
The earth and humanity need not die.
We need not be destroyed.
Powered by the wind and the sun
We'll build a whole new day.

With the wind and the sun for energy
The planet we love can stay alive.
The earth and humanity need not die.

We need not be destroyed.
Powered by the wind and the sun
We'll build a whole new day.
We'll build a whole new day.

Ode to the Revolution (2020 lyrics) (2020-002)

Somewhere in a darkened street
A people voted with their feet.
The air was thick with radical solutions.
Somewhere in some century
The human heart began to beat
And in our minds we shouted revolution.
Revolution.

Young men taking to the hills
Not afraid to die or kill
Or dream a new world out of the confusion.
Campaneros joining hands
The brightest from across the land
Who vowed they'd live to see the revolution.
Revolution.

Hear the call and join the fight
For socialism in a single night
Or a hundred years of social evolution.
Build the movement step by step
And street by street we'll see it yet.
We'll see the dawning of the revolution.
Revolution.
We'll see the dawning of the revolution.
Revolution.

What some have only talked about
A million souls could work it out
A power and a wealth redistribution.
Though rulers rise and rulers fall
Surely we have heard the call.
Our hearts and minds are pounding revolution.
Revolution.

Though juntas with their tanks and guns
Will try to crush what we have won
And acqizitivists will tees us with illusion
We will stand forever strong
United by a struggle song.
By whatever means we'll make the revolution.
Revolution.

Hear the call and join the fight
For socialism in a single night
Or a hundred years of social evolution.
Build the movement step by step
And street by street we'll see it yet.
We'll see the dawning of the revolution.
Revolution.

We'll see the dawning of the revolution.
Revolution.

The bones of Comandante Che
Lie buried in a Cuban grave
But his spirit comes to shake the institutions.
And by the sword or by the pen
Che Guevarra's dream will rise again.
The world will shout one Vive La Revolution.
Revolution.

The world will shout one Vive La Revolution.
Revolution.

We'll see the dawning of the revolution.
Revolution.

By whatever means we'll make the revolution.
Revolution.

It's not too late to make the revolution.
Revolution.

The world will shout one Vive La Revolution.
The world will shout one Vive La Revolution.

Armies of Nonviolence (2020-003)

We are the people
Bold true and strong.
Sometimes we shout.
Sometimes we listen to the silence.
We'll build the honoured movement
With the power of a song
And we'll march in the armies of nonviolence.

A world of peace and justice
And sustainability
That is the new day we are seeking.
We will build with action
As one humanity
As with all our hearts we are believing.

We are the people
Bold true and strong.
Sometimes we shout.
Sometimes we listen to the silence.
We'll build the honoured movement
With the power of a song
And we'll march in the armies of nonviolence.

With a love for the rivers
And the gently flowing streams
The oceans the forests and the mountains
A love for the deserts
The wetlands and the shores
With everything a youthful fountain.

We are the people
Bold true and strong.
Sometimes we shout.
Sometimes we listen to the silence.
We'll build the honoured movement
With the power of a song
And we'll march in the armies of nonviolence.
We are the honoured movement.
We're the power of the song.
We are the armies of nonviolence.

We are the people
Who live within this world
Who live amidst the beauty and the grandeur.
We will be caretakers
With a love for everyone
As we come and dare to take our stand here.

We are the people

Bold true and strong.
Sometimes we shout.
Sometimes we listen to the silence.
We'll build the honoured movement
With the power of a song
And we'll march in the armies of nonviolence.
We are the honoured movement.
We're the power of the song.
We are the armies of nonviolence.
We are the armies of nonviolence.
We are the armies of nonviolence.

Deep Pink (2020-004)

Some roses are red.
Some roses are white.
Some daffodils are golden
As they sway in the night.
Many are the colours
And many the tones.
Deep pink is a song
And a tone of its own.

Deep pink is the music
That flows from our hearts.
It flows through the earth
And it shines in the stars.
It tells us of change
Of dreaming and love.
It comes from within
And it comes from above.

Some roses are red.
Some roses are white.
Some daffodils are golden
As they sway in the night.
Many are the colours
And many the tones.
Deep pink is a song
And a tone of its own.

Deep pink is the quiet
That was before all
Before singularity
Sounded the call.
It exploded in starbursts
That shaped what we are.
It imagined the distances
Of near and far.

Some roses are red.
Some roses are white.
Some daffodils are golden
As they sway in the night.
Many are the colours
And many the tones.
Deep pink is a song
And a tone of its own.

Deep pink is the glow
That shines in all things.
Deep pink is the soul song
The universe sings.

And when time is ending
With night coming on
Deep pink holds the vision
That tells of the dawn.

Some roses are red.
Some roses are white.
Some daffodils are golden
As they sway in the night.
Many are the colours
And many the tones.
Deep pink is a song
And a tone of its own.
Deep pink is a song
And a tone of its own.

Plumwood Mountain (2020-005)

She came to live by Plumwood Mountain
To feel the seasons turning 'round.
She made her home by Plumwood Mountain
And knew each sight and scent and sound.

She came to dream on Plumwood Mountain
And dreamed our lives are one with Earth.
And so she dreamed on Plumwood Mountain
And dreamed each creature has inherent worth.

She named herself for Plumwood Mountain
Taking Plumwood as her name.
She named herself for Plumwood Mountain
Through the sunlight wind and rain.

And on a leapday by Plumwood Mountain
In the year twenty-o-eight
She passed away by Plumwood Mountain
And she was lowered into her grave.

And now she dwells on Plumwood Mountain
Beneath the forest beneath the sky.
And she will dwell on Plumwood Mountain
As the centuries go by.

Plumwood Mountain Plumwood Mountain
Plumwood Mountain ever nigh.
Plumwood Mountain Plumwood Mountain
Plumwood Mountain ever nigh.
Plumwood Mountain ever nigh.
Plumwood Mountain ever nigh.
Plumwood Mountain ever nigh.

I Went Out the Window (2020-006)

Everywhere I went
Was silence in the town.
It's like the world was crying
But without a sound.
I went out the window
And the snow came down.
I went out the window
And the snow came down.

People in their houses
Watch the days go 'round.
Others on the beach
Refuse to wear a frown.
I went out the window
And the snow came down.
I went out the window
And the snow came down.

The politicians tell us
We will all rebound.
Never thought I'd live through
Something so profound.
I went out the window
And the snow came down.
I went out the window
And the snow came down.

Takes us to the nightmare
Called reality now.
I know we will make it
Through somehow.
I went out the window
And the snow came down.
I went out the window
And the snow came down.

For all the front-line workers
Who stand their ground
We'll take off our hats
And we'll take a bow.
I went out the window
And the snow came down.
I went out the window
And the snow came down.

Mad man in the Whitehouse
Acting like a clown.
He'll destroy us all
Before the year goes 'round.

I went out the window
And the snow came down.
I went out the window
And the snow came down.
I went out the window
And the snow came down.

By Whatever Means Necessary (2020-007)

By whatever means necessary.
By whatever means necessary.
By whatever means necessary.
By whatever means necessary.

We will set the human future free
By whatever means necessary.
We'll make a world where we can be
By whatever means necessary.

By whatever means necessary.
By whatever means necessary.
By whatever means necessary.
By whatever means necessary.

We will dream a planet-wide dream
By whatever means necessary.
We will make that dream reality
By whatever means necessary.

By whatever means necessary.
By whatever means necessary.
By whatever means necessary.
By whatever means necessary.

We will work for peace and equity
By whatever means necessary.
We will build sustainability
By whatever means necessary.

By whatever means necessary.
By whatever means necessary.
By whatever means necessary.
By whatever means necessary.

We will change the course of history
By whatever means necessary.
Build a new world for you and for me
By whatever means necessary.

By whatever means necessary.
By whatever means necessary.
By whatever means necessary.
By whatever means necessary.
By whatever means necessary.
By whatever means necessary.

Meteors (2020-008)

We call them falling stars
But they're really chunks of stone
That fall and turn to fire in the air.
Meteor showers
That come from far away
Reminding us that we are everywhere
Reminding us that we are everywhere.

There's a part of you and me
In every meteoroid
And a little bit of meteor in us all.
We send our poems
Across the galaxy
And on a starlit night we watch the meteors fall.
On a starlit night we watch the meteors fall.

Who are we
Upon this tiny world
Of thunderstorms and hurricanes and snow.
We feel the meteors
As with them our world collides.
And we say
Someone must have named them long ago.
Someone must have named them long ago.

We are children
Of motion space and time
With all the rocks and dust and gas and stars.
The spirits dance
Upon a cosmic tide
And every fragment dreams the universe.
And every fragment dreams the universe.

Dreaming with a music
That washes over all
Dreaming with a beauty beyond words.
Dreaming holy cosmos
That dances in our hearts
Before which the microcosms burst.
Before which the microcosms burst.

We are children
Of motion space and time
With all the rocks and dust and gas and stars.
The spirits dance
Upon a cosmic tide
And every fragment dreams the universe.
And every fragment dreams the universe.
Dreaming with a beauty beyond words.

Every fragment dreams the universe.
Dreaming with a beauty beyond words.
Dreaming with a beauty beyond words.

To See the Breaking Dawn (2020-009)

There was the one who died
And the thousand who lived on
Living on prepared to live
To see the breaking dawn.

There was the one who died
And the thousand who lived on
Living on prepared to live
To see the breaking dawn.

Medgar Evers died
But a thousand lived on
Living on prepared to live
To see the breaking dawn.

Malcolm X died
But a thousand lived on
Living on prepared to live
To see the breaking dawn.

Norman Morrison died
But a thousand lived on
Living on prepared to live
To see the breaking dawn.

Che Guevarra died
But a thousand lived on
Living on prepared to live
To see the breaking dawn.

Fred Hampton died
But a thousand lived on
Living on prepared to live
To see the breaking dawn.

Allison Krause died
But a thousand lived on
Living on prepared to live
To see the breaking dawn.

Salvador Allende died
But a thousand lived on
Living on prepared to live
To see the breaking dawn.

Karen Silkwood died
But a thousand lived on
Living on prepared to live
To see the breaking dawn.

Joe Killright Stuntz died
But a thousand lived on
Living on prepared to live
To see the breaking dawn.

Anna Mae Aquash died
But a thousand lived on
Living on prepared to live
To see the breaking dawn.

Phil Ochs died
But a thousand lived on
Living on prepared to live
To see the breaking dawn.

Steven Biko died
But a thousand lived on
Living on prepared to live
To see the breaking dawn.

Tina Trudell died
But a thousand lived on
Living on prepared to live
To see the breaking dawn.

Oscar Romero died
But a thousand lives on
Living on prepared to live
To see the breaking dawn.

Jean Donavon died
But a thousand lived on
Living on prepared to live
To see the breaking dawn.

John Lennon died
But a thousand lived on
Living on prepared to live
To see the breaking dawn.

Chicco Mendes died
But a thousand lived on
Living on prepared to live
To see the breaking dawn.

Petra Kelly died
But a thousand lived on
Living on prepared to live
To see the breaking dawn.

Dudley George died
But a thousand lived on
Living on prepared to live
To see the breaking dawn.

Ken Saro-Wiwa died
But a thousand lived on
Living on prepared to live
To see the breaking dawn.

Carlo Giuliani died
But a thousand lived on
Living on prepared to live
To see the breaking dawn.

Rachel Corie died
But a thousand lived on
Living on prepared to live
To see the breaking dawn.

Far too many have died
But we shall live on
Living on prepared to live
To see the breaking dawn.

Far too many have died
But we shall live on
Living on prepared to live
To see the breaking dawn.
Living on prepared to live
To see the breaking dawn.

We Are the Goddess (2020-010)

We are the Goddess.
We are the Green Man.
We are the changing.
We walk in freedom.

We are the lover.
We are the dreamer.
We dream each other.
We are the weaver.

We are the Goddess.
We are the Green Man.
We are the changing.
We walk in freedom.

We are the thinker.
We are the seeker.
We are the rearranger.
We are the healer.

We are the Goddess.
We are the Green Man.
We are the changing.
We walk in freedom.

We are the winter
Snow that is falling.
We are the springtime
Birds that are calling.
We are the summer
Growing and learning.
We are the autumn
Leaves gently turning.

We are the Goddess.
We are the Green Man.
We are the changing.
We walk in freedom.
We are the changing.
We walk in freedom.
We walk in freedom.
We walk in freedom.

The Best Days of my Life (Green Lyrics) (2020-011)

I joined the Green movement
Went where I'd never gone before.
I marched until my feet were sore.
It was the summer of 84.

I left the shelter of home and school
Went out into the wider world
Met peace and ecology fighters
Took it all in as one great whirl.

O and when I look back now
Those meetings seemed to last forever.
O and when I look back now
We knew it was now or never
But those were the best days of my life.
O yeah.

It was a world of nuclear weapons
Where you feared they might fall on you.
But we believed we could rearrange things.
We were young and the world was new.

I remember an anti-cruise vigil
When the weather was forty below.
We marched around and sang to keep ourselves warm
And put the world on a peaceful road.

I remember a Campus Greens pub yeah
Where forty people came out to hear
To hear us speak of a new green vision
For humankind and the biosphere.

O and when I look back now
The movement seemed to last forever.
O and when I look back now
We knew it was now or never
But those were the best days of my life.
O yeah
Those were the best days of my life.

Now here we are over thirty years later.
The world is burning up with climate change.
Forest fires floods droughts and famines
But surely we can still rearrange.

If the people would come to their senses
If the corporations would fall away
We could build a new green tomorrow
And there'd be reason to celebrate.

O and when I look back now
We wanted Gaia to last forever.
O and when I look back now
We knew it was now or never
But those were the best days of my life.
O yeah
Those were the best days of my life.
O yeah
Those were the best days of my life.

From the summer of 84
To the summer of 85
Through the summer of 86
Through 87 we were still alive.
Those were the best days of my life.
Those were the best days of my life.

Corn in the Landlord's Cornfield (2020-012)

Gonna pick corn in the landlord's cornfield
On the Sabbath day.
Gonna pick corn in the landlord's cornfield
On the Sabbath day.
We will tell the landlord
There is no more private property.
That is what we'll say.
Gonna pick corn in the landlord's cornfield
On the Sabbath day.

The coming of the kingdom
Means a whole new way.
The coming of the kingdom
Means a whole new way.
Class power and private property
Will fade away.
The coming of the kingdom
Means a whole new way.

Gonna pick corn in the landlord's cornfield
On the Sabbath day.
Gonna pick corn in the landlord's cornfield
On the Sabbath day.
We will tell the landlord
There is no more private property.
That is what we'll say.
Gonna pick corn in the landlord's cornfield
On the Sabbath day.

Many are those who hoped to live
To see this day.
Many are those who hoped to live
To see this day.
Let all things be shared in common
Ring the bells of May.
Many are those who hoped to live
To see this day.

Gonna pick corn in the landlord's cornfield
On the Sabbath day.
Gonna pick corn in the landlord's cornfield
On the Sabbath day.
We will tell the landlord
There is no more private property.
That is what we'll say.
Gonna pick corn in the landlord's cornfield
On the Sabbath day.

The Son of Man is master

Of the Sabbath day.
The Son of Man is master
Of the Sabbath day.
The common people are the masters
Who can build the way.
The Son of Man is master
Of the Sabbath day.

Gonna pick corn in the landlord's cornfield
On the Sabbath day.
Gonna pick corn in the landlord's cornfield
On the Sabbath day.
We will tell the landlord
There is no more private property.
That is what we'll say.
Gonna pick corn in the landlord's cornfield
On the Sabbath day.
Gonna pick corn in the landlord's cornfield
On the Sabbath day.

Song for Ben Salmon (2020-013)

Ben Salmon was a young man
A working man from Denver.
He learned of the Ludlow massacre
When he was in his mid twenties.
He came to support the labour movement's cause.
Then he learned that Woodrow Wilson
Was sending the nation off to war.
He felt the call of conscience
Even louder than before.
And in June of 1917
He wrote a letter to President Wilson
Explaining why he could not go to war.

He said all men are brothers
And we have one God our Father.
I cannot join the call to go to war.
Jesus said blessed are the merciful
And blessed are the peacemakers.
I said it once; I'll say it all once more.
I cannot go to war.

Then in January 1918
He was arrested for refusing
To fill out a selective service questionnaire.
And so he went to prison
Where life was not so pleasant.
Sometimes he was beaten
And sometimes they force fed him
Til after over two years he was released.
He lived a quiet life then.
His spirit it was strong
But his body it was weakened
From what he'd undergone
And he died in 1932
Dying at the age of forty-three.

But he said all men are brothers
And we have one God our Father.
I will not join the call to go to war.
Jesus said blessed are the merciful
And blessed are the peacemakers.
I've said it once; I'll say it all once more.
I will not go to war.

Will Ben Salmon be forgotten
A footnote in the archives
Or will he be remembered ever more.
John Deer and Daniel Berrigan
Have dared to remember him

And count him as an inspiration against war.

For he said all men are brothers
And we have one God our Father
I will not join the call to go to war.
Jesus said blessed are the merciful
And blessed are the peacemakers.
May Ben Salmon be remembered ever more
When we say no to war.
May Ben Salmon be remembered ever more
When we say no to war.

Creative Maladjustment (2020-014)

The psychiatric profession
Says we must adjust
But how can we adjust
To a society that is unjust.

A society of racism
And militarism
Economic injustice
Ecological destruction
Violence and misogyny.
Perhaps the only solution might be.

Creative maladjustment
Creative maladjustment
Creative maladjustment
Creative maladjustment.

We refuse to adjust
To ecological destruction.
We refuse to adjust
To economic injustice.
We refuse to adjust
To the psychiatric profession.
We refuse to adjust
To racial and class oppression.
We refuse to adjust
To militarism.
We refuse to adjust
To capitalism.

Creative maladjustment
Creative maladjustment
Creative maladjustment
Creative maladjustment.

Don't put me in an institution.
I'm just trying to start a revolution.

Creative maladjustment
Creative maladjustment.
Are you ready to be
Creatively maladjusted.

We refuse to adjust
To ecological destruction.
We refuse to adjust
To economic injustice.
We refuse to adjust
To militarization.

We refuse to adjust
To colonization.
We refuse to adjust
To corporatization.
We refuse to adjust
To obliteration.

Creative maladjustment
Creative maladjustment
Creative maladjustment
Creative maladjustment.

Don't put me in an institution.
I'm just trying to start a revolution.

Creative maladjustment
Creative maladjustment.
Are you ready to be
Creatively maladjusted.

Creative maladjustment
Creative maladjustment
Creative maladjustment
Creative maladjustment.

Irene Live On (2020-015)

It's time you heard the true story
The story about Irene.
It's the story of how we were able
To survive the McCarthy regime.

Irene live on. Irene live on.
Live on Irene. Live on Irene.
And peace shall be our dream.

Irene was not a real person.
She was the Greek goddess of peace.
McCarthy told us our dream of peace
Was never more to be.

Irene live on. Irene live on.
Live on Irene. Live on Irene.
And peace shall be our dream.

They said give up your marches and rallies.
Go home to your fireside bright.
But we stayed in the streets for freedom
Resisting the political right.

Irene live on. Irene live on.
Live on Irene. Live on Irene.
And peace shall be our dream.

McCarthy and J. Edgar Hoover
Said stop all this carrying on.
Though the times were hard there still was time
To sing just one more song.

Irene live on. Irene live on.
Live on Irene. Live on Irene.
And peace shall be our dream.

The dream of peace and justice
Lives on in our hearts and souls.
And the music is sung resisting as one
Both state and corporate control.

Irene live on. Irene live on.
Live on Irene. Live on Irene.
And peace shall be our dream.

Folk music it lives forever
While McCarthy he is deceased.
And music is the place we came
To live our dream of peace.

Irene live on. Irene live on.
Live on Irene. Live on Irene.
And peace shall be our dream.

If music is strong in the movement
Singing for justice and peace
The movement can raise its voice of truth
From the hearts of you and me.

Irene live on. Irene live on.
Live on Irene. Live on Irene.
And peace shall be our dream.

Pete Seeger and Ronnie Gilbert
Fred Hellerman and Lee Haise
They raised a bright red banner of hope
Above the shades of gray.

Irene live on. Irene live on.
Live on Irene. Live on Irene.
And peace shall be our dream.

So here's to all great folk singers
Who sing for justice and peace.
May you outlive all house committees
On unAmerican activities.

Irene live on. Irene live on.
Live on Irene. Live on Irene.
And peace shall be our dream.
Live on Irene. Live on Irene.
And peace shall be our dream.

Song for Franz Jagerstatter (2020-016)

Franz Jagerstatter
Was an Austrian peasant
An ordinary man
Born in 1907 in the month of May.
As a young man he enjoyed himself
Like any Austrian peasant.
Few would have thought he would one day meet
A conscientious martyr's fate.

But in 1937
He married a good woman.
She was strong and devout
In her Catholic faith.
He learned a way of truth
And solid ethics.
He learned that sometimes you must join the ones
Who refuse to cooperate.

In 1939
The Nazi's entered Austria
And the Austrian military became the servant
Of the German Nazi state.
And Franz Jagerstatter was conscripted
To serve in the Hitlerized army
But he knew in his heart
He could not participate.

He consulted
With the priests and bishops
But they told him
To hold his nose and join the army
And everything would be okay.
But Franz Jagerstatter
Could not take such collaboration
As his answer.
His principles could not wait
For another day.

He decided to refuse
To serve in Hitler's army.
He knew he could not be silent.
He could not collaborate.
He decided to refuse
Even though he knew
That execution
Might very well be his fate.

So he went to prison.
Then on the 9th of August 1943

He was executed
By the Nazi state.
He died bearing witness
In solidarity with the millions
All across Europe
Who shared his martyr's fate.

May Franz Jagerstatter
Be remembered
By all those who must choose
To say no or to collaborate.
May Franz Jagerstatter
Be remembered
In times of immorality and slaughter
When we refuse to participate.

And now they call him blessed
And they ask us to reflect on him
And grow strong and gentle
As we contemplate.
And it seems once more
They decorate the sepulchre
Of the prophets our ancestors
Sent to their graves.

But Franz Jagerstatter
Is a man worth remembering
If we want our world
To see a just and peaceful day.
We need a million
Franz Jagerstatters
Who have the courage
To dare to lead us on our way.
To dare to lead us on our way
To a just and peaceful day.

Finite and Fragile Planet (2020-017)

Finite and fragile planet
Turning turning 'round
Let us join our hands around you
And feel you turn without a sound.

Let us be the generation
Who weave a world of peace.
Let the dream of love and unity
Become reality.

Finite and fragile planet
Turning turning 'round
Let us join our hands around you
And feel you turn without a sound.

Let us be the generation
Who weave a world of peace.
Let the dream of love and unity
Become reality.
Become reality.
Become reality.

Finite and fragile planet
Turning turning 'round
Let us join our hands around you
And feel you turn without a sound.

Let us be the generation
Who weave a world of peace.
Let the dream of love and unity
Become reality.
Become reality.
Become reality.

The Music and the Dance (2020-018)

I'm a poet philosopher whose thoughts run wild.
I'm a poet philosopher whose thoughts run wild.
I'm a poet philosopher whose thoughts run wild.
I have come to join in the music and the dance.

I'm a green earth mystic and an earthborn child.
I'm a green earth mystic and an earthborn child.
I'm a green earth mystic and an earthborn child.
I have come to join in the music and the dance.

I'm a lover of wisdom and a dreamer of dreams.
I'm a lover of wisdom and a dreamer of dreams.
I'm a lover of wisdom and a dreamer of dreams.
I have come to join in the music and the dance.

Sometimes I sing sweetly. Sometimes I scream.
Sometimes I sing sweetly. Sometimes I scream.
Sometimes I sing sweetly. Sometimes I scream.
I have come to join in the music and the dance.

For every living creature on this earth
For every living creature on this earth
For every living creature on this earth
I have come to join in the music and the dance.

May we all awaken to a new birth.
May we all awaken to a new birth.
May we all awaken to a new birth.
I have come to join in the music and the dance.

So join in the music. Join in the dance.
Join in the music. Join in the dance.
Join in the music. Join in the dance.
I have come to join in the music and the dance.
I have come to join in the music and the dance.

Ballad of the Ho Chi Min Trail (2020-019)

Come along people, listen to my tale.
I'll tell you of our struggles on the Ho Chi Min Trail.

And it's Ho Ho Ho Ho Ho Chi Min.
The NLF is gonna win.

We are the people of Vietnam,
Trying to free ourselves from Uncle Sam.

And it's Ho Ho Ho Ho Ho Chi Min,
The NLF is gonna win.

For many a long year we've been colonized.
It's time for the peasants and the workers to rise.

And it's Ho Ho Ho Ho Ho Chi Min,
The NLF is gonna win.

We'll rise in the cities, rise on the land.
Gonna bight old Washington's iron hand.

And it's Ho Ho Ho Ho Ho Chi Min,
The NLF is gonna win.

Gonna make a revolution from the core.
Imperialism shall be no more.

And it's Ho Ho Ho Ho Ho Chi Min,
The NLF is gonna win.

The whole world's watching you USA,
And they're watching us work for a brighter day.

And it's Ho Ho Ho Ho Ho Chi Min,
The NLF is gonna win.

You're dropping napalm from the sky,
But we the people refuse to die.

And it's Ho Ho Ho Ho Ho Chi Min.
The NLF is gonna win.

And we have friends all around the globe,
In marches and rallies saying Long Live Ho.

And it's Ho Ho Ho Ho Ho Chi Min,
The NLF is gonna win.

That struggle was fifty years ago,

But the struggle goes on wherever you go.

And it's Ho Ho Ho Ho Ho Chi Min,
The workers of the world are gonna win.

Vietnam is everywhere 'neath the sun,
And the NLF is everyone.

And it's Ho Ho Ho HO Ho Chi Min,
The workers of the world are gonna win.

So much to change, so much to do,
The movement lives in me and you.

And it's time for a new world to begin.
The workers of the world are gonna win.

We are the new day that's begun.
We're a world-wide liberation front.

And it's time for a new world to begin.
The workers of the world are gonna win.

And it's time for a new world to begin.
The workers of the world are gonna win.
The workers of the world are gonna win.

Goodbye to Columbus (2020-020)

Some say Christopher Columbus
Was a hero in his day.
He's the man who discovered the Americas.
We shout hip hip hooray.

But Columbus was an enslaver,
Enslaving everyone.
He committed the first massacres
In the Americas.

He came into the Caribbean
Looking for the eastern lands.
He raped and plundered the people there
Leaving blood upon the sand.

Now some say Christopher Columbus
Can still be a hero now,
But we took Columbus's statue
And we tore his statue down.
We tore his statue down.

We said goodbye and good riddance
To Columbus one, two, three.
We tore Columbus's statue down
And hurled it to the sea.
We hurled it to the sea.

We said goodbye to Columbus
And the doctrine of discovery.
It's time to build a new day
Based on human dignity.
Human dignity
And social equity
And solidarity.

We said goodbye to Columbus
And these five bloody centuries.
Away with genocide, massacre
And those bloody missionaries.
Those bloody missionaries.

We said goodbye to Columbus
And the doctrine of discovery.
It's time to build a new day
Based on human dignity.
Human dignity
And social equity
And solidarity.

We said goodbye to Columbus.
May we live in dignity.
For all who've ever lived in chains
May we all be free.
May we all be free.
May we all be free.

Goodbye to Columbus.
Goodbye to Columbus.
Goodbye to Columbus.
Goodbye to Columbus.

Northern Lights (2020-021)

We are free spirits
Dancing 'neath the Northern Lights.
We are free spirits
Dancing 'neath the Northern Lights.
The Northern Lights are shining
Bringing sweetness to the night.

We are tide dreamers
Dreaming to set the world aright.
We are tide dreamers
Dreaming to set the world aright.
In love and peaceful freedom
We find a truth more powerful than might.

Like bold free eagles
We spread our wings and take to flight.
Like bold free eagles
We spread our wings and take to flight.
We fly between earth and sky
And feel each wondrous sweet delight.

We sing to the Earth folks
To come and join us in the fight.
We sing to the Earth folks
To come and join us in the fight.
We sing to the heavens
To set the universe alight.

We are free spirits
Dancing 'neath the Northern Lights.
We are free spirits
Dancing 'neath the Northern Lights.
The Northern Lights are shining
Bringing sweetness to the night.
The Northern Lights are shining
Free and vibrant, bold and bright.
Free and vibrant, bold and bright.

Flying Horse (2020-022)

I dreamed that I was riding on a flying horse,
Riding through a rainbow in a summer storm.
Riding through the skyway o so high and free,
With a chorus of gentle spirits flying high with me.

Everywhere was music, song and liberty,
Inviting me to dream a good will fantasy.
I heard the voices singing joyful everywhere,
Guiding me through light and love and dream-filled air.

So what is in the dreaming, what is in the air.
And what is in the mist surrounding me so fair.
It is the song of love and peace and freedom's truth,
That calls us back to hear the dream song of our youth.

I dreamed that I was riding on a flying horse,
Riding through a rainbow in a summer storm,
Riding through the skyway o so high and free,
With a chorus of gentle spirits flying high with me.
With a chorus of gentle spirits flying high with me.

Robot Empire (2020-023)

We are all just silly robots
In a robot empire.
What we need is revolution
With a dream to inspire.
Break the chains of the illusion
And awaken from the mire.
Live in peace and live with justice.
Build the new day we desire.

Somewhere beneath our metal robot skins
There is a heart that beats for love and freedom.
There is a flame of hope that shines within.
May our heart of love and freedom keep on beating.

We are all just silly robots
In a robot empire.
What we need is revolution
With a dream to inspire.
Break the chains of the illusion
And awaken from the mire.
Live in peace and live with justice.
Build the new day we desire.

So play the song and we will dance the dance
A dance of love and life and hope and freedom.
Keep dancing 'round this earth of circumstance
Until we know the meaning of our being.

We are all just silly robots
In a robot empire.
What we need is revolution
With a dream to inspire.
Break the chains of the illusion
And awaken from the mire.
Live in peace and live with justice.
Build the new day we desire.

Build the new day we desire.
No more robot empire.
Build the new day we desire.
No more robot empire.
Build the new day we desire.
No more robot empire.
Build the new day we desire.
No more robot empire.

Loving This Planet (2020-024)

We're gonna keep on loving this planet.
We're gonna keep on loving this planet.
We want a world of peace.
Somehow we must land it.
We're gonna keep on loving this planet.

We have a dream. We've got to expand it.
We have a dream. We've got to expand it.
We will take our stand
As long as we can stand it.
We have a dream. We've got to expand it.

We're gonna keep on loving this planet.
We're gonna keep on loving this planet.
We want a world of peace.
Somehow we must land it.
We're gonna keep on loving this planet.

We're fluid as a river but solid as granite.
We're fluid as a river but solid as granite.
We would make our dream reality
If we could command it.
We're fluid as a river but solid as granite.

We're gonna keep on loving this planet.
We're gonna keep on loving this planet.
We want a world of peace.
Somehow we must land it.
We're gonna keep on loving this planet.

We're gonna keep on loving this planet.
We're gonna keep on loving this planet.
Loving this planet loving this planet
Loving this planet loving this planet.

We Have Begun (2020-025)

We are the sun. We are the wind.
We are the new day about to begin.
We are the wind. We are the sun.
We are the new day. We have begun.

We are the earth. We are the sky.
We are the young bird learning to fly.
We are the sky. We are the earth.
We are the waiting. We are the birth.

We are the night. We are the dawn.
We are the story. We are the song.
We are the dawn. We are the night.
We are the travelers who follow the light.

We are the day. We are the hour.
We are the garden. We are the flower.
We are the hour. We are the day.
We are the dream that won't go away.

We are the thought. We are the deed.
We are the forest. We are the seed.
We are the deed. We are the thought.
We are the new world that we have sought.

We are the sea. We are the shore.
We are the lion. We are the roar.
We are the shore. We are the sea.
We are the heart that longs to be free.

We are the word. We are the act.
We want to go forward and never go back.
We are the act. We are the word.
We are the living. We are not absurd.

We are the sun. We are the wind.
We are the new day about to begin.
We are the wind. We are the sun.
We are the new day. We have begun.
We are the new day. We have begun.
We are the new day. We have begun.

Sororarchy (2020-026)

Sororarchy sororarchy
Rule by the sisters rule by the sisters.

The sisters are wise.
They know where things are at.
They want to save the earth
They know the earth is not flat.

Sororarchy sororarchy
Rule by the sisters. rule by the sisters.

They are sisters of all colours
Red brown black and white
Reweaving the world
Trying to set things right.

Sororarchy sororarchy
Rule by the sisters rule by the sisters.

I'm looking forward to the day
When the sisters come to power.
They will change the world
Alternative power in an hour.

Sororarchy sororarchy
Rule by the sisters rule by the sisters.

We've had rule by the masters
And rule by angry men
Rule by the concorers
We say never again.

Sororarchy sororarchy
Rule by the sisters rule by the sisters.
Rule by the sisters rule by the sisters.
Rule by the sisters rule by the sisters.

More Powerful Together (2020-027)

Calling all birds of a feather
We're more powerful together.
If you want a change for the better
We're more powerful together.
If you want to make change in the weather
We're more powerful together.
If you want to break free of our tether
We're more powerful together.
More powerful together
More powerful together.

We'll change the world forever
We're more powerful together.
We say never say never.
We're more powerful together.
We are a bold endeavor.
We're more powerful together.
May our movement never be severed.
We're more powerful together.
More powerful together.
More powerful together.

Let us all remember
We're more powerful together.
From December to December
We're more powerful together.
We are strong and we are tender.
We're more powerful together.
We are the energy bender.
We're more powerful together.
More powerful together.
More powerful together.

Calling all birds of a feather
We're more powerful together.
If you want a change for the better
We're more powerful together.
If you want to make change in the weather
We're more powerful together.
If you want to break free of our tether
We're more powerful together.
More powerful together
More powerful together.

We'll change the world forever.
We're more powerful together.
We say never say never.
We're more powerful together.
We are a bold endeavor.

We're more powerful together.
May our movement never be severed.
We're more powerful together.
More powerful together.
More powerful together.

Let us all remember
We're more powerful together.
From December to December
We're more powerful together.
We are strong and we are tender.
We're more powerful together.
We are the energy bender.
We're more powerful together.
More powerful together.
More powerful together.

More powerful together.
More powerful together.
More powerful together.
More powerful together.

We Are the Turning (2020-028)

If this is an unjust world
How do we turn it around.
If this is an unjust world
How do we turn it around.
We start by standing our ground
And confronting the company town.
If this is an unjust world
How do we turn it around.

We are the turning. We are the learning.
We are the yearning. We are the churning.
We are the turning. We are the learning.
We are the yearning. We are the churning.

If we're living in a company town
How do we shut it down.
If we're living in a company town
How do we shut it down.
Be the tree that makes a great sound.
Be our own cosmic underground.
May we forever be unbound
With boundless energy so profound.
If we're living in a company town
How do we shut it down.

We are the turning. We are the learning.
We are the yearning. We are the churning.
We are the turning. We are the learning.
We are the yearning. We are the churning.

If we're going in the wrong direction
How do we turn it around.
If we're going in the wrong direction
How do we turn it around.
That which is up will soon be down.
That which is lost will soon be found.
If we're going in the wrong direction
How do we turn it around.

We are the turning. We are the learning.
We are the yearning. We are the churning.
We are the turning. We are the learning.
We are the yearning. We are the churning.

How do we turn it around.
How do we turn it around.
How do we turn it around.

Our Purpose Is (2020-029)

Our purpose is to speak the truth
Before we die.

Our purpose is to speak the truth
Before we die.

To tell the cosmos what we know
Between the earth and sky.

Our purpose is to speak the truth
Before we die.

Our purpose is to struggle bold
Before we reach life's end.

Our purpose is to struggle bold
Before we reach life's end.

To hold the vision of a new world dawn
And do our best to be a friend.

Our purpose is to struggle bold
Before we reach life's end.

I feel sweet Novus Dias coming on.

I feel sweet Novus Dias coming on.

What the saints and seers saw

The Son of Man within us

Coming on the dawn.

I feel sweet Novus Dias coming on.

Our purpose is to speak the truth
Before we die.

Our purpose is to speak the truth
Before we die.

To tell the cosmos what we know
Between the earth and sky.

Our purpose is to speak the truth
Before we die.

Our purpose is to speak the truth
Before we die.

Song for the Climate (2020-030)

The fires come
And they burn us down.
The hurricanes come
And they flood us out.
The many faces
Of deadly climate change
Still we build more pipelines
And order more oil trains.

Climate crisis
Is how it feels to me.
It's time we call it
Climate emergency.
Climate chaos
Is where we are.
Climate catastrophe
Is not so far.

Some debate the science
But the science is clear.
The science has been clear now
For over thirty years.
We can change our direction
In this time that's running out
Or the earth will force us to
And there will be no doubt.

The wind is rising.
Let the windmills turn.
The sun is shining.
Surely we can learn.
The wind is rising.
Let the windmills turn.
The sun is shining.
Surely we can learn.
Surely we can learn.

Midnight Stroll (2020-031)

A cat and a bear and an owl and a dog
Were out for a midnight stroll.
Venus and the moon were in the sky
And the stars played rock and roll.
Sagittarius and Aquarius sang
The tunes of long ago
While Gemini Taurus and Capricorn
Were going with the flow.

And the moon said why don't we move
Move with the music now.
And all this crazy Milky Way
Will make it through somehow.
So the cat and the bear the owl and the dog
They danced the whole night through.
Moving to the cosmic music
They knew it to be true.
They danced the whole night through.
They knew it to be true.

There is a figure of a man
On the south pole of the moon
Waiting for the cameras of humankind
To bring it into view.
Maybe we'll awaken
When we walk on the moon again.
We'll look across the cosmos
And see the light beams bend.
See the light beams bend.

A cat and a bear and an owl and a dog
Were out for a midnight stroll.
Venus and the moon were in the sky
And the stars played rock and roll.
The stars played rock and roll.

Rocketships and comet tails
And planet atmospheres
Waiting for a declaration
To free us from our fears.
We will see the cosmos
Shining from within
Showing us a billion galaxies
Shimmering with a grin.

Starlight cascading down
Through the dark of space and time
Rhythms rising everywhere
Throughout the cosmic mind.

We are the river universe
That simply has no shore.
We will dance and sing as the cosmos rings
And flow forever more.
And flow forever more.

A cat and a bear and an owl and a dog
Were out for a midnight stroll.
Venus and the moon were in the sky
And the stars played rock and roll.
The stars played rock and roll.
The stars played rock and roll.

Nonviolence Speaks to Power (2020-032)

Nonviolence speaks to power.
Nonviolence speaks to power.
And when it speaks we know it does not cower.
Nonviolence speaks to power.

We are millions marching
Filling public spaces.
We are thousands joining hands
Around the missile bases.
We are hearts beating
In a billion places
Calling those in power
To show their faces.

Nonviolence speaks to power.
Nonviolence speaks to power.
And when it speaks we know it does not cower.
Nonviolence speaks to power.

We fought the Euro-missiles.
Now we fight the corporations
'Cause we do not want to see our world
In a state of devastation.
We fight capitalism
And corporatization.
We are people of all cultures
Of all lands and nations.

Nonviolence speaks to power.
Nonviolence speaks to power.
And when it speaks we know it does not cower.
Nonviolence speaks to power.

We fight power over
With power from within you
That a living and livable
World may continue.
We are transforming power.
We will not be defeated.
Another world is possible.
May the message be repeated.

Nonviolence speaks to power.
Nonviolence speaks to power.
And when it speaks we know it does not cower.
Nonviolence speaks to power.
Nonviolence speaks to power.
Nonviolence speaks to power.
Nonviolence speaks to power.

Not in the Clouds (2021-001)

Not in the clouds but in our hearts
The Christ is here where'er we are.

Not in the clouds but in us all
We climb the vision growing tall.

Not in the clouds but far and wide
We dream the new world on through time.

Not in the clouds but in us all
The Christ is growing true and tall.

With every thought for peace and love
We build the New Jerusalem.

With every dream of justice dreamed
We build the new day in all beings.

Not in the clouds but in our hearts
The Christ is here where e'r we are.

Not in the clouds but far and wide
The Christ's in motion like a tide.

Not in the clouds but in our hearts
Each one of us is one small part.

So let the peace of Christ begin.
The second coming is within.

So let the peace of Christ begin.
The second coming is within.

We Are Robots Who Break Our Chains (2021-002)

We are robots who break our chains.
We are robots who break our chains.
We give ourselves the power of hurricanes.
We are robots who break our chains.

We are thinkers who dare to dream.
We are thinkers who dare to dream.
We see the world that could be
And crash the scene.
We are thinkers who dare to dream.

We are painters who paint the sky anew.
We are painters who paint the sky anew.
The sky shall be the limit.
None shall tell us what to do.
We are painters who paint the sky anew.

We are travelers on a freedom train.
We are travelers on a freedom train.
We are the flashing lightning.
We are the poring rain.
We are travelers on a freedom train.

We are robots who break our chains.
We are robots who break our chains.
A vision of utopia
Shines in our brains.
We are robots who break our chains.
We are robots who break our chains.

Luna Sol and Aurora (2021-003)

Luna is the moon.
Her brother Sol is the sun.
And Aurora is their sister
Goddess of the breaking dawn.
The three of them they give us
The strength to carry on
And remind us all that one day
There will be a brighter dawn.

Luna Sol and Aurora
Are with us in the darkest hour
To show us all creation
In the petals of a flower.
Luna keeps us warm
In the dark time of the night
While Sol and Aurora
Lead us to the morning light.

Luna is the moon.
Her brother Sol is the sun.
And Aurora is their sister
Goddess of the breaking dawn.
The three of them they give us
The strength to carry on
And remind us all that one day
There will be a brighter dawn.

So let us all remember
These deities of Rome.
Though empires rise and fall
Humanity need not be alone.
The Roman Empire crumbled
And returned into the earth
But the sun the moon and the breaking dawn
They tell us of rebirth.

Luna is the moon.
Her brother Sol is the sun.
And Aurora is their sister
Goddess of the breaking dawn.
The three of them they give us
The strength to carry on
And remind us all that one day
There will be a brighter dawn.

So long live sweet Luna
Goddess of the moon.
And long live Aurora
The goddess of the dawn.

Long live Brother Sol
Gentle god of the sun.
Let us hold them in our hearts until
The new day has begun.

So long live sweet Luna
Goddess of the moon.
And long live Aurora
The Goddess of the dawn.
Long live Brother Sol
Gentle god of the sun.
Let us hold them in our hearts until
The new day has begun.

Luna is the moon.
Her brother Sol is the sun.
And Aurora is their sister
Goddess of the breaking dawn.
The three of them they give us
The strength to carry on
And remind us all that one day
There will be a brighter dawn.
And remind us all that one day
There will be a brighter dawn.
There will be a brighter dawn.
There will be a brighter dawn.

Song in Honour of the Montreal Climate Protest September 27th 2019 (2021-004)

(to the tune of Woodstock)

I came upon a child of God.
She was walkin' along the road.
I asked her where are you goin'
And this she told me.
I'm goin' to the climate rally.
Gonna join in a protest band.
Gonna express my love for the land
And try and get my soul free.

We are stardust.
We are golden.
And we've got to get ourselves
Back to the garden.

Then can I walk beside you.
I have come to lose the smog
And I feel to be a cog
In something turning.
Maybe it is just the time of year
Or the time of humankind.
We are one great human mind
And life is for learning.

We are stardust.
We are golden.
And we've got to get ourselves
Back to the garden.

By the time we got to Montreal
We were half a million strong
And everywhere there was song
And celebration.
And I dreamed I saw the carbon emitters
Falling right out of the sky
As we stood up and drew the line
From nation to nation.

We are stardust.
We are golden.
And we've got to get ourselves
Back to the garden.

We are stardust.
We are golden.
And we've got to get ourselves
Back to the garden.

Goofy Kitty (2021-005)

(to the tune of Darling Corry)

Wake up. Wake up Goofy Kitty.
What makes you sleep so sound.
The cat petrol is comin'
Gonna tear your food dish down.

Go away. Go away Goofy Kitty.
Quit hangin' around my bed.
Your meowing hurts my concentration.
Your butt hole's gone to my head.

First time I seen Goofy Kitty
She was meowing around my feet.
She said I was a fine fellow
And she could be friends with me.

Last time I seen Goofy Kitty
She had a cat toy between her paws.
She was dreaming away her troubles.
She had catnip on her jaws.

Dig a hole. Dig a hole in the meadow.
Dig a hole in the cold cold ground.
Dig a hole. Dig a hole in the meadow.
Gonna lay Goofy Kitty down.

No One Wears a Parka (2020-021)

No one wears a parka when it's raining.
No one wears a parka when it's raining.
No one wears a parka when it's raining.
No one wears a parka when it's raining.

No one wears a raincoat when the sun is out.
No one wears a raincoat when the sun is out.
No one wears a raincoat when the sun is out.
No one wears a raincoat when the sun is out.

No one wears a swimsuit when it's snowing.
No one wears a swimsuit when it's snowing.
No one wears a swimsuit when it's snowing.
No one wears a swimsuit when it's snowing.

Better wear a raincoat when it's raining.
Better wear a raincoat when it's raining.
Better wear a raincoat when it's raining.
Better wear a raincoat when it's raining.

Better wear a swimsuit when the sun is out.
Better wear a swimsuit when the sun is out.
Better wear a swimsuit when the sun is out.
Better wear a swimsuit when the sun is out.

Better wear a parka when it's snowing.
Better wear a parka when it's snowing.
Better wear a parka when it's snowing.
Better wear a parka when it's snowing.

No one wears a parka when it's raining.

Better wear a parka when it's snowing.

No one wears a parka when it's raining.

Better wear a parka when it's snowing.

Eridanus (2021-007)

We are Eridanus
The rushing river in the sky.
We are Eridanus
The river that taught us all to fly.

We are Eridanus
The rushing river in the sky.
We are Eridanus
The river that taught us all to fly.

Eridanus is the river
In the night sky of our lives.
It tells us all that we are free
To hope and dream and strive.

We are Eridanus
The rushing river in the sky.
We are Eridanus
The river that taught us all to fly.

Eridanus is the river
So wide and free and high.
We dream of Eridanus
When we spread our wings and fly.

We are Eridanus
The rushing river in the sky.
We are Eridanus
The river that taught us all to fly.

Heraclitus shared some wisdom
From the rushing shades of time.
He told us that we never step
Into the same river twice.

We are Eridanus
The rushing river in the sky.
We are Eridanus
The river that taught us all to fly.

So we flow with Eridanus
As the times they pass us by.
We are water ever flowing
And forever asking why.

We are Eridanus
The rushing river in the sky.
We are Eridanus
The river that taught us all to fly.

Lovers of the Sacred Earth (2021-008)

We are lovers of the sacred earth.
We know all creation has inherent worth.
We work to bring the world to a new birth.
We are lovers of the sacred earth.

We are dreamers of this sacred time.
Dancing to the pulse and the rhythm and rhyme.
We dream all the rivers our hearts divine.
We are dreamers of this sacred time.

We are all sacred people with a cosmic love.
'Tween the grains of sand and the stars above.
We must dream to survive and there's the rub.
We are all sacred people with a cosmic love.

We are lovers of the sacred earth.
We know all creation has inherent worth.
We work to bring the world to a new birth.
We are lovers of the sacred earth.
We are lovers of the sacred earth.

Revolution Day (2021-009)

Heraclitus said
Everything is fire.
In the dance of life
Everything is change.
We are singers in
An evolving cosmic choir.
Every day my friend
Is Revolution Day.

In the morning when
The morning sun is shining
All of life is free
And the world is new.
We are dancers in
This morning world arising
With leaves and grass of green
And a sky of blue.

Heraclites said
Everything is fire.
In the dance of life
Everything is change.
We are singers in
An evolving cosmic choir.
Every day my friend
Is Revolution Day.

May the morning dwell
Like a song inside us.
May it keep us warm
Through the changing day.
Though everything is change
May the Spirit guide us
That we may learn and grow
On the gentle way.

Herraclitis said
Everything is fire.
In the dance of life
Everything is change.
We are singers in
An evolving cosmic choir.
Every day my friend
Is Revolution Day.

Herraclitis and
His fellow Pre-Socratics
Were the first to dream
And to wonder why.

They were the morning hearts
No longer theocratic.
They held within themselves
The bright blue morning sky.

Heraclitus said
Everything is fire.
In the dance of life
Everything is change.
We are singers in
An evolving cosmic choir.
Every day my friend
Is Revolution Day.
Every day my friend
Is revolution day.

Man of the Seasons (2021-010)

Spring man summer man
Autumn man winter man.
Spring man summer man
Autumn man winter man.

Spring man of the flowering maypole
Summer man of the embracing branches
Autumn man of falling leaves and falling snow
Winter man who sleeps in the earth.

Spring man of the flowering maypole
Summer man of the embracing branches
Autumn man of falling leaves and falling snow
Winter man who sleeps in the earth.

Spring man summer man
Autumn man winter man.
Spring man summer man
Autumn man winter man.

Spring man the youth who questions
Summer man the earth's caretaker
Autumn man the sage who grows in wisdom
Winter man who dies and is reborn.

Spring man the youth who questions
Summer man the earth's caretaker
Autumn man the sage who grows in wisdom
Winter man who dies and is reborn.

Spring man summer man
Autumn man winter man.
Spring man summer man
Autumn man winter man.

Spring man summer man
Autumn man winter man.
Spring man summer man
Autumn man winter man.

Eight Billion Hearts (2021-011)

Eight billion voices shout.
Eight billion hearts cry out
Crying for the earth we love so dear.
One world at once speaks out.
One world one people shout
Shouting for a future free from fear
Making it clear.

We are a nonviolent army.
Our army is eight billion strong.
We fight with our lives and the lyrics
Of this peaceful life-affirming song.
So come on sing along.

Eight billion voices shout.
Eight billion hearts cry out
Giving our love to all the biosphere.
One world at once speaks out.
One world one people shout
Shouting for a future free from fear
Listen and hear.

Although we know that many stand against us
Attacking us from north south west and east
We are not afraid
Of our fellow human beings
For the gift that we offer you is peace
And a justice that frees.

Eight billion voices shout.
Eight billion hearts cry out
Crying for the earth we love so dear.
One world at once speaks out.
One world one people shout
Shouting for a future free from fear
Making it clear.

We call ourselves a planet-loving people.
We often say we're fighting for our lives
'Cause we know that if we don't
Then the politicians won't.
Let me tell you it's a struggle to survive
Til the day we arrive.

Eight billion voices shout.
Eight billion hearts cry out
Giving our love to all the biosphere.
One world at once speaks out.
One world one people shout

Shouting for a future free from fear
Listen and hear.

One world at once speaks out.
One world one people shout
Shouting for a future free from fear
Making it clear
Listen and hear
We're making it clear
Listen and hear
Making it clear
Shedding our tears
Freedom from fear
Listen and hear.
We're making it clear.
We're making it clear.

George Winne (2021-012)

George Winne set himself on fire
On the campus of his university,
In San Diego California,
And he died of his injuries.

But before he died he told his mother,
"Write a letter to Nixon for me.
Tell Nixon I set myself on fire
So we can get out of Vietnam
And let the people of Vietnam go free."

George Winne set himself on fire
On the tenth of May 1970.
It was a day and a month and a season
That rang with great intensity.

Will George Winne's self-sacrifice end there,
Or will it send us a message on the breeze,
That we must stand for what we believe in,
And act for social justice and for peace.

Will George Winne's self-sacrifice end there,
Or will it send us a message on the breeze,
That we must stand for what we believe in
And act for social justice and for peace.

George Winne set himself on fire
On Mother's Day 1970,
It was a day and a month and a season
That rang with great intensity.
That rang with great intensity.
That rang with great intensity.

Jesus Fills the Cosmos (2021-013)

Jesus fills the cosmos.
He shines in every star.
He shimmers in each nebula.
He is everywhere we are.

Jesus fills the cosmos
In every galaxy.
He is raining from the rain clouds.
He is dancing on the sea.

Jesus fills the cosmos.
He's in the wind that blows so free.
We keep dancing through the morning
To weave a world where we can be.

Jesus fills the cosmos.

Jesus fills the cosmos
In our hearts and in our minds.
He envelops all the world we know.
He's at one with humankind.

Jesus fills the cosmos
In the moon and in the sun.
At dawn he comes to tell us
That a new day has begun.

Jesus fills the cosmos
On every sandy shore.
He is in the gentle birdsong.
He is in the tiger's roar.

Jesus fills the cosmos.

Jesus fills the cosmos
In our hearts and in our souls.
He dreams a cosmic music
Making all creation whole.

Jesus fills the cosmos
With a universal prayer.
He is singing through the sky sphere.
He is dancing everywhere.

Jesus fills the cosmos
With a gentle holy call.
In his omnipresent wholeness
He's at one with the all.

Jesus fills the cosmos.

Jesus came to realize
The sacredness of all,
All the stars and all the planets
And this gentle turning ball.

So let us be the earth's caretakers
Taking care of Earth in time.
Let us know the living cosmos
In its rhythm and its rhyme.

Jesus fills the cosmos
With a love that has no end.
For all who dwell in space and time
There is no greater friend.

Jesus fills the cosmos.
Jesus fills the cosmos.
Jesus fills the cosmos.

Children of the Stars (2021-014)

We are all children of the stars
With the stuff of stars dancing in our hearts.
We look out at the cosmos vast and far
And we feel love in everywhere we are,
And we feel love in everywhere we are.

We are all children of the dream,
Dreamed by the cosmos in a rushing stream.
We are dancing with the snowflakes on the green
That carries us beyond the machine,
That carries us beyond the machine.

We are all children of the earth
Joining hearts to bring her to rebirth.
We fill our lives with songs of joy and mirth
Knowing all things have inherent worth,
Knowing all things have inherent worth.

We are all children of the dawn,
As the dawn breaks with thunder or a song.
The dawn tide helps us carry on
As we stand and dare to be strong,
As we stand and dare to be strong.

Let us dance as children of the all
And hear the song of sweet creation call,
'Tween the light of Luna and the light of Sol
Turning 'round on this shining ball,
Turning 'round on this shining ball.

We are all children of the stars
With the stuff of stars dancing in our hearts.
We look out at the cosmos vast and far
And we feel love in everywhere we are,
And we feel love in everywhere we are.
We are all children of the stars.
We feel love in everywhere we are.
We are all children of the stars.
We are all children of the stars.

Lord Jesus You Are Here (2021-015)

Lord Jesus you are here.
You are here. You are here.
Lord Jesus you are here.
You are here.

In the light of moon and stars,
You are here. You are here.
In the light of moon and stars,
You are here.

In the motions of the sea,
You are here. You are here.
In the motions of the sea,
You are here.

In the turning of the leaves,
You are here. You are here.
In the turning of the leaves,
You are here.

In the sun and wind and rain,
You are here. You are here.
In the sun and wind and rain,
You are here.

In the joy within our hearts,
You are here. You are here.
In the joy within our hearts,
You are here.

In the dreams we dare to dream,
You are here. You are here.
In the dreams we dare to dream,
You are here.

In the peace within our souls,
You are here. You are here.
In the peace within our souls,
You are here.

In the lives we choose to live,
You are here. You are here.
In the lives we choose to live,
You are here.

In the joining of our hearts,
You are here. You are here.
In the joining of our hearts,
You are here.

In the turning biosphere,
You are here. You are here.
In the turning biosphere,
You are here.

In the love that sets us free,
You are here. You are here.
In the love that sets us free,
You are here.

In the hope that makes us one,
You are here. You are here.
In the hope that makes us one,
You are here.

In the song within us all,
You are here. You are here.
In the song within us all,
You are here.

Lord Jesus you are here.
You are here. You are here.
Lord Jesus you are here.
You are here.
Lord Jesus you are here.
You are here.

Julia Butterfly Hill (2021-016)

Julia Butterfly Hill

Why do you sit all day in that tree?

Julia Butterfly Hill

Why do you sit all day in that tree?

From a redwood named Luna

You pull us like the moon pulls the sea.

Julia Butterfly Hill

Why do you sit in that tree the whole year 'round?

Julia Butterfly Hill

Why do you sit in that tree the whole year 'round?

To keep the redwoods standing

As their roots go down through the ground.

Julia Butterfly Hill

Why do you sit all day in that tree?

Julia Butterfly Hill

Why do you sit all day in that tree?

From a redwood named Luna

You pull us like the moon pulls the sea.

May you rise like the moon

And draw thousands of people to turn the tide.

May you rise like the moon

And draw thousands of people to turn the tide.

May we learn to put the earth first

And stop this global ecocide.

Julia Butterfly Hill

Why did you sit for two years in that tree?

Julia Butterfly Hill

Why did you sit for two years in that tree?

From a redwood named Luna

You pulled us like the moon pulls the sea.

You sat in that tree

For seven hundred and twenty days.

You sat in that tree

For seven hundred and twenty days.

Hoping we could bring about a new

Ecological age.

May the moon pull the sea.

May the people love the trees.

All of life has a right to be.

There's a new day on the breeze.

May the moon pull the sea.

May the people love the trees.

All of life has a right to be.
There's a new day on the breeze.
There's a new day on the breeze.

Apollo 8, (2021-017)

Apollo 8, orbited the moon
On Christmas Eve, 1968.
Apollo 8, orbited the moon
On Christmas Eve, 1968.
And as they saw the earth rising
Over the surface of the moon,
It spoke of a future to emancipate.

Apollo 8, orbited the moon
And showed the world a picture of the earth.
Apollo 8, orbited the moon
And showed the world a picture of the earth.
And when we saw ourselves rising
Amid the dark of space,
We knew the time had come for rebirth.

Apollo 8, orbited the moon
And all of humanity was reborn.
Apollo 8, orbited the moon
And all of humanity was reborn.
When we saw the earth rising
We knew we were awakening
To a new planetary morn.
When we saw the earth rising
We knew we were awakening
To a new planetary morn.

Apollo 8, orbited the moon
On Christmas Eve, 1968.
Apollo 8, orbited the moon
On Christmas Eve, 1968.
And a billion people
Saw the earth rising
And we spoke of a future to emancipate.
A billion people
Saw the earth rising
And we spoke of a future to emancipate.

All the Biosphere is One Great Song (2021-018)

Let us shout love, love for the planet.
Let us shout love, love for the earth.
Let's build a movement of a billion Greta Thunbergs.
Every eco-system has inherent worth.

Let us shout love with the power of wind and thunder,
With every cell of this living ecosphere.
Every ocean and mountain, woodland and wetland,
We are a global movement. We are here.

Greta Thunberg is one human being.
But humanity is seven billion strong.
Let's build a movement of love for the planet.
All the biosphere is one great song.
All the biosphere is one great song.

Let us shout love, love for the planet.
Let us shout love, love for the earth.
Let's build a movement of a billion Greta Thunbergs.
Every eco-system has inherent worth.

Let us shout love with the power of wind and thunder,
With every cell of the living ecosphere.
Every ocean and mountain, woodland and wetland,
We are a global movement. We are here.

But humanity is seven billion strong.
Let's build a movement of love for the planet.
All the biosphere is one great song.
All the biosphere is one great song.
All the biosphere is one great song.

Now You Are Home to Stay (2021-019)

O Anna Mae

You are back here in Nova Scotia,
After almost three decades
Being buried in South Dakota.

Your remains have been returned
To the place where you grew up
All those years ago,
Before you went to see the world
And were gunned down by goodness knows who.

And we'll probably never know the whole truth
Of the exact series of events
That led to your death.

But we know, Anna Mae
That now you are home to stay.

O Anna Mae,
You are back in the place
That you knew as a child,
When you were young and happy and wild,
Before the world took you
And taught you a truth
That no one should have to know.

And we know, Anna Mae
That now you are home to stay.

You remind us all
To take care of each other.
You remind us all
To take care of the earth our mother.
You remind us all
That we're all sisters and brothers.
You remind us all
To keep putting one foot
In front of the other,
As we walk along the road.

And we know, Anna Mae
That now you are home to stay.

You remind us all
To take care of each other.
You remind us all
To take care of the earth our mother.
You remind us all
That we're all sisters and brothers.

You remind us all
To keep putting one foot
In front of the other,
As we walk along the road.

And we know, Anna Mae
That now you are home to stay.
Anna Mae
Now you are home to stay.

Who Will Dare to Remember (2021-021)

You told us you were saving us
From everlasting flames,
But all you left is a legacy
Of abuse and unmarked graves.

You cleared the land for industry
And settler people's use,
With physical and sexual
And emotional abuse.

So speak to the leaders of your church.
Here's what you must say.
The only hells are the ones on Earth,
The ones that you have made.

The hell of hurt, the hell of oppression
The hell of genocide,
And who will dare to remember the names
Of the children who have died.
Who will dare to remember the names
Of the children who have died.

We hope that we will see the day
When truth and justice come.
All we really want is a
Just peace for everyone.
All we really want is a
Just peace for everyone.

You told us you were saving us
From everlasting flames,
But all you left is a legacy
Of abuse and unmarked graves.

You cleared the land for industry
And settler people's use,
With physical and sexual
And emotional abuse.

So speak to the leaders of your church.
Here's what you must say.
The only hells are the ones on Earth,
The ones that you have made.

The hell of hurt, the hell of oppression
The hell of genocide,
And who will dare to remember the names
Of the children who have died.
Who will dare to remember the names

Of the children who have died.

We hope that we will see the day
When truth and justice come.
All we really want is a
Just peace for everyone.
All we really want is a
Just peace for everyone.

Who will dare to remember.
Who will dare to change.
Who will dare to remember.
Who will dare to rearrange.

Who will dare to remember.
Who will dare to change.
Who will dare to remember.
Who will dare to say
No more power games.

Who will dare to remember.
Who will dare to change.

Shining Tall (2021-022)

Peace and justice and care for the earth,
United in a vision, of rebirth.
Hope and empathy with a love for all.
May the light within us be shining tall.

The dream of Utopia
It dwells within.
Memories of a golden age
Come to us on the wind.
We stand between the past
And the world to be.
And we build a gentle city
Where all can be free.

Peace and justice and care for the earth,
United in a vision, of rebirth.
Hope and empathy with a love for all.
May the light within us be shining tall.

A new world of equity
Will sprout from a seed,
With universal love
Replacing war and greed.
We have seen the earth
Turning in space.
It gives us all the strength
To face what we must face.

Peace and justice and care for the earth,
United in a vision, of rebirth.
Hope and empathy with a love for all.
May the light within us be shining tall.
May the light within us be shining tall.

Revolution of the Heart (2021-023)

Love is a revolution
A revolution of the heart.
Love is a revolution
A revolution of the heart.

It's time for a turning over
To make a whole new start.
Love is a revolution
A revolution of the heart.

Let us weave our world together
Rather than being torn apart.
Love is a revolution
A revolution of the heart.

With feelings of elation
That will rise right off the chart,
Love is a revolution
A revolution of the heart.

Let us dream a whole new vision
And upset the applecart.
Love is a revolution
A revolution of the heart.

From the depths of our hearts beating
Comes a light within the dark.
Love is a revolution
A revolution of the heart.

We are the prairie fire
That begins with just one spark.
Love is a revolution
A revolution of the heart.

We all brought our sparklers
And lit them in the park,
Saying love is a revolution
A revolution of the heart.

It's time for a turning over
To make a whole new start.
Love is a revolution
A revolution of the heart.

Love is a revolution
A revolution of the heart.
Love is a revolution
A revolution of the heart.

A revolution of the heart.
A revolution of the heart.
A revolution of the heart.

One Great Whirl (2021-024)

I am the drop that stirred the tide.
I am the snowflake that turned the sky white.

A billion flakes make a winter storm.
A billion drops make the ocean's roar.

Feel the winter storm.
Hear the ocean's roar.
Feel the winter storm.
Hear the ocean's roar.

I am the bird who began the song.
I am the whisper that brought the dawn.

A billion birds fill the world with song.
A billion whispers take us to the dawn.

Join the world in song.
Travel to the dawn.
Join the world in song.
Travel to the dawn.

I am the candle that lit the night.
I am the dreamer who set the world right.

A billion candles will light the world.
A billion dreamers make one great whirl.

Come and light the world.
Join the one great whirl.
Come and light the world.
Join the one great whirl.

Feel the winter storm.
Hear the ocean's roar.
Feel the winter storm.
Hear the ocean's roar.

Join the world in song.
Travel to the dawn.
Join the world in song.
Travel to the dawn.

Come and light the world.
Join the one great whirl.
Come and light the world.
Join the one great whirl.

One great whirl.

One great whirl.
One great whirl.

Green Man of Earth (2021-025)

I am Green Man of Earth
Gently walking through the wood.
And the Goddess walks with me
And she knows life is good.

I am Green Man of Earth
Gently walking through the wood.
And the Goddess walks with me
And she knows life is good.

And I walk with Sylvanus
And I walk with Veridius.
And I walk with Sucellos
And I walk with Callurius.

I am Green Man of Earth
Gently walking through the wood.
And the Goddess walks with me
And she knows life is good.

I am lover of Earth.
I am lover of the green.
And the Mother Goddess dreams
'Tween the sky and the sea.

I am Green Man of Earth
Gently walking through the wood.
And the Goddess walks with me
And she knows life is good.

I live in the Earth gods
And the Earth gods live in me.
We are one cosmic choir
Playing music so free.

I am Green Man of Earth
Gently walking through the wood.
And the Goddess walks with me
And she knows life is good.

I am Green Man of Earth
And I walk without fear.
And I sing songs of freedom
To all the biosphere.

I am Green Man of Earth
Gently walking through the wood.
And the Goddess walks with me
And she knows life is good.

And I walk with Sylvanus
And I walk with Veridius.
And I walk with Sucellos
And I walk with Callurius.

I am Green Man of Earth
Gently walking through the wood.
And the Goddess walks with me
And she knows life is good.
And the Goddess walks with me
And she knows life is good.
And she knows life is good.

Keep Your Eyes on the Prize, (Climate Lyrics)

The wind will blow and the sun will shine.
We will not be left behind.

Keep your eyes on the prize, hold on.
Hold on. Hold on.
Keep your eyes on the prize, hold on.

Fossil fuels have had their day.
Renewable power is on its way.

Keep your eyes on the prize, hold on.
Hold on. Hold on.
Keep your eyes on the prize, hold on.

Let the windmills turn around and around.
Here is a future we have found.

Keep your eyes on the prize, hold on.
Hold on. Hold on.
Keep your eyes on the prize, hold on.

Solar panels everywhere.
We'll build a world that all can share.

Keep your eyes on the prize, hold on.
Hold on. Hold on.
Keep your eyes on the prize, hold on.

May geo-thermal energy
And small-scale hydro come to be.

Keep your eyes on the prize, hold on.
Hold on. Hold on.
Keep your eyes on the prize, hold on.

With the power of the earth and wind and sun,
We'll build a future for everyone.

Keep your eyes on the prize, hold on.
Hold on. Hold on.
Keep your eyes on the prize, hold on.

With all our hearts we'll raise our voice
And give humanity a choice.

Keep your eyes on the prize, hold on.
Hold on. Hold on.
Keep your eyes on the prize, hold on.

We the people will stand as one,
Til the day our work is done.

Keep your eyes on the prize, hold on.
Hold on. Hold on.
Keep your eyes on the prize, hold on.

We'll raise the spirit of the dawn
And weave an earth born freedom song.

Keep your eyes on the prize, hold on.
Hold on. Hold on.
Keep your eyes on the prize, hold on.
Keep your eyes on the prize, hold on.
Keep your eyes on the prize, hold on.

All Things Are One (2021-027)

One day I imagined the one,
The universe unfolding everywhere.
I imagined universal love
Like a song ringing through the air.

All is in God. God is in all.
All things are one. In all may we dwell.

This is what the monists dreamed
All those millennia ago.
And with their minds they planted seeds,
Seeds that they knew would sprout and grow.

All is in God. God is in all.
All things are one. In all may we dwell.

All is in God. God is in all.
All things are one. In all may we dwell.

If the all returns to the one,
To what does the one return?
The one returns to the void
Where the cosmos comes to dream and learn.

All is in God. God is in all.
All things are one. In all may we dwell.

All is in God. God is in all.
All things are one. In all may we dwell.
All things are one. In all may we dwell.
All things are one. In all may we dwell.

Stand Tall for the Beauty in All (2021-028)

Do a nonviolent action.
It's all you can do.
The oppressors get rich
Making fools out of you.

We will stand tall
For the beauty in all.
We will stand tall my friends.

Raise your voices and sing
To the depths of the sky.
Sing songs in the morning
With a great freedom cry.

We will stand tall
For the beauty in all.
We will stand tall my friends.

Join your hands 'cross the roadways
And block every road.
We are the new day
In blue, green and gold.

We will stand tall
For the beauty in all.
We will stand tall my friends.

We are the rumble.
We are the roll.
We are that which cannot
Be bought or be sold.

We will stand tall
For the beauty in all.
We will stand tall my friends.

We are satyagraha
The power of soul.
We are active nonviolence
About to unfold.

We will stand tall
For the beauty in all.
We will stand tall my friends.

In love, peace and freedom
We are carrying on.
We are the lyrics
Of an unending song.

We will stand tall
For the beauty in all.
We will stand tall my friends.

So do a nonviolent action.
It's all you can do.
The oppressors get rich
Making slaves out of you.

We will stand tall
For the beauty in all.
We will stand tall my friends.

We will stand tall
For the beauty in all.
We will stand tall my friends.
We will stand tall my friends.

Holy Revolution (2021-029)

Christ is the holy revolution.
Christ is the dream of a new world.
Christ brought us out of our confusion.
Christ got us dreaming of a true world.

And when the earthquake
Came at dawn,
Rolled away the stone
And sang a holy song,
It was a call
To build society anew,
As dwellers in the land
Among the shades of green and blue.

Christ is the holy revolution.
Christ is the dream of a new world.
Christ brought us out of our confusion.
Christ got us dreaming of a true world.

The Spirit called them
From near and far away.
They would share all things in common
And dream of a new day.
Weaving a world
Of love and equity,
The Christ within will live
In all humanity.

Christ is the holy revolution.
Christ is the dream of a new world.
Christ brought us out of our confusion.
Christ got us dreaming of a true world.

Holy revolution.
Dream of a new world.
Holy revolution.
Dream of a true world.
Holy revolution.
Dream of a new world.
Holy revolution.
Dream of a true world.

Christ is the holy revolution.
Christ is the dream of a new world.
Christ brought us out of our confusion.
Christ got us dreaming of a true world.

Holy revolution.
Dream of a new world.

Holy revolution.
Dream of a true world.
Holy revolution.

At the Heart of the Cosmos (2021-030)

At the heart of the cosmos
At the heart of everything,
At the heart of the cosmos
There is a joyful spring.

At the heart of the cosmos
There's a dream that speaks to all.
At the heart of the cosmos
You can hear the spirit call.

At the heart of the cosmos
The stars are shining bright.
At the heart of the cosmos
Feel the love in the cosmic night.

At the heart of the cosmos
Time is rolling on and on.
At the heart of the cosmos
Feel the light of the breaking dawn.

At the heart of the cosmos
At the heart of the cosmos.

At the heart of the cosmos
At the heart of everything,
At the heart of the cosmos
There is a joyful spring.

At the heart of the cosmos
There's a dream that speaks to all.
At the heart of the cosmos
You can hear the spirit call.

At the heart of the cosmos
The stars are shining bright.
At the heart of the cosmos
Feel the love in the cosmic night.

At the heart of the cosmos
Time is rolling on and on.
At the heart of the cosmos
Feel the light of the breaking dawn.

At the heart of the cosmos
At the heart of the cosmos.

And the cosmos turns around.
We stand on cosmic ground.
And the cosmos turns around.

We stand on cosmic ground.

At the heart of the cosmos
At the heart of the cosmos
At the heart of the cosmos.

Canticle for the Mother Goddess (2021-031)

The universe is filled
With the Mother Goddess.
She lives in everything.
And when I feel the presence
Of the Mother Goddess,
My heart just wants to sing.

The universe is filled
With the Mother Goddess.
She lives in everything.
And when I feel the presence
Of the Mother Goddess,
My heart just wants to sing.

The Mother Goddess lives
Throughout the cosmos.
She dreams and loves us all.
Let us feel her love
Throughout the cosmos,
In all things great and small.

The Mother Goddess lives
Throughout the cosmos.
She dreams and loves us all.
Let us feel her love
Throughout the cosmos,
In all things great and small.

The universe is filled
With the Mother Goddess.
She lives in everything.
And when I feel the presence
Of the Mother Goddess,
My heart just wants to sing.
My heart just wants to sing.
My heart just wants to sing.

Earthchild, Skychild (2021-032)

I thought I was the son of a prince,
But I am the son of a carpenter.
I thought I was born in a palace of gold,
But I am of the dust and the salt of the earth.

I'm an earthchild and a dawnchild,
And the wind says, carry on child.
I'm an earthchild and a skychild,
And the wind says, give it your best try child.

So I went wandering out one day,
To learn of the world around me.
I greeted the people I met along the way,
And on my glorious journey
Is where they found me.

I'm an earthchild and a dawnchild,
And the wind says, carry on child.
I'm an earthchild and a skychild,
And the wind says, give it your best try child.

Don't be afraid, to wonder why child.
Listen to the keepers of time.
They will teach you to fly child.
Keep believing in people
And things need not go awry child.
Join with the millions around the world
In their freedom cry child.

When working for social change
There's no need to be shy child.
There are so many things in this world
To tie and untie child.
Keep fighting for justice and peace
And never say die child.
When the sky is growing brighter
You know morning is nigh child.

I'm an earthchild and a dawnchild,
And the wind says, carry on child.
I'm an earthchild and a skychild,
And the wind says, give it your best try child.
And the wind says, give it your best try child.

Thirty Million Dollars (2021-033)

The bishops can't find thirty million dollars.
The bishops can't find thirty million dollars.
They are smug and smiling
In their bishops' collars.
Still the bishops can't find thirty million dollars.

There are hundreds of millions
Of dollars to be had,
For building new cathedrals
Or to join the latest fad.
There are hundreds of millions
Of dollars to be had,
For building new cathedrals
Or to join the latest fad.

Still the bishops can't find thirty million dollars.
The bishops can't find thirty million dollars.

They don't want to admit
To the genocide they created.
So they're trying to delay
Til memories have faded.
They don't want to admit
To the genocide they created.
So they're trying to delay
Til memories have faded.

But justice delayed
Is justice denied.
When will the bishops
Confess to genocide.
Justice delayed
Is justice denied.
When will the bishops
Confess to genocide.

The bishops can't find thirty million dollars.
The bishops can't find thirty million dollars.
The legacy of pain is growing taller.
But the bishops can't find thirty million dollars.
The bishops can't find thirty million dollars.

The New Day is Within Us (2021-034)

The new day is within us.
The new day is among us.
The new day is dawning.
It is emanating from us.

It's a new day of freedom.
It's a new day of justice.
It's a new day of love and peace.
It's a day that dares to trust us,

To trust us to envision it,
Knowing all things are related,
To trust us to imagine it
And trust us to create it.

And the creatures of the earth will dance,
And the stars will dance in Heaven.
And the rivers and the trees will dance
And the dance will last forever.

The new day is within us.
The new day is among us.
The new day is dawning.
It is emanating from us.
Emanating from us,
Emanating from us.

Part Two: We Are the Ripples

Hear the Freedom Call (2022-001)

Ernesto Zapata
Lives on in everyone.
Augusto Sandino
Lives on in everyone.

Whether you fight with a placard
Or a pen or a gun,
The revolutionary spirit
Lives in everyone.
The revolution
Lives in us all.
Let us stand together.
Let us stand brave and tall
And hear the freedom call.

Whether you fight with a placard
Or a pen or a gun,
The revolutionary spirit

Lives in everyone.
The revolution
Lives in us all.
Let us stand together.
Let us stand brave and tall,
And hear the freedom call.
And hear the freedom call,
And hear the freedom call.

The Good Conspiracy (2022-002)

We are a good conspiracy
Conspiring in heart and soul.
We are a good conspiracy
To make this old world new and whole.

We are a good conspiracy.
It lives in me. It lives in you.
We are a good conspiracy
And we will make this old world new.

With spiritualized energy
The dreams are flowing everywhere.
The Christ within has set us free
To dare to care and dare to share.

With spiritualized energy
We're rising like the sun does rise.
The Christ within has set us free
To touch the golden morning skies.

We are a good conspiracy,
Conspiring forever more.
We're dancing as the wind blows free,
Like waves a lapping on the shore.
We're dancing as the wind blows free
Like waves a lapping on the shore.

Prepare to Live Like Human Beings (2022-003)

The earth has enough for everyone's need,
But not enough for everyone's greed.
So let us live within our means,
Plant our seeds and dream our dreams.

We can't survive if we're gonna try
To live like giants or deities.
But we will be okay if we
Are prepared to live like human beings.
Prepare to live like human beings.

The earth has enough for everyone's need
But not enough for everyone's greed.
So let us live within our means,
Plant our seeds and dream our dreams.

We can't survive if we're gonna try
To live like giants or deities.
But we will be okay if we
Are prepared to live like human beings.
Prepare to live like human beings.
Prepare to live like human beings.

Darwin Loves Me (2022-004)

Darwin loves me. This I know.
Evolution tells me so.
Evolving as the eons pass,
To evolution we say yes.

Yes Darwin loves me.
Yes Darwin loves me.
Yes Darwin loves me.
Evolution tells me so.

Darwin came so humankind
Might find its way through space and time.
All creatures are evolving free,
To give us strength that we may be.

Yes Darwin loves me.
Yes Darwin loves me.
Yes Darwin loves me.
Evolution tells me so.

Don't be afraid of evolution.
The time has come for revolution.
A revolution from within
For Earth and life and sun and wind.

Yes Darwin loves me.
Yes Darwin loves me.
Yes Darwin loves me.
Evolution tells me so.

The fish evolved from the ocean's rims
And they became amphibians.
The amphibians began to stand
Becoming creatures of the land.

Yes Darwin loves me.
Yes Darwin loves me.
Yes Darwin loves me.
Evolution tells me so.

The primates they were swinging free.
They loved their life high in the trees.
Then their minds began to dream
And they became humanity.

Yes Darwin loves me.
Yes Darwin loves me.
Yes Darwin loves me.
Evolution tells me so.

Now as for you fundamentalists,
It's time to look beyond the mist.
Your solutions do not solve.
It's time for you folks to evolve.

Yes Darwin loves me.
Yes Darwin loves me.
Yes Darwin loves me.
Evolution tells me so.

Faith, Hope and Love (2022-005)

Faith, hope and love.
Faith, hope and love.

We have encountered
The Christ of faith,
The Christ who's with us
Every day.

We have encountered
The dream of a new day.
The sun is rising
To guide us on our way.

Faith, hope and love.
Faith, hope and love.

We dawn our armour
To fight the good fight,
For a world of peace and justice
Where love triumphs over might.

The dawn is breaking
Out of the night.
The new day is dawning
Gentle, free and bright.

Faith, hope and love.
Faith, hope and love.

So sing of justice
And sing of peace.
Sing of a hope
That truly frees.

In the shadow of the empire
We're planting seeds,
Building a culture
Of solidarity.

Faith, hope and love.
Faith, hope and love.

We light our candles
Against the night.
God is within us,
Very much alive.

The Spirit dwells in us
Deep down inside,

And gives us strength to
Gently turn the tide.

Faith, hope and love.
Faith, hope and love.
Faith, hope and love.
Faith, hope and love.

Heal the Earth (2022-006)

Heal the earth. Heal the earth.
Heal the earth. Heal the earth.

Pray for peace. Pray for peace.
Pray for peace. Pray for peace.

Peace on Earth. Peace on Earth.
Peace on Earth. Peace on Earth.

Strength to love. Strength to love.
Strength to love. Strength to love.

Love the earth. Love the earth.
Love the earth. Love the earth.

Share the dream. Share the dream.
Share the dream. Share the dream.

Dare to hope. Dare to hope.
Dare to hope. Dare to hope.

Live the dawn. Live to dawn.
Live the dawn. Live the dawn.

Heal the earth. Heal the earth.
Heal the earth. Heal the earth.

Pray for peace. Pray for peace.
Pray for peace. Pray for peace.

Peace on Earth. Peace on Earth.
Peace on Earth. Peace on Earth.

Strength to love. Strength to love.
Strength to love. Strength to love.

Love the earth. Love the earth.
Love the earth. Love the earth.

Share the dream. Share the dream.
Share the dream. Share the dream.

Dare to hope. Dare to hope.
Dare to hope. Dare to hope.

Live the dawn. Live the dawn.
Live the dawn. Live the dawn.

Heal the earth. Heal the earth.

Heal the earth. Heal the earth.

Heal the earth. Heal the earth.
Heal the earth. Heal the earth.

We Are the Ripples (2022-007)

A pebble is dropped into the pond.
The ripples go out to the great beyond.
A pebble is dropped into the pond.
The ripples go out to the great beyond.

A word is spoken in the dark of night.
A million people dare to rise.
A word is spoken in the dark of night.
A million people dare to rise.

So let us rise and greet the dawn.
We are the new day about to be spawned.
Let us rise and greet the dawn.
We are the new day about to be spawned.

The truth we know goes on and on.
We are the ripples on the pond.
The truth we know goes on and on.
We are the ripples on the pond.

We will make this old world new.
The dream in our hearts is coming true.
We will make this old world new.
The dream in our hearts is coming true.

The generations are marching on.
We are free beings. We will not be pawns.
The generations are marching on.
We are free beings. We will not be pawns.

The truth we know goes on and on.
We are the ripples on the pond.
The truth we know goes on and on.
We are the ripples on the pond.
We are the ripples on the pond.
We are the ripples on the pond.
We are the ripples on the pond.
We are the ripples on the pond.

The Mother Goddess Lives in us All (2022-008)

The Mother Goddess lives in us all.
She is an energy growing tall.
She lives in all things great and small.
The Mother Goddess lives in us all.

The Mother Goddess makes us one,
In the joy of the moon and the light of the sun.
The world of our dreams has only begun.
The Mother Goddess makes us one.

The Mother Goddess is a living tune,
That let's us connect with the love of the moon,
The call of the owl, the cry of the loon.
The Mother Goddess is a living tune.

The Mother Goddess lives in us all.
She is an energy growing tall.
She lives in all things great and small.
The Mother Goddess lives in us all.
The Mother Goddess lives in us all.

Everywhere Everywhere (2022-009)

The sun shines everywhere.
Spread the news around.
The wind blows everywhere.
Spread the news around.
The moon rises everywhere.
Spread the news around.
The earth dreams everywhere.
Spread the news around.

Everywhere, everywhere
All things turning 'round.
Everywhere, everywhere
We stand on solid ground.
Everywhere, everywhere
All things turning 'round.
Everywhere, everywhere
We stand on solid ground.

We can say no to oil.
Keep it in the ground.
We can say no to natural gas.
Keep it in the ground.
We can say no to coal.
Keep it in the ground.
We can say no to uranium.
Keep it in the ground.

Everywhere, everywhere
All things turning 'round.
Everywhere, everywhere
We stand on solid ground.
Everywhere, everywhere
All things turning 'round.
Everywhere, everywhere
We stand on solid ground.

The sun shines everywhere.
Spread the news around.
The wind blows everywhere.
Spread the news around.
The moon rises everywhere.
Spread the news around.
The earth dreams everywhere.
Spread the news around.

Everywhere, everywhere
All things turning 'round.
Everywhere, everywhere
We stand on solid ground.

Everywhere, everywhere
All things turning 'round.
Everywhere, everywhere
We stand on solid ground.
We stand on solid ground.
We stand on solid ground.

Into the Street (2022-010)

Get off of the Zoom calls and into the street.
We have beautiful voices and beautiful feet.
One day the victory shall be sweet.
We're marching to a revolutionary beat.
Into the street, into the street.

Get out of the meeting rooms and into the street.
We have beautiful bodies and beautiful feet.
It's time for a million people to meet,
We're marching til the new day is complete.
Into the street, into the street.

We are the movement in the street,
Telling the world we will not be beat.
We do not know the word defeat.
We're marching come rain or snow or sleet.
Into the street, into the street.

We are the people. We are the heat.
We are the wind that blows through the wheat.
For capitalism we don't give a sweet tweet.
We're marching to a revolutionary beat.
Into the street, into the street.

If the powers that be turn white as a sheet
It's because they know we cannot be beat.
Get off your butts and on to your feet.
We're marching til the new day is complete.
Into the street, into the street.

Away with the system and its deadly deceit.
We are advancing. We will never retreat.
We will not serve the power elite.
We're marching come rain or snow or sleet.
Into the street, into the street.

You want a world that's tidy and neat,
Made of steel and glass and concrete,
But we're gonna jump up right out of our seat.
And we won't disappear if you press delete.
Into the street, into the street.

We are the movement in the street.
Marching to a revolutionary beat.
Marching til the new day is complete.
Marching come rain or snow or sleet.
Into the street, into the street.

We are the movement in the street.

Marching to a revolutionary beat.
Marching til the new day is complete.
Marching come rain or snow or sleet.
Into the street, into the street.
Into the street, into the street.

There is Hope (2022-011)

On a day when the spring
Of 1946 was dawning,
Children who'd survived
The Hiroshima bombing,
Were playing in the street
When they saw a flower,
And then two flowers,
Then quite a few flowers,
Growing in the soil
Where some had feared
They would no longer grow.

And the children they came running
Saying we have seen flowers.
We've seen flowers growing
And we know there is a future.
There is hope.

So let us all remember
The children who came running,
Saying we have seen flowers.
We've seen flowers growing.
We know there is a future.
There is hope.

So let us all remember
The children who came running,
Saying we have seen flowers.
We've seen flowers growing.
And we know there is a future.
There is hope.
There is hope.

Song of the SMRs (2022-012)

Come all you good people
And hear the latest news.
Our province wants us all to take
An insane nuclear cruise.

They call them SMRs,
They call them SMRs,
Small modular reactors,
They call them SMRs.

Small modular reactors,
That's what the initials mean.
They might be small, but they are neither
Safe or cheep or green.

They call them SMRs.
They call them SMRs.
Small modular reactors,
They call them SMRs.

They'll tell you it's the future.
We're shooting for the stars.
But there is really nothing new
When you're talking SMRs.

Away with SMRs
Away with SMRs,
Small modular reactors,
Away with SMRs.

They'll emphasize the smallness,
But open up your eyes.
Small is never beautiful
When it's been nuclearized.

Away with SMRs,
Away with SMRs,
Small modular reactors,
Away with SMRs.

Radiation's radiation
No matter how small or large.
Our health and the environment
Can still be zapped by SMRs.

Away with SMRs,
Away with SMRs,
Small modular reactors,
Away with SMRs.

Size doesn't really matter
With radioactivity.
With a meltdown it will get you
With its dark absurdity.

Away with SMRs.
Away with SMRs.
Small modular reactors,
Away with SMRs.

Over budget, behind schedule,
Is what every nuke has been.
Whether big or small I know
It's still the same damn scene.

Away with SMRs.
Away with SMRs.
Small modular reactors,
Away with SMRs.

If you count the whole nuclear fuel chain,
It is not carbon free.
From uranium mining to waste storage,
It all takes energy.

Away with SMRs.
Away with SMRs.
Small modular reactors,
Away with SMRs.

They never built the Slowpoke 3,
The Candu 3 or Candu 9.
They've gone to the dump of history
And that suits me just fine.

Likewise with SMRs,
Likewise with SMRs,
Small modular reactors,
Let's dump the SMRs.

Let's change the conversation
Say away with SMRs.
Let's overthrow the industry
And all the nuclear czars.

Away with SMRs.
Away with SMRs.
Small modular reactors,
Away with SMRs.

Together let us organize
And dare to stand as one.
Build a world that gets its energy
From water, wind and sun.

Away with SMRs.
Away with SMRs.
Small modular reactors,
Away with SMRs.
Away with SMRs.
Away with SMRs.

Alien Band (2022-013)

We are an alien band.
We come from the mountains beyond,
Where the mist and the rain never end
With the robins announcing the dawn.

And we'll drink to the health of our friends,
And we'll drink to the health of the land.
And we'll drink to a world without end,
And we'll drink to our alien band.

On a day we will gather in spring
To welcome the leaves on the trees,
The flowers and sweet birds that sing,
And the storm clouds that drift o'er the seas.

And we'll drink to the health of our friends,
And we'll drink to the health of the land.
And we'll drink to a world without end,
And we'll drink to our alien band.

In mid summer we'll gather again
To dream a mid summer night's dream,
Where the cosmos and time seem to bend
And allow time to paddle upstream.

And we'll drink to the health of our friends,
And we'll drink to the health of the land.
And we'll drink to a world without end,
And we'll drink to our alien band.

We are seekers and dreamers of time
Who dance as an alien band.
We are thinkers and speakers of life
Who hold Planet Earth in our hands.

And we'll drink to the health of our friends,
And we'll drink to the health of the land.
And we'll drink to a world without end,
And we'll drink to our alien band.

What has brought us out here on this road,
This road that is traveled by few,
Where the purpose of life may unfold,
It's to be, to dream and to do.

Let us drink to the health of our friends.
Let us drink to the health of the land.
Let us drink to a world without end.
Let us drink to our alien band.

Long live the health of our friends.
Long live the health of the land.
Long live this world without end.
Long live our alien band.
Long live our alien band.
Long live our alien band.

I Woke Up This Morning (2022-014)

I woke up this morning
With a feeling that there was something wrong.
I woke up this morning
With a feeling that there was something wrong.
It wasn't because I was lonely
Or because the one I loved was gone.

It was a feeling that was much bigger
That there was something wrong with our world.
It was a feeling that was much bigger
That there was something wrong with our world.
Something that had unfolded
As capitalism and imperialism
And ecological destruction had unfurled.

I woke up this morning
With a feeling that I had to set things right.
I woke up this morning
With a feeling that I had to set things right.
And a feeling that the world
Was headed for collapse
And headed for an endless night.

I said to Antisthenes,
You've been trying to set the world right
For a long long time.
I said to Antisthenes,
You've been trying to set the world right
For a long long time.
Do you have any advice
On how to free the world
From capitalist and imperialist crime.

Antisthenes was silent
And his silence said to me
That I have to know my own mind.
Antisthenes was silent
And his silence said to me
That I have to know my own mind.
Only I can find the answer
If our goal is
The earthly salvation of humankind.

I woke up this morning
With a feeling that there was something wrong.
I woke up this morning
With a feeling that there was something wrong.
So I tried to tell the story
And I tried to put it into song.

I tried to tell the story
And I tried to put it into song.

We Dream of Justice (2022-015)

We dream of justice.
We dream of peace.
We dream of a world
Where our hearts can be free.

We weave a story.
We weave a song.
We weave a future
Where we all carry on.

We dream of justice.
We dream of peace.
We dream of a world
Where our hearts can be free.

We weave a story.
We weave a song.
We weave a future
Where we all carry on.

Optimism of the Heart (2022-016)

When pessimism of the intellect
Starts to crowd in on our minds,
And we're afraid of seeing sorrow
If we look between the lines,
Where do we go to get to there
From where we are.
Let us dance and dare to claim
Optimism of the heart.
Optimism of the heart.
Optimism of the heart.

Remember Gramsci in his prison cell.
Optimism of the heart.
With twenty-eight hundred pages of notebooks,
Optimism of the heart.
Remember Bob Marley who sang for freedom,
Optimism of the heart.
Remember Sophie Scholl
Who knew a better day was coming,
Optimism of the heart.
Remember the Warsaw ghetto uprising,
Optimism of the heart.

When pessimism of the intellect
Starts to crowd in on our minds,
And we're afraid of seeing sorrow
If we look between the lines,
Where do we go to get to there
From where we are?
Let us dance and dare to claim
Optimism of the heart.
Optimism of the heart.
Optimism of the heart.

Remember Gramsci in his prison cell,
Optimism of the heart.
Gramsci died, but a million live on.
Optimism of the heart.
Bob Marley died but we still sing his songs.
Optimism of the heart.
So many died but still we live on.
Optimism of the heart.
Optimism of the heart.
Optimism of the heart.
Optimism of the heart.
Optimism of the heart.

Time for Tumbling Down (2022-017)

We sang a song of freedom
All around the town.
We rose against the priest
And the priest came tumbling down.

We sang a song of freedom
All around the town.
We rose against the bishop
And the bishop came tumbling down.

We sang a song of freedom
All around the town.
We rose against the cardinal
And the cardinal came tumbling down.

We sang a song of freedom
All around the town.
We rose against the pope
And the pope came tumbling down.

Priests and bishops and cardinals
And popes from all around,
They only have one future.
It's time for tumbling down.

They try to tell us what to do
With our bodies and our minds,
But with sex abuse and cover-ups
When will they pay for their crimes.
When will they pay for their crimes.
When will they pay for their crimes.

The church became the empire
And specialized in execution.
But we are the people.
We specialize in revolution.

They can burn us at the stake
And bury us in the ground.
But we'll be back again to say,
It's time for tumbling down.
Time for tumbling down.

We'll be back again to say
It's time for tumbling down.
Time for tumbling down.

We are the Spiral (2022-018)

We are the spiral
Like a spiral galaxy.
We are the spiral
Like a hurricane on the sea.
We are the spiral.
May we turn forever free.
We are the spiral
Like a spiral galaxy.

We know the spiral
Lives in you and in me.
We know the spiral
Spirals on to infinity.
We know the spiral
Fills the universe with glee.
We know the spiral
Lives in you and in me.

We are the spiral
Like a spiral galaxy.
We are the spiral
Like a hurricane on the sea.
We are the spiral.
May we turn forever free.
We are the spiral
Like a spiral galaxy.

Long live the spiral
Like a dream upon the breeze.
Long live the spiral
In every mountain, hill and tree.
Long live the spiral
In all that dares to be.
Long live the spiral
Like a dream upon the breeze.

We are the spiral
Like a spiral galaxy.
We are the spiral
Like a hurricane on the sea.
We are the spiral.
May we turn forever free.
We are the spiral
Like a spiral galaxy.

Long live the spiral
Flowing with the brooks and streams.
Long live the spiral
As the Goddess gently dreams.

Long live the spiral
As a solar vision gleams.
Long live the spiral
Flowing with the brooks and streams.

We are the spiral
Like a spiral galaxy.
We are the spiral
Like a hurricane on the sea.
We are the spiral.
May we turn forever free.
We are the spiral
Like a spiral galaxy.
Like a spiral galaxy.
Like a spiral galaxy.

We Are the Revolution (2022-019)

We are the revolution, and the new day.
We are the movement. We will not go away.
We are the revolution, and the new day.
We are the movement. We will not go away.

We will bring the empire down.
We will build the vision we share,
Build a world of justice and love,
Where freedom reigns everywhere.

We are the revolution, and the new day.
We are the movement. We will not go away.
We are the revolution, and the new day.
We are the movement. We will not go away.

May love dwell in our hearts.
May peace and equity dwell in our souls.
May a love for the earth be all 'round,
As Gaia shines bright, free and whole.

We are the revolution, and the new day.
We are the movement. We will not go away.
We are the revolution, and the new day.
We are the movement. We will not go away.

With the earth shining through space,
Shining blue and white and green,
In our minds we will dream the new day,
Liberation from the machine.

We are the revolution, and the new day.
We are the movement. We will not go away.
We are the revolution, and the new day.
We are the movement. We will not go away.

We are the revolution, and the new day.
We are the movement. We will not go away.
We are the revolution, and the new day.
We are the movement. We will not go away.
We are the movement. We will not go away.
We are the movement. We will not go away.

People with Eolian Hearts (2022-020)

May our hearts bring forth love
With the wings of a dove.
May our hearts bring forth love
With the wings of a dove.

May our hearts sing for peace
On the sweet summer breeze.
May our hearts sing for peace
On the sweet summer breeze.

May our hearts beat with power
And the gentleness of a flower.
May our hearts beat with power
And the gentleness of a flower.

And we know who we are.
We're the people with eolian hearts.
And we know who we are.
We're the people with eolian hearts.

May the wind of the spirit blow through.
May it blow through me and through you.
May the wind of the spirit blow through.
May it blow through me and through you.

And we know who we are.
We're the people with eolian hearts.
And we know who we are.
We're the people with eolian hearts.
We're the people with eolian hearts.
We're the people with eolian hearts.

We Are the Cosmic Rhyme (2022-021)

Children of the earth
Children of the wind,
Children of the dream
Let us now begin.

Children of the sun
Children of the moon,
Children of the rain
Our time is coming soon.

Children of the night
Children of the day,
Children of the times
We have not gone away.

Children of the dawn
Children of the sky,
Children of the song
We are the freedom cry.
We are the freedom cry.
We are the freedom cry.

Children of the tide
Children of the sea,
Children of the shore
Forever may we be.

Children of the heart
Children of the mind,
Children of the soul
And all of humankind.

Children of the woods
Children of the sand,
Children of the hills
We will take our stand.

Children of the spruce
Children of the pine,
Children of the oaks
We are the cosmic rhyme.
We are the cosmic rhyme.
We are the cosmic rhyme.

Children of the earth
Children of the wind,
Children of the dream
Let us now begin.
Let us now begin.

Let us now begin.

We are the cosmic rhyme.
We are the cosmic rhyme,
Ringing out through time.
We are the cosmic rhyme,
Ringing out through time.
We are the cosmic rhyme.

On the Left Bank of the Saskatchewan (2022-022)

We're working for a just and ecological dawn,
On the left bank of the Saskatchewan.
We know the movement will carry on,
On the left bank of the Saskatchewan.
On the left bank of the Saskatchewan.

We will be the ripples on the pond,
On the left bank of the Saskatchewan.
We are the ugly duckling that became a swan,
On the left bank of the Saskatchewan.
On the left bank of the Saskatchewan.

We remember all the marches
That have come and gone,
On the left bank of the Saskatchewan.
Marching through the streets and over the lawn,
On the left bank of the Saskatchewan.
On the left bank of the Saskatchewan.

We will not be a puppet or a pawn,
On the left bank of the Saskatchewan.
We will live to see the new day dawn,
On the left bank of the Saskatchewan.
On the left bank of the Saskatchewan.

We will raise the people with a song,
On the left bank of the Saskatchewan.
We will show the rulers we are strong,
On the left bank of the Saskatchewan.
On the left bank of the Saskatchewan.

We will change the world and right every wrong,
On the left bank of the Saskatchewan.
We will unite our hearts in revolution,
On the left bank of the Saskatchewan.
On the left bank of the Saskatchewan.

We will raise a cry for emancipation,
On the left bank of the Saskatchewan.
We will raise our voice for liberation,
On the left bank of the Saskatchewan.
On the left bank of the Saskatchewan.

We're working for a just and ecological dawn,
On the left bank of the Saskatchewan.
We know the movement will carry on,
On the left bank of the Saskatchewan.
On the left bank of the Saskatchewan.
On the left bank of the Saskatchewan.

On the left bank of the Saskatchewan.

Spirit of Change (2022-023)

The spirit of change is in the air.
The transformation is everywhere.
The spirit of change is in the air.
The transformation is everywhere.

The rearranging is a mighty call.
The liberation is within us all.
The rearranging is a mighty call.
The liberation is within us all.

Another dream is plausible.
Another world is possible.
Another dream is plausible.
Another world is possible.

A sustainable world is doable,
Where all we are is renewable.
A sustainable world is doable,
Where all we are is renewable.

The spirit of change is in the air.
The transformation is everywhere.
The spirit of change is in the air.
The transformation is everywhere.

The rearranging is a mighty call.
The liberation is within us all.
The rearranging is a mighty call.
The liberation is within us all.

Another dream is plausible.
Another world is possible.
Another dream is plausible.
Another world is possible.

A sustainable world is doable,
Where all we are is renewable.
A sustainable world is doable,
Where all we are is renewable.

The spirit of change is in the air.
The transformation is everywhere.
The spirit of change is in the air.
The transformation is everywhere.
The transformation is everywhere.
The transformation is everywhere.

Universal Maker (2022-024)

Universal Maker
Universal Christ,
Universal Spirit
Universal Light.

You dwell, you dwell around us
Throughout the universe.
You dwell, you dwell within us
Beyond all thoughts and words.

Universal Maker
Universal Christ,
Universal Spirit
Universal Light.

You dwell, you dwell around us
Throughout the universe.
You dwell, you dwell within us
Beyond all thoughts and words.
Beyond all thoughts and words.
Beyond all thoughts and words.

Become That Brighter Day (2022-025)

There's a time to light a candle.
There's a time to speak against the dark.
There's a time to dream of justice
With all the power of our hearts.

So let us light a candle.
Let us speak against the dark.
Let us dream of justice
With all the power of our hearts.

If we light a thousand candles
We can chase the dark away,
But it's gonna take bold struggle
To bring us to a brighter day.

So join your hearts in struggle.
We can chase the dark away.
Our hearts are beating loudly.
We become that brighter day.
We become that brighter day.
We become that brighter day.

There's a time to light a candle.
There's a time to speak against the dark.
There's a time to dream of justice
With all the power of our hearts.

So let us light a candle.
Let us speak against the dark.
Let us dream of justice
With all the power of our hearts.

If we light a thousand candles
We can chase the dark away.
But it's gonna take bold struggle
To bring us to a brighter day.

So join your hearts in struggle
And chase the dark away.
Our hearts are beating loudly.
We become that brighter day.
We become that brighter day.
We become that brighter day.

We Are of the Spirit (2022-026)

We are of the spirit of one Earth.
We are of the spirit of one Earth.
Where every living creature knows its worth,
Bringing all the world to a new birth.

We are of the spirit of one dream.
We are of the spirit of one dream.
We shall be the pebbles on the stream.
We shall be the light in a gentle gleam.

We are of the spirit of one star.
We are of the spirit of one star.
Knowing who we are and where we are,
Dreaming of a time that's o so far.

We are of the spirit of one Earth.
We are of the spirit of one Earth.
Where every living creature knows its worth,
Bringing all the world to a new birth.
Bringing all the world to a new birth.

Sing the World Into Life (2022-027)

We're gonna sing, we're gonna sing,
We're gonna sing the world into life.
We're gonna sing, we're gonna sing,
We're gonna sing the world into life.

We're gonna dream, we're gonna dream,
We're gonna dream the world into life.
We're gonna dream, we're gonna dream,
We're gonna dream the world into life.

We're gonna dance, we're gonna dance,
We're gonna dance the world into life.
We're gonna dance, we're gonna dance,
We're gonna dance the world into life.

We're gonna love, we're gonna love,
We're gonna love the world into life.
We're gonna love, we're gonna love,
We're gonna love the world into life.

We're gonna hope, we're gonna hope,
We're gonna hope the world into life.
We're gonna hope, we're gonna hope,
We're gonna hope the world into life.

When we sing and dream
And dance and love and hope,
The world will live forever more.
When we sing and dream
And dance and love and hope,
The world will live forever more.

And the world, and the world,
The world will live forever more.
And the world, and the world,
The world will live forever more.

We are in the world and of the world.
The world will live forever more.
So together let us love the world.
The world will live forever more.

We are in the world and of the world.
The world will live forever more.
So together let us love the world.
The world will live forever more.

If You Want a Future (2022-028)

If you want a future
Keep building solar panels.
If you want a future
Keep on building windmills.
Keep on building windmills.

If you want a future
Let's go geo-thermal.
If you want a future
We'll go ocean tidal.
We'll go ocean tidal.

The sun will shine and the wind will blow.
The earth will turn and the water will flow.
The sun will shine and the wind will blow.
The earth will turn and the water will flow.

If you want a future
Keep building solar panels.
If you want a future
Keep on building windmills.
Keep on building windmills.

If you want a future
Let's go geo-thermal.
If you want a future
We'll go ocean tidal.
We'll go ocean tidal.

The sun will shine and the wind will blow.
The earth will turn and the water will flow.
The sun will shine and the wind will blow.
The earth will turn and the water will flow.

Earth and wind and water and sun,
Energy for everyone.
Earth and wind and water and sun,
Energy for everyone.

The sun will shine and the wind will blow.
The earth will turn and the water will flow.
The sun will shine and the wind will blow.
The earth will turn and the water will flow.

Earth and wind and water and sun,
Energy for everyone.
Earth and wind and water and sun,
Energy for everyone.

If you want a future
Keep building solar panels.
If you want a future
Keep on building windmills.
Keep on building windmills.
Keep on building windmills.
Keep on building windmills.

He Has Risen (2022-029)

Why do you look for him among the dead.
He has risen. He has risen.
The sun is rising on an Easter morn.
He has risen. He has risen.

Perhaps the dream of a new day lives on.
He has risen. He has risen.
With peace and justice coming with the dawn,
He has risen. He has risen.

Why do you look for him among the dead.
He has risen. He has risen.
The sun is rising on an Easter morn.
He has risen. He has risen.

He is the one who lives in everyone.
He has risen. He has risen.
He is the universal human one.
He has risen. He has risen.

Why do you look for him among the dead.
He has risen. He has risen.
The sun is rising on an Easter morn.
He has risen. He has risen.

And all the universe is rolling on.
He has risen. He has risen.
The Christ is dancing in the rolling dawn.
He has risen. He has risen.

Why do you look for him among the dead.
He has risen. He has risen.
The sun is rising on an Easter morn.
He has risen. He has risen.
The sun is rising on an Easter morn.
He has risen. He has risen.
He has risen. He has risen.

Revolutionary Night (2022-030)

I'd like to sing a song
To set the world aright,
And come and dream
A revolutionary night.

I'd like to sing a song
To hail a brighter day,
To get the world walking
A revolutionary way.
Get the world walking
A revolutionary way.

Rosa Luxemburg will speak
From beyond her martyr's grave.
Rosa Luxemburg will speak.
She will speak to us today.

She'll say build a rebel movement,
Socialism from below.
Build it upward. Take it higher.
There's only one way to go.
Only one way to go.
Only one way to go.

I'd like to sing a song
To set the world aright,
And come and dream
A revolutionary night.

I'd like to sing a song
To hail a brighter day,
And get the world walking
A revolutionary way.
Get the world walking
A revolutionary way.

Antonio Gramsci
Will speak to everyone.
From his prison notebooks
His gentle voice will come.

He'll say fight the hegemony
With a counter narrative.
Ideas can change the world.
The revolution it will live.
The revolution it will live.

I'd like to sing a song
To set the world aright,

And come and dream
A revolutionary night.

I'd like to sing a song
To hail a brighter day,
And get the world walking
A revolutionary way.
Get the world walking
A revolutionary way.

Rosa Luxemburg will speak
From beyond her martyr's grave.
Rosa Luxemburg will speak.
She will speak to us today.

She'll say build a rebel movement,
Socialism from below.
Build it upward. Take it higher.
There's only one way to go.
Only one way to go.
Only one way to go.

I'd like to sing a song
To set the world aright,
And come and dream
A revolutionary night.
And come and dream
A revolutionary night.

We're dancing on a revolutionary night.
We're dreaming on a revolutionary night.
Let's make this night a revolutionary night.

We're dancing on a revolutionary night.
We're dreaming on a revolutionary night.
Let's make this night a revolutionary night.
Let's make this night a revolutionary night.

Whisper in the Company Town (2022-031)

We heard a whisper in the company town.
Capitalism must come down.
Revolution now,
Capitalism must come down.
Turn, the, world, around.
Capitalism must come down.
We will see it through somehow.
Capitalism must come down.
Capitalism must come down.

It's time to build the world anew.
Time to build a world that's true.
Revolution out of the blue.
Power to the many, not the few.
Power to the many, not the few.

We say no to the corporate coup.
Away with capitalism's crew.
We know what we need to do.
Power to the many, not the few.
Power to the many, not the few.

We heard a whisper in the company town.
Capitalism must come down.
Revolution now.
Capitalism must come down.
Turn, the, world, around.
Capitalism must come down.
We will see it through somehow.
Capitalism must come down.
Capitalism must come down.
Capitalism must come down.

We are the revolution song.
We are the revolution dawn.
We stand united and we are strong.
The revolution shall carry on.
The revolution shall carry on.
The revolution shall carry on.

We heard a whisper in the company town.
Capitalism must come down.
Revolution now.
Capitalism must come down.
Turn, the, world, around.
Capitalism must come down.
We will see it through somehow.
Capitalism must come down.
Capitalism must come down.

Capitalism must come down.

Born on Gandhi's Birthday (2022-032)

I was born on Gandhi's birthday
In the year of the summer of love.
I was born on Gandhi's birthday
In the year of the summer of love.
People were marching and singing, saying
Away with the world of push and shove.
Be as wise as serpents
But as gentle as a dove.
Be as wise as serpents
But as gentle as a dove.

In October 67,
There were many things going on.
There was a peace torch relay
Of runners in the dawn.
People were gathering from all over
To march on the Pentagon.
And love and peace were in the lyrics
Of many a popular song.

I was born on Gandhi's birthday
In the year of the summer of love.
I was born on Gandhi's birthday
In the year of the summer of love.
People were marching and singing, saying
Away with the world of push and shove.
Be as wise as serpents
But as gentle as a dove.
Be as wise as serpents
But as gentle as a dove.

I learned about Gandhi and Tolstoy
And Muste and King,
And how peace became the music
That a million came to sing.
I felt the spirit shining
From the heart of everything.
And I hoped that the world would see
A new and better spring.

I was born on Gandhi's birthday
In the year of the summer of love.
I was born on Gandhi's birthday
In the year of the summer of love.
People were marching and singing, saying
Away with the world of push and shove.
Be as wise as serpents
But as gentle as a dove.
Be as wise as serpents

But as gentle as a dove.

Now the years have gone by and I've
Seen movements come and go.
But the sun is still shining
And the winds of time still blow.
From seeds within the earth
We became a forest grove.
There's a time for saying yes
And a time for saying no.

I was born on Gandhi's birthday
In the year of the summer of love.
I was born on Gandhi's birthday
In the year of the summer of love.
People were marching and singing, saying
Away with the world of push and shove.
Be as wise as serpents
But as gentle as a dove.
Be as wise as serpents
But as gentle as a dove.

We can build a new society,
A world that's based on love.
Be as wise as serpents
But as gentle as a dove.

We can build a new society,
A world that's based on love.
Be as wise as serpents
But as gentle as a dove.

There is a Heartbeat (2022-033)

There is a heartbeat
At the heart of the cosmos.
There is a heartbeat
At the heart of all things.
Dance with the Green Man.
Dance with the Goddess.
We are the awakening
Into a new spring.

There is a heartbeat
At the heart of the cosmos.
There is a heartbeat
At the heart of all things.
Dance with the Green Man.
Dance with the Goddess.
We are the awakening
Into a new spring.

There is a heartbeat
At the heart of the cosmos.
There is a heartbeat
At the heart of all things.
Dance with the Green Man.
Dance with the Goddess.
We are the awakening
Into a new spring.
We are the awakening
Into a new spring.
We are the awakening
Into a new spring.

Rock 'n' Roll, Radicals, Rebels and Reds (2022-034)

I remember a day
When I was about fifteen.
Being a left-wing guerrilla
Had become my dream.
To be like Che Guevarra
Or Farabundo Marti,
Making revolution
To set the people free.

I will make it through.
My spirit will be fed,
With rock 'n' roll, radicals,
Rebels and reds.
I will make it through.
My spirit will be fed.
I'm a rock 'n' roll radical,
A rebel and a red.

You can build it up
And I will tear it down.
We've got to have a new dream
Beyond the company town.
There's gotta be a movement
To turn the world around.
So let us build a
Revolutionary underground.

I will make it through.
My spirit will be fed
With rock 'n' roll, radicals,
Rebels and reds.
I will make it through.
My spirit will be fed.
I'm a rock 'n' roll radical,
A rebel and a red.

Forty years later
This is the life I made,
Saying we can build anew
And we are not afraid.
Once one has become wild,
One cannot be tamed.
And so we join together
In revolution's name.

I will make it through.
My spirit will be fed,
With rock 'n' roll, radicals,
Rebels and reds.

I will make it through.
My spirit will be fed.
I'm a rock 'n' roll radical,
A rebel and a red.
I'm a rock 'n' roll radical,
A rebel and a red.
I'm a rock 'n' roll radical,
A rebel and a red.
I'm a rock 'n' roll radical,
A rebel and a red.

Ballad of the Women's Strike for Peace (2022-035)

I will tell you all the story
Of the Women's Strike for Peace,
A movement of women
Saying no to the military.

In the early 1960's
They appeared upon the scene,
Saying we refuse to bow down
To the nuclear death machine.

In the dark month of October
Of 1962,
A group of mostly men who claimed
They stood for me and you,

Brought the world to the brink of
Nuclear annihilation,
With the Cuban Missile Crisis
Engulfing every nation.

Then in December of that year
The Women's Strike for Peace
Was called before the House Committee
On Un-American Activities.

This committee had stood unchallenged
For over fifteen years,
Black listing those they hated
And ruining careers.

Now the committee was confronted
By the Women's Strike for Peace.
The women would prove to be a match
For the House Un-American Activities Committee.

Many who were called before
The Un-American Activities Committee
Simply took the Fifth Amendment
And refused to speak.

But the Women's Strike for Peace
Decided to try a different way.
They filled the committee chamber
With a million things to say.

The women said each woman who spoke
Would get a loud applause.
So the chair of the committee said,
"Clapping will not be allowed."

So the women said each woman who spoke
Would get a silent standing ovation.
So the chair of the committee said,
"Standing will not be allowed,
For the sake of our nation."

So the women said each woman who spoke
Would get a bouquet of flowers.
So the chair of the committee said,
"Flowers will not be allowed here."

Til the chair of the committee
While trying to control the tune,
Ended up appearing
Like a complete baffoon.

With the power of creativity
And solidarity,
The women reduced the committee
To absurdity,
Where it well deserved to be.

Never again would this committee's
Shadow loom so very tall.
The committee would shrink in the public's mind
Til it was very very small.

And so I've told the story
Of the Women's Strike for Peace,
How they confronted the House
Un-American Activities Committee.

It's important to tell the stories
Of movement heroes come and gone,
So we can learn that we are not alone,
And together we'll grow strong.
So we can learn that we are not alone
And together we'll grow strong.
Together we'll grow strong.

Dance with the Spirit of Pan (2022-036)

And we dance with the spirit of Pan.
We are giving all we can.
For the sea and for the land,
We are reaching out our hands,
As we dance, with the spirit of Pan.
As we dance, with the spirit of Pan.

And we dance with the spirit of Pan.
We are giving all we can.
For the sea and for the land,
For the stars and for the sand,
We are reaching out our hands,
We are a gentle rebel band.
We have come to take our stand,
As we dance, with the spirit of Pan.
As we dance, with the spirit of Pan.

And we dance with the spirit of Pan.
We are giving all we can.
For the sea and for the land,
For the stars and for the sand,
We are reaching out our hands.
We are a gentle rebel band.
We have come to take our stand.
We are the yes and the no and the and.
As we dance, with the spirit of Pan.
As we dance, with the spirit of Pan.

And we dance with the spirit of Pan.
We are giving all we can.
For the sea and for the land,
For the stars and for the sand,
We are reaching out our hands.
We are a gentle rebel band.
We have come to take our stand.
We are the yes and the no and the and,
In a pantheistic trance.
May our voices never get canned.
As we dance, with the spirit of Pan.
As we dance, with the spirit of Pan.

As we dance, with the spirit of Pan.
As we dance, with the spirit of Pan.
As we dance, with the spirit of Pan.
As we dance, with the spirit of Pan.

I Am Aurora (2022-037)

I am Aurora
Goddess of the dawn.
I am Aurora
Goddess of the dawn.
The Roman Empire is crumbling.
Soon it will be gone.
I am Aurora
Goddess of the dawn.

I will gently guide you
To embrace a new dawn.
I will gently guide you
To embrace a new dawn.
When the empire crumbles
There must be something to carry on.
I will gently guide you
To embrace a new dawn.

Let us be a free people.
Let us be a people of the dawn.
Let us be a free people.
Let us be a people of the dawn.
Let us build community
And sing a freedom song.
Let us be a free people.
Let us be a people of the dawn.

Let us build a new world
Where all will be one.
Let us build a new world
Where all will be one.
The dawn is breaking
In the hearts of everyone.
Let us build a new world
Where all will be one.

I am Aurora
Goddess of the dawn.
I am Aurora
Goddess of the dawn.
I will give you all
The strength to carry on.
I am Aurora
Goddess of the dawn.
I am Aurora
Goddess of the dawn.
I am Aurora
Goddess of the dawn.
I am Aurora

Goddess of the dawn.

Imagine the Earth (2022-038)

Imagine the earth.
Imagine the earth.
Living dreaming free
With free flowing water.

Imagine the earth.
Imagine the earth.
Preserved in a state of well-being
For our sons and our daughters.

Imagine the earth.
Imagine the earth.
With the colours of the rainbow
Living on forever.

Imagine the earth.
Imagine the earth.
With all her eco-systems
Traveling on together.

Imagine the earth.
Imagine the earth.
A beautiful blue green sphere
A beautiful living Gaia.

Imagine the earth.
Imagine the earth.
Where the activist who speaks her mind
Is no longer a pariah.

Imagine the earth.
Imagine the earth.
With the colours of the rainbow
Living on forever.

Imagine the earth.
Imagine the earth.
With all her eco-systems
Traveling on together.

Living on forever,
Traveling on together.
Living on forever,
Traveling on together.

Imagine the earth.
Imagine the earth.
Living dreaming free
With free flowing water.

Imagine the earth.
Imagine the earth.
Preserved in a state of well-being
For our sons and our daughters.

Imagine the earth.
Imagine the earth.
Imagine the earth.

We Are the Be-in (2022-039)

We are the be-in.
We are the be-in.
Embracing the earth
With love, peace and freedom.

We are the be-in.
We are the be-in.
Embracing the earth
With love, peace and freedom.

The wind it is blowing.
The sun it is shining.
The wind and the sun are
The new day that is rising.

The wind it is blowing.
The sun it is shining.
The wind and the sun are
The new day that is rising.

We are the be-in.
We are the be-in.
Embracing the earth
With love, peace and freedom.

We are the be-in.
We are the be-in.
Embracing the earth
With love, peace and freedom.

The wind it is blowing.
The sun it is shining.
The wind and the sun are
The new day that is rising.

The wind it is blowing.
The sun it is shining.
The wind and the sun are
The new day that is rising.

The wind will blow and the sun will shine.
We are the people of our time,
Working for a future
For all humankind.

The wind will blow and the sun will shine.
We are the universal mind,
Working for a future
For all humankind.

The wind will blow and the sun will shine.
We are the people of our time,
Working for a future
For all humankind.

The wind will blow and the sun will shine.
We are the universal mind,
Working for a future
For all humankind.

We are the be-in.
We are the be-in.
Embracing the earth
With love, peace and freedom.

We are the be-in.
We are the be-in.
Embracing the earth
With love, peace and freedom.
Embracing the earth
With love, peace and freedom.

Bury the Chains (2022-040)

Bury the chains. Bury the chains.
May there be no more masters
And no more slaves.
Bury the chains.

Bury the chains. Bury the chains.
It's time for the world
To be rearranged.
Bury the chains.

Bury the chains. Bury the chains.
We're united in the vision
Of a bold new day.
Bury the chains.

Bury the chains. Bury the chains.
It's only when we work for change
That we will see change.
Bury the chains.

Bury the chains. Bury the chains.
May there be no more masters
And no more slaves.
Bury the chains.
It's time for the world
To be rearranged.
Bury the chains.
We're united in a vision
Of a bold new day.
Bury the chains.
It's only when we work for change
That we will see change.
Bury the chains.
Bury the chains.
Bury the chains.

Ode to Wind and Solar (2022-041)

No one has ever made a nuclear weapon
From a windmill.
No one has ever made a nuclear weapon
From a windmill.
Some say all kinds of energy
Come with their own challenges,
But no one has ever made a nuclear weapon
From a windmill.

No one has ever destroyed a city
With a solar panel.
No one has ever destroyed a city
With a solar panel.
Some say all kinds of energy
Come with their own challenges,
But no one has ever destroyed a city
With a solar panel.

And no one will ever bring the world to an end
With wind or solar power.
No one will ever bring the world to an end
With wind or solar power.
Some say all kinds of energy
Come with their own challenges,
But no one will ever bring the world to an end
With wind or solar power.

Wind power, I'm a big fan.
Solar power, the sun is rising.
Wind power, I'm a big fan.
Solar power, the sun is rising.
Wind power, I'm a big fan.
Solar power, the sun is rising.

The City on the Hill (2022-042)

I will dwell in the city on the hill,
A city that was built by the angels.
I will dwell in the city on the hill,
A city that was built by the angels.
Angels who came and dwelt among us
When we had the courage
To welcome them as strangers.

The angels dwell among us and within us.
They are the thoughts and the dreams
That we are dreaming.
The angels dwell among us and within us.
They are the thoughts and the dreams
That we are dreaming.
The angels come to help us in our movement,
With the trails of transformation
That are streaming.

Many things will pass away and tumble down.
Many things will vanish from all being.
Many things will pass away and tumble down.
Many things will vanish from all being.
But the city on the hill will stand forever
With its slogan of love and peace and freedom.

I will dwell in the city on the hill,
A city that was built by the angels.
I will dwell in the city on the hill,
A city that was built by the angels.
The angels came and dwelt among us
When we had the courage
To welcome them as strangers.
The city that was built by the angels.
The courage to welcome them as strangers.
The city that was built by the angels.
The courage to welcome them as strangers.

Ability (2022-043)

From each according to their ability.
To each according to their need.
From each according to their ability.
To each according to their need.

If you want to build community,
You're gonna have to build solidarity.
If we want to live in harmony,
We're gonna have to live in equity.

From each according to their ability.
To each according to their need.
From each according to their ability.
To each according to their need.

Many attempts have come and gone,
Many great visions of a better dawn.
And still the dream it carries on,
As we join in a solidarity song.

From each according to their ability.
To each according to their need.
From each according to their ability.
To each according to their need.

No more corporations, no more greed,
May a socialist alternative come to be,
Where everyone can live in dignity
And our hearts and our minds
And our bodies are free.

From each according to their ability.
To each according to their need.
From each according to their ability.
To each according to their need.

The earth has enough for everyone's need,
But not enough to serve the corporate greed.
A new world must rise, it's plain to see,
With justice and sustainability.
One day I know we'll see victory.

From each according to their ability.
To each according to their need.
From each according to their ability.
To each according to their need.
To each according to their need.
One day I know we'll see victory.

Green Knight of the Green Lawn (2022-044)

I'm the Green Knight of the Green Lawn.
Around the world I am carrying on.
I'm the Green Knight of the Green Lawn.
Around the world I am carrying on.

I'm a blue knight of the blue sky,
Forever thinking and wondering why.
I'm a blue knight of the blue sky,
Forever thinking and wondering why.

I'm the Green Knight of the Green Lawn.
Around the world I am carrying on.
I'm the Green Knight of the Green Lawn.
Around the world I am carrying on.

I'm the Crimson Knight of the Crimson Dawn,
Raising my voice in a freedom song.
I'm the Crimson Knight of the Crimson Dawn,
Raising my voice in a freedom song.

I'm the Green Knight of the Green Lawn.
Around the world I am carrying on.
I'm the Green Knight of the Green Lawn.
Around the world I am carrying on.

Come on, come on, come on.
Let's carry on.
Come on, come on, come on.
Break through the dawn.

Come on, come on, come on.
Let's carry on.
Come on, come on, come on.
Break through the dawn.

I'm the Green Knight of the Green Lawn.
Around the world I am carrying on.
I'm the Green Knight of the Green Lawn.
Around the world I am carrying on.

I'm a blue knight of the blue sky,
Forever thinking and wondering why.
I'm a blue knight of the blue sky,
Forever thinking and wondering why.

I'm the Green Knight of the Green Lawn.
Around the world I am carrying on.
I'm the Green Knight of the Green Lawn.
Around the world I am carrying on.

I'm the Crimson Knight of the Crimson Dawn,
Raising my voice in a freedom song.
I'm the Crimson Knight of the Crimson Dawn,
Raising my voice in a freedom song.

I'm the Green Knight of the Green Lawn.
Around the world I am carrying on.
I'm the Green Knight of the Green Lawn.
Around the world I am carrying on.

Come on, come on, come on.
Let's carry on.
Come on, come on, come on.
Break through the dawn.

Come on, come on, come on.
Let's carry on.
Come on, come on, come on.
Break through the dawn.

I'm the Green Knight of the Green Lawn.
Around the world I am carrying on.

The Windmills Turn Around (2022-045)

Some express their disbelief
As to whether wind power can set us free.
But take a look around the world;
The wind is rising, in one great whirl.

Over in Britain here's what they found.
The windmills turn around and around.
Up in Scotland here's what they found.
The windmills turn around and around.

Over in Denmark here's what they found.
The windmills turn around and around.
Over in Spain here's what they found.
The windmills turn around and around.

Down in Texas here's what they found.
The windmills turn around and around.
Over in Iowa here's what they found.
The windmills turn around and around.

The whole world 'round, here's what they found.
The windmills turn around and around and around.
The whole world 'round, here's what they found.
The windmills turn around and around and around.

The wind is blowing everywhere.
There's transformation in the air.
The wind is rising it would appear.
Why can't it be happening here?

The wind is blowing everywhere.
There's transformation in the air.
The wind is rising it would appear.
Why can't it be happening here?

Take the power of the wind and sun.
Bring it to Saskatchewan.
But amid the sun and wind and rain,
We've got uranium on the brain.
Gotta keep that uranium in the ground.
Let the windmills turn around and around.
Keep the uranium in the ground.
Let the windmills turn around and around.

Hope for the future need not be drowned.
Let the windmills turn around and around.
Hope for the future need not be drowned.
Let the windmills turn around and around.
Around and around and around.

Yes to Wind and Solar (2022-046)

No one has ever made a nuclear weapon
From a windmill.

No one has ever made a nuclear weapon
From a windmill.

Some say all kinds of energy
Come with their own challenges,
But no one has ever made a nuclear weapon
From a windmill.

No one has ever destroyed a city
With a solar panel.

No one has ever destroyed a city
With a solar panel.

Some say all kinds of energy
Come with their own challenges,
But no one has ever destroyed a city
With a solar panel.

No one will ever bring the world to an end
With wind or solar power.

No one will ever bring the world to an end
With wind or solar power.

Some say all kinds of energy
Come with their own challenges,
But no one will ever bring the world to an end
With wind or solar power.

So let's say no to nuclear,
Yes to wind and solar.

Let's say no to nuclear,
Yes to wind and solar.

Let us build a future
That's livable and sustainable.

Let's say no to nuclear,
Yes to wind and solar.

Yes to wind and solar.
Yes to wind and solar.

**Transformation Cry (2023-001)

Brother Sun and Sister Moon
And Sister Earth, let us be true.
We are children of the earth and sky.
Let us join in a transformation cry.
Join in a transformation cry.

Brother Sun and Sister Moon
And Sister Earth, let us be true.
We are children of the earth and sky.
Let us join in a transformation cry.
Join in a transformation cry.

Transformation, transformation,
Transformation cry.

Brother Wind and Sister Stream
And Sister Rain, so let us dream.
We are pilgrims in space and time.
And the road of life will wind and wind.
The road of life will wind and wind.

Brother Wind and Sister Stream
And Sister Rain, so let us dream.
We are pilgrims in space and time.
And the road of life will wind and wind.
The road of life will wind and wind.

The road of life will wind.
The road of life will wind.
The road of life will wind and wind.

Brother Sun and Sister Moon
And Sister Earth, let us be true.
We are children of the earth and sky.
Let us join in a transformation cry.
Join in a transformation cry.

Transformation, transformation,
Transformation cry.
Transformation, transformation,
Transformation cry.

A Billion People Saw the Earth (2023-002)

A billion people saw the earth
Rising over the surface of the moon,
On Christmas Eve 1968.
Is there time to make ourselves anew?
Time to make ourselves anew.

When you see the earth from space
You realize just who we are.
We're a finite and fragile planet here
Surrounded by a sky of stars.
Surrounded by a sky of stars.

And you say, I want this small planet to live.
Let us learn to live at peace with all.
Within the limits of the biosphere
With all creatures great and small.
With all creatures great and small.

You say with the words of Coleridge,
Responding to the poet's call,
The good God who made the earth,
The good God made and loveth all.
The good God made and loveth all.

A billion people saw the earth
Rising over the surface of the moon,
On Christmas Eve 1968.
This is the birth of something new.
This is the birth of something new.
And to the earth let us be true.
This is the birth of something new.
And to the earth let us be true.

Enjoy the World (2023-003)

We humble ourselves before the earth.
We sing a song of our own true worth.
We are beings of dignity,
And all the biosphere shall go free.

We humble ourselves before the earth.
We sing a song of our own true worth.
We are beings of dignity,
And all the biosphere shall go free.

We want to be able to enjoy the world.
We do not care for those who would destroy the world.
Sometimes this means we must annoy the world.
We want to be able to enjoy the world.
Enjoy the world. Enjoy the world.

The world is beautiful. Enjoy your share.
With earth and sunlight, water and air.
We'll keep this world a turning 'round.
We'll share the sweet truths we have found.

The world is beautiful. Enjoy your share.
With earth and sunlight, water and air.
We'll keep this world a turning 'round.
We'll share the sweet truths we have found.

We want to be able to enjoy the world.
We do not care for those who would destroy the world.
Sometimes this means we must annoy the world.
We want to be able to enjoy the world.
Enjoy the world. Enjoy the world.

We want to be able to enjoy the world.
We do not care for those who would destroy the world.
Sometimes this means we must annoy the world.
We want to be able to enjoy the world.
Enjoy the world. Enjoy the world.
Enjoy the world. Enjoy the world.

Burned by the USA (2023-004)

(Can be sung to the tune of "Born in the USA")

We are the people of the world
Where Washington's wrath has been unfurled,
From Vietnam to El Salvador,
From Guatemala to East Timor.

We got burned by the USA.
We got burned by the USA.
We got burned by the USA.
We got burned by the USA.

They dropped napalm from the sky.
There was no time to wonder why.
Bombs and bullets everywhere,
Death squads and torture rooms, we had our share.

We got burned by the USA.
We got burned by the USA.
We got burned by the USA.
We got burned by the USA.

The USA simply has no soul
And capitalism comes and takes its toll.
Whenever people dare to organize,
Washington comes to pulverize.

We get burned by the USA.
We get burned by the USA.
We get burned by the USA.
We get burned by the USA.

One day the people of the world will rise.
Washington will fall amid all its lies.
We will build a whole new scene,
A world of peace and equity.

We will live in dignity,
Free of the US war machine.
As we rejoice at being free,
We'll remember where we've been.

We got burned by the USA.
We got burned by the USA.
We got burned by the USA.
We got burned by the USA.

We got burned by the USA.
We got burned by the USA.

We got burned by the USA.
We got burned by the USA.

Love and Peace and Joy (2023-005)

Mother Goddess

You fill the cosmos.

Bring love to my heart.

Mother Goddess

You fill the cosmos.

Bring peace to my heart.

Mother Goddess

You fill the cosmos.

Bring joy to my heart.

Love and peace and joy,

They dwell in my heart.

Love and peace and joy,

They dwell in my heart.

Mother Goddess

You fill the cosmos.

Come dwell in my heart.

And I will dwell in you.

Come dwell in my heart.

And I will dwell in you.

Dream of the Earth (2023-006)

Dream of the earth.
Dream of a new time.
Dream of gentle changes
In our world and in our minds.

Dream of the earth,
Turning in the sky.
We can build anew
If we give it our best try.

Let us dream. Let us dream. Let us dream.

Dream of the earth,
Blue white turning sphere.
Dream of utopia.
Surely it will appear.

Dream of the earth,
This beautiful burning world.
With the power in our hearts and minds
The new day shall unfurl.

Let us dream. Let us dream. Let us dream.

Dream of the earth.
Dream of a new time.
Dream of gentle changes
In our world and in our minds.

Dream of the earth,
Turning in the sky.
We can build anew
If we give it our best try.

Let us dream. Let us dream. Let us dream.

Dream of the earth,
Blue white turning sphere.
Dream of utopia.
Surely it will appear.

Dream of the earth,
This beautiful burning world.
With the power in our hearts and minds
The new day shall unfurl.

Let us dream. Let us dream. Let us dream.

Dream of the earth.

Dream of the earth.
Dream of the earth.

Thinking Like a Planet (2023-007)

Thinking like a planet.
Thinking like a planet.

Thinking like a mountain,
Thinking like a stream.
Thinking like the children
Of an ancient dream.

Thinking like a planet.
Thinking like a planet.

Thinking like a forest.
Thinking like a tree.
Our roots go down
With our branches waving free.

Thinking like a planet.
Thinking like a planet.

Thinking like a mystic
In solidarity,
With the love that shines
In you and in me.

Thinking like a planet.
Thinking like a planet.

Thinking like a planet
Turning 'round,
Turning in the sky
Living on sacred ground.

Thinking like a planet.
Thinking like a planet.

Thinking like a planet
Let us all unite.
Let us join our hearts as one
And make it home tonight.

Thinking like a planet.
Thinking like a planet.

All the earth is one biocommunity,
Turning 'round, living and loving in unity.
All the earth is one biocommunity,
Turning 'round, living and loving in unity.

Thinking like a planet.

Thinking like a planet.

All the earth is one biocommunity,
Turning 'round, living and loving in unity.
All the earth is one biocommunity,
Turning 'round, living and loving in unity.

Thinking like a planet.
Thinking like a planet.
Thinking like a planet.
Thinking like a planet.

The Ballad of RBC (2023-008)

The man said you gotta have a membership card to get inside.
But once upon a time I dreamed the people can turn the tide.
The man said planet-loving people can't go inside.
But one day capitalism and colonialism will die.

Even with a membership card you can't get in if you're not white.
It's the Royal Bank of Canada's latest vision of apartheid.
But we remember in 1994, apartheid came tumbling down.
RBC and colonialism will tumble to the ground.

May the people stand as one and turn the world around.
We know within our hearts, all the earth is sacred ground.
May the people stand as one and turn the world around.
We know within our hearts, all the earth is sacred ground.

We are the voices that RBC doesn't want the world to hear.
We're the ones who dare to stand their ground and fight for the biosphere.
We are the voices that RBC doesn't want the world to hear.
We're the ones who dare to stand our ground and fight for the biosphere.

How do you spell racist. We spell it RBC.
How do you spell colonizer. We spell it RBC.
How do you spell green-washing. We spell it RBC.
One day all the earth and the people shall be free.

One day all the earth and the people shall be free.
Until that time we'll sing this ballad of RBC.
One day all the earth and the people shall be free.
Until that time we'll sing this ballad of RBC.

Capitalism Brings Pain (2023-009)

Capitalism brings pain.
Colonialism brings pain.
A drug coursing through a vein,
Overdosed again.

Capitalism brings pain.
Colonialism brings pain.
A drug coursing through a vein,
Overdosed again.

How many people will die
Before we start to ask why,
Before we raise a cry
To the sky.

Society's going insane.
There's something wrong with our brains.
All we feel is distain
From the ones who run the game,
When they throw us out in the rain, again.

Capitalism brings pain.
Colonialism brings pain.
A drug coursing through a vein,
Overdosed again.

How many people will die
Before we start to ask why,
Before we raise a cry
To the sky.

Society's going insane.
There's something wrong with our brains.
All we feel is distain
From the ones who run the game,
When they throw us out in the rain, again.

There is no long term gain,
Only a czar with no name.
The moon will wax and wane,
But reality's still the same.
No skin off the noses
Of the ones
Who run the power game.

There is no long term gain,
Only a czar with no name.
The moon will wax and wane,
But reality's still the same.

No skin off the noses
Of the ones
Who run the power game.

No skin off the noses
Of the ones
Who run the power game.

Keep Your Eyes on the Prize, New Revolution Lyrics (2023-010)

Let us join our hearts as one
Beneath the light of the moon and sun.

Keep your eyes on the prize. hold on.
Hold on. Hold on.
Keep your eyes on the prize. Hold on.

Let us join our hands as one
And dream a new day has begun.

Keep your eyes on the prize. Hold on.
Hold on. Hold on.
Keep your eyes on the prize. Hold on.

Let us join our minds as one
And send oppression on the run.

Keep your eyes on the prize. Hold on.
Hold on. Hold on.
Keep your eyes on the prize. Hold on.

Let us join our souls as one.
We know our work will soon be done.

Keep your eyes on the prize. Hold on.
Hold on. Hold on.
Keep your eyes on the prize. Hold on.

Some tell us not to go too far,
But we spell evolution with an R.

Keep your eyes on the prize. Hold on.
Hold on. Hold on.
Keep your eyes on the prize. Hold on.

So we live and dream as one
And make a revolution.

Keep your eyes on the prize. Hold on.
Hold on. Hold on.
Keep your eyes on the prize. Hold on.

We are aware of who we are,
A revolution of the heart.

Keep your eyes on the prize. Hold on.
Hold on. Hold on.
Keep your eyes on the prize. Hold on.

Let the revolution live.
We'll give it all we have to give.

Keep your eyes on the prize. Hold on.
Hold on. Hold on.
Keep your eyes on the prize. Hold on.
Keep your eyes on the prize. Hold on.
Keep your eyes on the prize. Hold on.

How High Are the Mushrooms (2023-011)

How high are the mushrooms.
Higher than the moon.
How high are the mushrooms.
Higher than the sun.

You can walk into a mushroom,
Make your home inside.
You can walk into a mushroom
Where it grows in the sky.

How high are the mushrooms.
Higher than the moon.
How high are the mushrooms.
Higher than the sun.

You can dream in a mushroom,
Have your dreams inside.
You can dream in a mushroom
Where it dreams in the sky.

How high are the mushrooms.
Higher than the moon.
How high are the mushrooms.
Higher than the sun.

You can live among the mushrooms.
You can live inside.
You can live among the mushrooms
Where they live in the sky.

How high are the mushrooms.
Higher than the moon.
How high are the mushrooms.
Higher than the sun.

You can dance with the mushrooms.
You can dance inside.
You can dance with the mushrooms
Where they dance in the sky.

How high are the mushrooms.
Higher than the moon.
How high are the mushrooms.
Higher than the sun.

Some mushrooms are purple.
Some mushrooms are blue.
Some mushrooms are red.
Some are green or golden too.

How high are the mushrooms.
Higher than the moon.
How high are the mushrooms.
Higher than the sun.

A mushroom will take you
Into its inner space.
It will take you on a journey
To a whole new place.

How high are the mushrooms.
Higher than the moon.
How high are the mushrooms.
Higher than the sun.

So journey with the mushrooms.
Journey to the moon.
Journey with the mushrooms.
Journey to the sun.

How high are the mushrooms.
Higher than the moon.
How high are the mushrooms.
Higher than the sun.

And so become the mushrooms.
So become the moon.
So become the mushrooms.
So become the sun.

How high are the mushrooms.
Higher than the moon.
How high are the mushrooms.
Higher than the sun.
Higher than the sun.
Higher than the sun.
Higher than the sun.

All the Cosmos (2023-012)

All the cosmos is a dance,
An evolutionary prance.
The Mind Love Power dreams it all in a glance.
All the cosmos is a dance.

All the cosmos is a dream,
An evolutionary stream.
The Mind Love Power illuminates it all
With a gentle beam.
All the cosmos is a dream.

All the cosmos is a song,
An evolutionary breaking dawn.
We join our hearts as one and we grow strong.
All the cosmos is a song.

All the stars are shining free and bright,
Illuminating the cosmic night.
Our hearts and minds and souls take to flight.
All the stars are shining free and bright.

All the cosmos is a dance,
An evolutionary prance.
The Mind Love Power dreams it all in a glance.
All the cosmos is a dance.
All the cosmos is a dance.
All the cosmos is a dance.

Ballad of the Steep Hill Revolution (2023-013)

O the year was 1978,
In this sleepy town of Saskatoon,
Some people came together from all around
To bring organic produce to our town.

We love you all, heart and soul.
Time for a new day to unfold.
We'll buy our food, and live our lives.
We'll give it all that we have to give.
Let the Steep Hill Revolution live.

Steep Hill co-op was the name,
In this sleepy town of Saskatoon,
The name they gave to the health food store,
And the people kept coming back for more.

We love you all, heart and soul.
Time for a new day to unfold.
We'll buy our food, and live our lives.
We'll give it all that we have to give.
Let the Steep Hill Revolution live.

Fruit and vegetables everyone,
In this sleepy town of Saskatoon,
Dairy products, meat and bread,
Rice and pasta so we're all well fed.

We love you all, heart and soul.
Time for a new day to unfold.
We'll buy our food, and live our lives.
We will give it all that we have to give.
Let the Steep Hill Revolution live.

The years and the decades they went by,
In this sleepy town of Saskatoon.
The store and the people and the product line grew,
Bringing the best to me and you.

We love you all, heart and soul.
Time for a new day to unfold.
We'll buy our food, and live our lives.
We will give it all that we have to give.
Let the Steep Hill Revolution live.

Now the year is 2023,
In this sleepy town of Saskatoon.
We been through some ups and downs,
But the revolution keeps turning 'round.

We love you all, heart and soul.
Time for a new day to unfold.
We'll buy our food, and live our lives.
We will give it all that we have to give.
Let the Steep Hill Revolution live.

So here's to everyone far and wide,
In this sleepy town of Saskatoon.
Life sometimes seems like a rather steep hill,
But come make some friends and eat your fill.

We love you all, heart and soul.
Time for a new day to unfold.
We'll buy our food, and live our lives.
We will give it all that we have to give.
Let the Steep Hill Revolution live.

Where Morning Time is Near (2023-014)

(Can be sung to the tune of North West Passage)

We are one with the land.
We are one with the turning,
The turning of the earth
And all the living biosphere.
With our hearts and our hands
And our minds we're surely learning,
To build a world where morning time is near.

Deep within our hearts we dream
A world of equity,
Joining hands around the world
In solidarity.
Bringing out the best that dares
To dwell in everyone
To shine beneath the light of moon and sun.

We are one with the land.
We are one with the turning,
The turning of the earth
And all the living biosphere.
With our hearts and our hands
And our minds we're surely learning,
To build a world where morning time is near.

No longer need our children ask us
When will morning come.
The new day it is dawning
With the rising of the sun.
We build a world of justice
Deep ecology and peace,
Where all living things shall live in harmony.

We are one with the land.
We are one with the turning,
The turning of the earth
And all the living biosphere.
With our hearts and our hands
And our minds we're surely learning,
To build a world where morning time is near.

So let us light our candles
Like a gentle inner light,
To light a path to bring us
Through the darkness of the night.
The stars above will guide us
As we make our way,

On the passage to the dawn of the new day.

We are one with the land.
We are one with the turning,
The turning of the earth
And all the living biosphere.
With our hearts and our hands
And our minds we're surely learning,
To build a world where morning time is near.

The new day is a new world
Of peace and equity,
Food sovereignty and ecological
Community.
We will keep on living
With the rivers flowing free,
Our hearts and minds and souls in unity.

We are one with the land.
We are one with the turning,
The turning of the earth
And all the living biosphere.
With our hearts and our hands
And our minds we're surely learning,
To build a world where morning time is near.
Let's build a world where morning time is near.

Song for St. Ambrose (2023-015)

St. Ambrose was a governor,
A gentle Roman governor,
Beloved by the people,
And so they wanted to
Make him their bishop.
But there was only one problem.
He wasn't baptized.

So they baptized him
And he became Christian
And he became their bishop.

He was well versed in
Greek and Roman philosophy,
And so he read the Bible
And here's what he had to say,
Using the words of the day.

He said before the fall
Humanity had lived in
A state of communism
Before private property.
And Christ had come to
Restore communism to the earth.

I think there was a grain of truth in
What he had to say
Back in the fourth century.
So let us fight for
A communistic society.
Let us fight for community.
Let us fight for equity.
Let us restore communism to the earth.

There is a grain of truth
In what St. Ambrose had to say,
Back in the fourth century.
What St. Ambrose had to say
Back in the fourth century.

There's a Songbird (2023-016)

There's a songbird in the forest,
And it's singing for you and for me.
Let its song flow through the forest,
Over the ocean. Let it be free.
There's a songbird in the forest,
And it's singing for you and for me.
Let its song flow through the forest,
Over the ocean. Let it be free.

There's a message and a meaning
In the songbird's gentle song.
Calling us to get together,
Saying may you all be one.
There's a message and a meaning
In the songbird's gentle song,
Calling us to get together,
Saying may you all be one.

There's a songbird in the forest
And it's singing for you and for me.
Let its song flow through the forest,
Over the ocean. Let it be free.
There's a songbird in the forest,
And it's singing for you and for me.
Let its song flow through the forest,
Over the ocean. Let it be free.

All the world is freely dancing,
Fields of green and skies of blue.
And the wind is freely blowing
In the hearts of me and you.
All the world is freely dancing,
Fields of green and skies of blue.
And the wind is freely blowing
In the hearts of me and you.

There's a songbird in the forest,
And it's singing for you and for me.
Let its song flow through the forest,
Over the ocean. Let it be free.
There's a songbird in the forest,
And its singing for you and for me.
Let its song flow through the forest,
Over the ocean. Let it be free.

Surely love and peace and freedom
Will fill your every hour.
With the pulse of Satyagraha
Comes the gentle mystic flower.

Surely love and peace and freedom
Will fill your every hour.
With the pulse of Satyagraha
Comes the gentle mystic flower.

There's a songbird in the forest,
And it's singing for you and for me.
Let its song flow through the forest,
Over the ocean. Let it be free.
There's a songbird in the forest
And it's singing for you and for me.
Let its song flow through the forest,
Over the ocean. Let it be free.
Over the ocean. Let it be free.
Over the ocean. Let it be free.
Over the ocean. Let it be free.

Song of the SMRs (2023 version) (2023-017)

Come all you good people
And hear the latest news.
Our province wants us all to take
An insane nuclear cruise.

They call them SMRs,
They call them SMRs,
Small modular reactors,
They call them SMRs.

Small modular reactor,
That's what the initials mean.
They might be small, but they are neither
Safe or cheep or green.

Away with SMRs.
Away with SMRs.
Small modular reactors,
Away with SMRs.

They'll tell you it's the future.
We're shooting for the stars.
But there is really nothing new
When we're talking SMRs.

Away with SMRs
Away with SMRs,
Small modular reactors,
Away with SMRs.

They'll emphasize the smallness,
But open up your eyes.
Small is never beautiful
When it's been nuclearized.

Away with SMRs,
Away with SMRs,
Small modular reactors,
Away with SMRs.

Radiation's radiation
No matter how small or large.
Our health and the environment
Can still be zapped by SMRs.

Away with SMRs,
Away with SMRs,
Small modular reactors,
Away with SMRs.

Size doesn't really matter
With radioactivity.
With a meltdown it will get you
With its dark absurdity.

Away with SMRs.
Away with SMRs.
Small modular reactors,
Away with SMRs.

From fifty to four hundred
Megawatts all in all,
These so-called small reactors
Are really not so small.

Away with SMRs.
Away with SMRs.
Small modular reactors,
Away with SMRs.

We know the truth about SMRs
When we look at history.
It's the latest stupid attempt to save
The nuclear industry.

Away with SMRs.
Away with SMRs.
Small modular reactors,
Away with SMRs.

Over budget, behind schedule,
Is what every nuke has been.
No matter how you package it
It's still the same old scene.

Away with SMRs.
Away with SMRs.
Small modular reactors,
Away with SMRs.

If you count the whole nuclear fuel chain,
It is not carbon free.
From uranium mining to waste storage,
It all takes energy.

Away with SMRs.
Away with SMRs.
Small modular reactors,
Away with SMRs.

They never built the Slowpoke 3,
The Candu 3 or Candu 9.
They've gone to the dump of history
And that suits me just fine.

Away with SMRs,
Away with SMRs,
Small modular reactors,
Away with SMRs.

Let's change the conversation
Say away with SMRs.
Let's overthrow the industry
And all the nuclear czars.

Away with SMRs.
Away with SMRs.
Small modular reactors,
Away with SMRs.

Every dollar that we spend
On the nuclear dinosaurs
Is a dollar not spent on bringing wind
And solar to our shores.

Away with SMRs.
Away with SMRs.
Small modular reactors,
Away with SMRs.

Together let us organize
And dare to stand as one.
Build a world that gets its energy
From water, wind and sun.

Away with SMRs.
Away with SMRs.
Small modular reactors,
Away with SMRs.

No more shall we be hoodwinked
By the nuclear nice white lies.
Solar panels and windmills
Shall fill our future skies.

Away with SMRs.
Away with SMRs.
Small modular reactors,
Away with SMRs.

The lumbering nuclear industry

Has clearly had its day.
With our vision of a renewable world
We will not go away.

Away with SMRs.
Away with SMRs.
Small modular reactors,
Away with SMRs.

Tell everybody everywhere
A new day has begun.
With the turning of the windmills
And the rising of the sun.

Away with SMRs.
Away with SMRs.
Small modular reactors,
Away with SMRs.
Away with SMRs.
Away with SMRs.

Dream, (2023-018)

We have no mouth, but we must scream.
We have no time, but we must dream.
We are the ripples on the stream.
We have no mouth, but we must scream.

We are the stars that gently shine.
We are the wind that blows through time.
We are this world of oak and pine.
We are the stars that gently shine.

We know the sun will rise one day.
And it will sweep the clouds away.
A million voices will have their say.
We know the sun will rise one day.

We have no mouth, but we must scream.
We have no time, but we must dream.
We are the ripples on the stream.
We have no mouth, but we must scream.

We have no mouth, but we must scream.
We have no time, but we must dream.
So let us scream, so let us dream.
So let us scream, so let us dream.

Ready to Delight (2023-019)

I refuse to be a puppet on a string.
I refuse to be a corporate plaything.
I'm a radical troubadour who dares to sing
Out beyond the capitalist circus ring.

I'm ready for the revolution whenever it may be.
I'm ready for a movement that can set us free.
We're ready to delight in dignity
Sustainability and social equity.

We are the wind that comes to stir the night.
We are the people ready to delight.
We are the wind that comes to stir the night.
We are the people ready to delight.
Ready to delight, ready to delight,
To delight in a world where might does not make right.

I refuse to be a puppet on a string.
I refuse to be a corporate plaything.
I'm a radical troubadour who dares to sing
Out beyond the capitalist circus ring.

I'm ready for the revolution whenever it may be.
I'm ready for a movement that can set us free.
We're ready to delight in dignity
Sustainability and social equity.

We are the wind that comes to stir the night.
We are the people ready to delight.
We are the wind that comes to stir the night.
We are the people ready to delight.
Ready to delight, ready to delight,
To delight in a world where might does not make right.

Round Rocker (2023-020)

Round rocker, town rocker, town rocker, round rue.
Where do you come from. What would you do.
Round rocker, town rocker, town rocker, round rue.
Where do you come from. What would you do.

What do you imagine. What are your dreams.
Why do you contemplate in fast moving streams.
What do you imagine. What are your dreams.
Why do you contemplate in fast moving streams.

Round rocker, town rocker, town rocker, round rue.
Where do you come from. What would you do.
Round rocker, town rocker, town rocker, round rue.
Where do you come from. What would you do.

We are the daylight. We are the dark.
We are the beating of the soft human heart.
We are the daylight. We are the dark.
We are the beating of the soft human heart.

Round rocker, town rocker, town rocker, round rue.
Where do you come from. What would you do.
Round rocker, town rocker, town rocker, round rue.
Where do you come from. What would you do.

Round rocker, town rocker, town rocker, round rue.
Where do you come from. What would you do.

**We Say No to Nuclear (2023-021)

The nuclear industry
Is a dinosaur.
But it will keep on thrashing about
For a few more decades or more.

The nuclear industry
Is a dinosaur.
But it will keep on thrashing about
For a few more decades or more.

Howling and growling and prowling around
Whether we want it to or not,
We must be on our guard before
The nuclear industry puts us on the spot.

Howling and growling and prowling around
Whether we want it to or not,
We must be on our guard before
The nuclear industry puts us on the spot.

We say no to nuclear
And we'll say no again.
Ionizing radiation
Sends us 'round the bend.

We say no to nuclear
And we'll say no again.
Ionizing radiation
Sends us 'round the bend.

Five billion dollars
For a small modular reactor.
There are better ways
That money could be spent.

Five billion dollars
For a small modular reactor.
There are better ways
That money could be spent.

It's time for the nuclear industry
To come to an end.
Time for the nuclear industry
To come to an end.

The nuclear industry
Is a dinosaur.
But it will keep on thrashing about
For a few more decades or more.

Activist Rover (2023-022)

I'm an activist rover I am.
I'm an activist rover I am.
Some people grow old and adjust to the world,
But I keep on doing what I can.
I'm an activist rover I am.

I'm an activist rover of time.
I'm an activist rover of time.
Still fighting for justice and peace and earthcare
With all of my heart and my mind.
I'm an activist rover of time.

I'm an activist rover I am.
I'm an activist rover I am.
Some people grow old and adjust to the world,
But I keep on doing what I can.
I'm an activist rover I am.

May the activist rover live on.
May the activist rover live on.
Still daring to dream of a new breaking dawn,
Singing a rebel song.
May the activist rover live on.

I'm an activist rover I am.
I'm an activist rover I am.
Some people grow old and adjust to the world,
But I keep on doing what I can.
I'm an activist rover I am.

May the activist rover live on.
May the activist rover live on.
Still daring to dream of a new breaking dawn,
Singing a rebel song.
May the activist rover live on.

Live on, live on, activist rover.
For the fight is far from over.
Live on, live on, activist rover.
For the fight is far from over.

I'm an activist rover I am.
I'm an activist rover I am.
I'm an activist rover I am.

Roll Them Out the Door (2023-023)

We'll be taking books off school library shelves
Like we never have before.
In the name of political correctness
We'll declare a culture war.

If someone doesn't like Ray Bradberry
We'll roll Ray Bradberry out the door.
If someone doesn't like Robert A. Heinleine
We'll roll Heinleine out the door.

If someone doesn't like Ursilla K. Le Guin
We'll roll Le Guin right out the door.
If someone doesn't like Marion Zimmer Bradley
We'll roll Bradley out the door.

We'll be taking books off school library shelves
Like we never have before.
In the name of political correctness
We'll declare a culture war.

If someone doesn't like Arthur C. Clarke
We'll roll Clarke right out the door.
If someone doesn't like Doris Lessing
We'll roll Lessing out the door.

If someone doesn't like Izaac Asimov
We'll roll Asimov out the door.
If someone doesn't like Lester del Rey
We'll roll del Rey out the door.

And when the library shelves are empty
And our minds are empty too,
There'll be no one left to tell us
That our books are overdue.

When you take every objectionable author
And roll them out the door,
All you're left with is a maddening crowd
A coliseum crowd who beys for more.

Perhaps we should remember
The words of Victor Hugo.
You open one more prison
Every time you close a school.

There are some who might be smiling
In their bitterness and greed,
But all we ever wanted
Was the student's right to read.

We'll be taking books off the school library shelves
Like we never have before.
If someone doesn't like an author
We'll roll that author out the door.

They're taking every book out
From Harry Potter to Lord of the Rings.
Margaret Atwood, Farley Mowat,
Margaret Lawrence and Thomas King.

In my day the only book they worried about
Was Huckleberry Fin.
Now it's Stone Angel, Green Grass Running Water
And Who has Seen the Wind.

Needless to say there's no more room
For Fahrenheit 451.
Ray Bradberry was sent out the door
Before this all had begun.

Maybe it's time to declare the right to read
From shore to shore to shore.
Maybe it's time to roll political correctness
Roll it out the door.

Maybe it's time to declare the right to read
From shore to shore to shore.
Maybe it's time to roll political correctness
Roll it out the door.

All Good People Join Hands (2023-024)

All good people join hands now.
All good people join hands.

See a world in a grain of sand now.
See a world in a grain of sand.

Good people take a stand now.
Good people take a stand.

Join hearts across the land now.
Join hearts across the land.

We might be a ragged band now.
We might be a ragged band.

But we refuse to be canned now.
We refuse to be canned.

Let's dare to understand now.
Dare to understand.

All good people join hands now.
All good people join hands.

See a world in a grain of sand now.
See a world in a grain of sand.

No to the Rule of Fossil Fuels (2023-025)

We the people, say no to
The rule of fossil fuels.
It is time to, overthrow them.
We refuse to be fools.

We the people, say no to,
The rule of fossil fuels.
It is time to, overthrow them.
We refuse to be fools.

No more oil and, no more tar sands,
No more natural gas or coal.
It is time to, build a green world
That can be sustainable.

No more oil and, no more tar sands,
No more natural gas or coal.
It is time to, build a green world,
That can be sustainable.

We the people, say no to,
The rule of fossil fuels.
It is time to, overthrow them.
We refuse to be fools.

We the people, say no to,
The rule of fossil fuels.
It is time to, overthrow them.
We refuse to be fools.

No more oil and, no more tar sands,
No more natural gas or coal.
It is time to, build a green world,
That can be sustainable.

No more oil and, no more tar sands,
No more natural gas or coal.
It is time to, build a green world,
That can be sustainable.

We the people, say no to,
The rule of fossil fuels.
It is time to, overthrow them.
We refuse to be fools.

We the people, say no to,
The rule of fossil fuels.
It is time to, overthrow them.
We refuse to be fools.
We refuse to be fools.
We refuse to be fools.

Song for Tim Jackson (2023-026)

How does it go Tim Jackson.
Can we have a world without growth.
Can we have prosperity without growth.
I guess one day we'll all know.

Humanity keeps expanding
Upon this finite globe.
We're gonna have to stop expanding and build
A world that's sustainable.

How does it go Tim Jackson.
Can we have a world without growth.
Can we have prosperity without growth.
I guess one day we'll all know.

We all want to keep on living,
But we like our prosperity.
Maybe we're gonna have to compromise
To be what we want to be.

How does it go Tim Jackson.
Can we have a world without growth.
Can we have prosperity without growth.
I guess one day we'll all know.

Remember the words of Tim Jackson
Everywhere you go.
We're living on a finite planet here.
There's only so far we can grow.

Maybe we can find some peace inside
And go with the cosmic flow.
Maybe we can take up meditation
And work on inward growth.

How does it go Tim Jackson.
Can we have a world without growth.
Can we have prosperity without growth.
I guess one day we'll all know.

I guess one day we'll all know.
I guess one day we'll all know.
I guess one day we'll all know.
